## Letter to Shareholders

## **Preface**

According to statistics of International Monetary Fund (IMF), world economic growth for 2019 was 2.9%, dropped from 3.7% of the previous year, mostly attributed by: U.S.-China trade conflict, turmoil of Brexit, Japan-Korea trade disputes, and other geopolitical tensions and uncertainties. In 2020, major economic indexes still seem stagnant across major economies, coupled with anti-government demonstrations in the emerging nations causing social turbulence, and the global spread of COVID-19 pandemic, world economy growth shall face with various challenges.

Fueled by transfer order brought by U.S.-China trade war and expediting return of Taiwanese investors, Taiwan's domestic demand in 2019 performed remarkably and reported annual substantial investment growth of 7.58%, the highest growth in recent eight years. In the upcoming year, thanks to continuous developments of new technologies including 5G telecom and artificial intelligence, active foreign investments in Taiwan, and the government's optimization of local investment environment, domestic investments are expected to increase steadily to extend moderate economic growth in Taiwan; however, the development of COVID-19 still elevates uncertainty in terms of economic growth.

With the opening of new large-scale outlets, Taiwan department stores' total sales reached NT\$355.2 billion in 2019, up 4.4% year-over-year with consecutive growth for ten years, demonstrating growth momentum of the overall retail consumption. Facing with retail development trends such as new emerging competitions, changes of shopping habits, the increasing importance of shopping experience, Far Eastern Department Stores (FEDS) has been keen to expedite its digital transformation and technology enhancement, focus on customer value and experience. By adopting to digital technology to re-examine the process design of operations, management, and services moving toward a business model more catering to customer needs and expectations. Thanks to the joint efforts by the management team and all of the workforce, in 2019 FEDS continued to outperform peers and delivered an outstanding performance of registering record high sales and operating profit exceeding NT\$2.1 billion, and continues to create maximum value and reward for its shareholders.

Technology innovation has initiated the arrival of new consumption era, FEDS with forward vision and insightful observation of environmental change early on, makes quick responsive decisions to set the new benchmark of smart retailing. During the past year, our comprehensive outstanding performances were often accredited by domestic and international awards. We were bestowed with nearly 30 honors, including winning among 19 nations the 2019 "Best Effort in Social Responsibility" by Federation of Asia-Pacific Retailers Association; "Corporate Social Responsibility Awards" by Retailers Association of Chinese Taipei for two consecutive years; "Growth through Innovation Award" by Taiwan Corporate Sustainability Award four years in a roll; "Top 50 Excellence in Corporate Social Responsibility" by Commonwealth Magazine for five consecutive years; selected in the "Top 100 Brand Asia List" for four consecutive years, and etc. Facing with new retailing era, FEDS is committed to cultivating innovative "New Mindset", planning "New Strategy" for smart retailing, and fostering the "New Capability" in digital management to continuously sharpen competitive edge, seek ongoing growth under challenging environment, and create new growth opportunities.

## **Operating Report of 2019**

In 2019, FEDS recorded consolidated sales of NT\$114.6 billion (according to IFRS, consolidated revenues were NT\$37.9 billion). Consolidated net profit was NT\$2.15 billion, company alone net profit was NT\$1.78 billion, and earnings per share were NT\$1.26. According to the 18th Board Meeting of FEDS, total cash dividend payout for 2019 was NT\$0.8. Operating result of the Far Eastern Retail Group in 2019 is summarized as follows:

## (1) Far Eastern Department Stores

- 1. Maintaining growth momentum and continuously rising profit, FEDS registered record high profit within five years.
- 2. Grand opening of FEDS Hsinyi A13 Store, recording outstanding revenues since soft opening,

- achieving the first 3-million records in the industry, including: million guest visits, million network volume, and million check-in hotspot at 4F Old Street.
- 3. To embrace the trend of digitization, FEDS has upgraded its new APP, added four major functions including personalized information push, parking service, smart customer service, and in-store smart pick to provide consumers more convenient digitized services and shopping experience.
- 4. Continue to lead market trend and introduce innovative brands, FEDS Hsinyi A13 Store has launched Taiwan's first independent Apple Flagship Store, the high-end Vieshow MUVIE Cinemas, LEGO Exclusive Store, SONY's largest direct store, etc., all Taiwan's first and unique exclusive brand name stores.
- 5. Sponsoring totally 47 international theme and local produce exhibitions to attract huge foot traffic for visiting, shopping, and experiencing the exotic merchandise and culture in close encounters as to its origins.
- 6. To expedite digitized management, the Company launched Enterprise Information Portal, EIP online in October 2019 to facilitate the process of store operation, management, and services, enhancing operating efficiency. Currently already completed 65 digital systems allowing staff to elevate productivity in a mobilized digital environment.
- 7. To fulfill corporate social responsibilities, FEDS has set up its CSR standards and received nearly 30 domestic and international major awards in 2019 as well as Taiwan's first winner within 40 years of Best Efforts in Social Responsibility by Federation of Asia-Pacific Retailers Association. Commemorating the Far Eastern Group's 70th founding anniversary, the Group dedicated to sponsoring 348 non-profit events throughout the year to join hands with the public and make a promising future.

## (2)Far Eastern SOGO Department Stores

- 1. With steady revenues and retrenching expenses, operating profit is maintained to report over 10% growth in pre-tax profit.
- 2. To improve customer services and meet their demands, Far Eastern SOGO adjusted each store's environment, merchandise, and brands; altogether 624 counters were modified, accounting for 25% of total brands, in combination with holistic promotional campaigns to stabilize revenues, and improve competitiveness.
- 3. Develop high-end merchandise in recent years, continue to boost revenue growth, apparel under the impact of e-commerce and fast fashion is expected to face low or decreasing growth, food and beverage remain popular by consumers, however brand replacement will be faster, and would need to introduce more viral brands to increase revenues.
- 4. In mainland China, FEDS Luomashi Store in Chengdu was closed down in March 2019, also expedite the improvements of the three major Shanghai Hsu Huei Store, Chongqing FEDS Metropolitan Plaza Store, and Jiangbei Store to boost profit.
- 5. Committed to sustainable corporate social responsibility, Far Eastern SOGO received 16 CSR awards. Furthermore, the Company commits to establishing green retailing, and leads Taiwan's department stores to receive twice "Enterprise Environmental Protection Award" by the Executive Yuan, and "Energy Conservation Award" by the Economic Ministry, aiming to push the industry toward sustainable environment.

## (3) Far Eastern Ai-Mai

- 1. Revenues dropped slightly because of store closures at Yungfu and Chungkang branches in March 2019 upon lease expiration. However, operating profit grew significantly due to cost control.
- 2. Promoting 3E Strategy:
  - (1) Edited Sustainable Merchandise:
    - a. Direct delivery of fresh food (fresh/daily distribution)
    - b. Strict quality control of fresh food items
    - c. Traceable/Organic/Friendly Environment
  - (2) Exclusive Value and Feature:
    - a. Convenient onsite cooking for instant use
    - b. Refined quality ingredients
    - c. Low fat, low sugar, low calorie

- (3) Elevated Product Quality
  - a. Cold chain storage logistics protection
  - b. Strict quality control on site
  - c. Random SGS checking
- 3. Delivery logistics: main customer segment of Ai-Mai physical store ranges from 40-60 years old. In order to attract younger customers between 20-35 years of age, Far Eastern Ai-Mai selected foodpanda which has the highest market share among 20-30 years of age to execute delivery services and expand service scope to 5 kilometers, so as to lower impact from supermarket to hypermarket. Quantity change leads into quality change, will also change consumers' shopping habits. Ai Mai Nanya Store and Chingmei Store were launched on December 17 and December 31, 2019, respectively.

## **Business Plan**

Facing with industrial restructuring and dynamic retailing environment, we continue to inject growth momentum in terms of merchandise, management, and services. By adopting new technology, we have been strengthening the interactions with consumers, introducing merchandise and services catering to their needs and preferences, bringing closer ties with the consumers, and continue to deliver outstanding performance and efficiency.

## (1)Far Eastern Department Stores

- 1. With dynamic development of the retailing landscape, new competitions have been emerging, in 2020 apart from strengthening steady revenue growth of existing stores, FEDS will continue to open new stores and expand retailing scope. Chubei New Century Shopping Mall has begun leasing its commercial space.
- 2. Baoqing Store is undergoing its largest renovation phase in a decade. In future, merchandise will be more youth-oriented, more focusing on sports and leisure, and adding more food and beverage brands. Other stores will go through smaller renovation ranging between 10-20%.
- 3. To maintain customer relationship and enhance customer loyalty, the Company will continue to plan more flexible and diverse promotion programs via big data analytics and resource application, and also with the help of digital technologies to stay on the latest consumer trend and movement.
- 4. Responding to changes in media landscape and technological innovation, the Company will strengthen the application of digital media and social platforms, and attract consumers in a lively and interesting engagement, and will also continue to enhance the interactions of FEDS APP and official website, integrate virtual and physical channels, and allow customers to enjoy speedy and personalized services.
- 5. To increase interactions with the sales space, also create the store image of local CSR platform, each branch store continues to organize festive atmosphere and cooperate actively with government or private sectors to promote various CSR events, hopefully to improve more engagement by providing interactive and enhanced experience coupled with promotion of more special local products, thus building each store as the daily hub for local commercial center.
- 6. Taiwan's consumers are highly interested in foreign products. In 2020, FEDS continues to sponsor various international exhibitions so that customers can feel the full replication of foreign ambience without traveling abroad.
- 7. Promote Taiwan's local delicacies, support locally grown produce, plan to sponsor Taiwan featured cultural product exhibitions including a Hakka culture and food exhibition, a Taiwan specialties market, offshore island produce exhibition, a springtime cultural and creativity fair, an independent farmer's market, etc.
- 8. Focus on management: Continue to promote digitized management, establish digitized data system, expedite talent cultivation and English language capability, implement KPI to reasonably control operating cost, cultivate talent and resource allotment, and elevate staff productivity.

## (2)Far Eastern SOGO Department Stores

- 1. Revenues of four major annual campaigns (Chinese New Year, Mother's Day, Mid-year Sales, and Anniversary Sales) account for 38-40% of total annual revenues. In addition to traditional marketing, we will invest more in digital marketing to comply with the new retailing era.
- 2. The quantity and quality of customers are the basic foundation for business operation. Subsequent to cultivating Happy Go cardholders and the bank's high-end spending groups in 2019, we will further enhance VIP services, and focus on market demassification to establish Beauty Club, Kids Club, etc. to manage members and elevate loyalty.
- 3. Following top store performance strategy, the Fuxing Store will become more exquisitely high-end as the single store with highest revenues in the northern Taiwan, while Zhongxiao Store will increase its customer flow focusing on the family customer base to create a unique and friendly mega store, and will go through adjustments of food court, boutique shoes, children's and women's wear
- 4. Expedite digital developments to embrace new economy, upgrade and revise SOGO APP to enhance mobile payment, digital marketing, and social media e-commerce.
- 5. With dynamic digital advancements in China, each store is also integrating online and offline operations, fully utilizing digital communication, marketing, and campaigns to increase revenues. Shanghai Hsu Huei Store, Chongqing FEDS Metropolitan Plaza Store, and Jiangbei Store are on the priority list to boost profit.
- 6. There is still growth opportunity in Chengdu and Shanghai market. Now we are developing new locations, and will submit appropriate new development projects for the Company's consideration.
- 7. Operating Division has set up "Flow Fortune" strategy, with the methodologies of major initiative, main theme, main field, main focus, more digitization, more creativeness, and more customer flow to create high margin as well as high profit.

## (3)Far Eastern Ai-Mai

- 1. Taichung Shuinan Store is scheduled to open in second quarter of 2020.
- 2. Continue to promote order delivery services, Yungho Store, Chunghsiao Store, and Tainan Store were launched in February 2020.
- Combine floor space of office clerks and sales space, care for both services and job duties, enhance
  working efficiency and service quality, extra office space can be planned to increase profit or lower
  expense.
- 4. Continue 3E strategy, promote following optimizing sales space action, satisfying customers every day when shopping at Ai-Mai.
  - (1)Freshness, Safety, Value:
    - a. Strict selection of fresh produce
    - b. Single economy
    - c. Cold chain storage technology for fresh produce
    - d. Regular SGS examination of merchandise
    - e. Pesticide examination room for vegetables and fruits
  - (2) Fully utilize store space to create maximum value and service:
    - a. Improve display and resting/dining area
    - b. Improve entrance and parking lot
    - c. Health and service
    - d. Senior friendly sales space, Happy Go and Happy Cash senior citizen cardholders may enjoy free haircut and free home delivery services.

## (3)Member management:

- a. Discover existing customers via big data of Happy Go, increase repurchase rate (analyze shopping preference), and discover potential new customers, introduce Happy Go new customers of fortress commercial circle
- b. Create digital APP

## **Future Prospective**

Technological innovation has been expediting changes in new retailing, totally reshaping development of the retail landscape. Retailing in the new era must be consumer-oriented, focus on personalized marketing, customer experience, and personalized services, also leverage technology to connect product, service and customers, establish new shopping journey for consumers to meet with their needs and expectations, and maintain closer customer relations. Facing with the tide of new retailing, FEDS maintains its leading operations and polishes its new brand value with digitization, focusing on developing "digitized operation, digitized experience, digitized management", with leaping mindset to transform traditional retail model, successfully create a brand new 5th Generation store – FEDS Hsinyi A13, transform into high-tech department store, and lead consumers to enjoy beautiful lifestyle of smart retailing.

As Taiwan's leading listed department store, FEDS will also continue to strengthen corporate governance, strive to construct new direction for the Company's outstanding and sustainable operations. We have stipulated good corporate governance structure, implemented specification and accountability of job assignment, strengthened proficiency of Board of Directors and information transparency, and established various functional committees to help elevate efficiency and improve policy making, also actively engaged in domestic and international retail associations to expand vision and influence, to drive for sustainable operation and fulfill the sustainability performance in terms of economy, environment, and society. We also aim to establish benchmarks for the innovative development of Taiwan's department stores, and protect stockholders' benefits as well as other stakeholders' interest.

With the development of artificial intelligence and advancement of internet communication, various resources including manpower, information, technology, and funds can flow at unprecedented speed. Advantages possessed by the enterprise may be quickly replicated by competitors, and innovative applications be replaced. To always maintain its leadership, business leaders and management need to exhibit higher level of creativity and strategy. Far Eastern Department Stores will continue to innovate and remain its market leader position, seek merger target and investment opportunity to explore new markets, strengthen digital experience to increase interactions with customers, and elevate operating efficiency through innovative management, embrace digital technology, maintain competitive edge, and become leading brand of smart retailing. Through active creation of new growth, FEDS will restructure its growth curve, and make sure of its sustainable model and lasting excellence, and continue to create maximum value and interest for its stockholders.

Chairman Douglas Tong Hsu

## **II. Company Profile**

## 1. Date of Incorporation

31 August 1967

## 2. Company History

| 1967 | August                           | Far Eastern Textile Co. Ltd. established Far Eastern Department Stores Ltd., which was located on Yongsui Rd. in Taipei   |
|------|----------------------------------|---|
|      | October                          | The first store of FEDS was opened in its own six-floor building on Yongsui Rd. in Taipei.  |
| 1969 | October                          | FEDS Taichung Store was set up.   |
| 1972 | January                          | FEDS Paoching Store was set up and FEDS Yongsui Store was moved to and merged with FEDS Paoching Store.   |

<sup>\*</sup> Please disclose the remuneration policy, system, standard, and composition for determining independent directors' remuneration, and the correlation between duties, risk, and time input with the amount of remuneration.

Remuneration to Directors providing service to entities under the Company's most recent financial report (ex. Serving as non-employee consultants), in addition to remuneration disclosed in the above table: None

<sup>2.5</sup> percent as directors compensation. The actual percentage and amount of directors compensation will be decided by the Board of Directors considering factors such as the responsibilities, time spent, performance evaluation, operating result of the Company and future business risks, and reported to the shareholders' meeting. Eees for executing business are mainly transportation expenses for presenting at the Board of Directors meeting. Additional attendance fee for presenting at the functional committee will be reimbursed to independent directors. All reimbursements are decided to be reasonable with reference to industry practice and standards of other listed companies. The Company's remuneration to directors includes directors' compensation and fees for executing business. Directors' compensation follows the Company's Articles of Incorporation. The Company shall set aside annual profit, if any, not more than

<sup>\*</sup> Column A represents the Company; Column B represents all companies in the consolidated financial statement.

<sup>\*</sup>Representative of Ding&Ding Management Consultants Co., Ltd. Nancy Hsu; Representative of Far Eastern New Century Corporation: Nicole Hsu, Yvonne Li (resigned upon re-appointment on April 12,2019), Chee Ching (succeeded upon re-appointment on April 12,2019)

Representative of Yuli Investments Corporation: Philby Lee; Representative of Asia Cement Corporation: Jin-Jin Liang

<sup>\*</sup> Independent Director Raymond R. M. Tai resigned on 28 June 2019. \* The remuneration from 2019 distribution of earnings is proposed amount, not actual payment amount yet.

|                           | Greg Tseng     |                |               |              |

Note: The actual distributing of 2017 earning.

Separately compare and describe total remunerations paid to directors, president and vice presidents as a percentage of net income by the company and by each other company included in the consolidated financial statements in the past two fiscal years, and analyze and describe remuneration policies, standards and packages, the procedure for setting remuneration, and linkage to business performance:

- (1) Analysis of total remunerations paid to directors, president and vice presidents as a percentage of net income by the company and by each other company included in the consolidated financial statements in the past two fiscal years: The ratios of remuneration paid to directors, president and vice presidents of the Company and the companies in the consolidated financial statements to net income were 4.81% and 4.84% in 2019 and 5.68% and 5.73% in 2018.
- (2) Policy, standard and combination description for payment of remunerations: Pursuant to Company Act and the Article 27 of the "Articles of Incorporation of Far Eastern Department store", the distributed as Directors' compensation should not more than 2.5% of profit of the current year. The ratio and amount of actual distribution of directors' remuneration shall be determined by the Board of Directors in consideration of factors such as performance appraisal, company operating results and future business risks, and shall be reported to the shareholders' meeting. In addition, the business execution expenses are mainly based on the cost of vehicles and horses, and are determined by the relevant standards of the relevant industry and listed companies. The remuneration paid by the company is divided into salary, retirement pension, bonus and special expenses and employee compensation. The employee's remuneration is handled in accordance with the company's articles of association. The actual distribution ratio, amount and method are decided by the Board of Directors and reported to the shareholders' meeting. The overall remuneration package is based on the job title, with reference to the normal level of the industry, and considers the relationship between individual performance, the company's operating performance and future risks, and sets a reward policy that is motivating and can reasonably reflect performance.
- (3) **Procedure for setting a fee:** Set up the salary and Remuneration Committee according to law, consider the level of relevant peers and listed companies, hold meetings to evaluate, set the salary remuneration of directors and managers, and submit the recommendations to the Board of Directors for discussion. If the board resolutions do not adopt or amend the committee's recommendations, it should be specified. However, if the resolution of the Board of Directors has a salary remuneration that is better than the committee's recommendation, it will report the relevant announcement according to the organization rules of the committee.
- (4) **Relevance to business performance:** Business performance directly affects compensation.

(5) **Relevance to future risks:** Operating performance and remuneration are all based on institutional operations, avoiding the risk of human manipulation and ensuring the overall interests of the company.

## 4. Corporate Governance

## 4.1. Board of Directors

Total 6 meetings (A) were convened by the Board of Directors from 2019 up to the Annual Report being published. Attendance of each Director is as follows:

Other required disclosure:

<sup>(1)</sup> Should any circumstance occurred on board practices, the dates and sessions of the said board meetings, the contents of the said resolutions, opinions of all independent directors, and measures the Company had in responding to such opinions shall be specified: None.

<sup>(</sup>A) Any circumstance described in Article 14-3 of the Securities and Exchange Act: Not applicable since The Company has established the Audit Committee. °

<sup>(</sup>B) Any resolution on which an independent director had a dissenting or qualified opinion occurred in board meetings: None

<sup>(2)</sup> Should there be any director neither joining discussion nor exercising the voting rights in board meetings for the resolution which he/she has personal interests, the name of such director, the contents of the said resolution, the reasons such director has personal interests, and the voting results shall be specified: None

<sup>(3)</sup> TWSE/GTSM Listed Companies shall disclose the evaluation cycle, period, evaluation scope, evaluation method, and evaluation for the self-evaluation or peer evaluation of the Board of Directors: See the following "The information of implements in the evaluation of the Board of Directors"

<sup>(4)</sup> Targets and measures of this and previous years established to improve the functionality of the Board of Directors and their

execution results (for instance, the establishment of the Audit Committee, the improvement of information disclosure, and so forth):

The Company elected its Independent Directors in 2012 of which their independency and professionalism not only provides objective opinions on company matters but also elevates business operations and protects shareholders' equity. In addition, during the re-election of Directors in 2015, the Audit Committee was established, strengthening corporate governance.

The Company has established the Rules for Evaluation of Directors' Performance, where performance evaluation is conducted regularly every year. In addition, every important resolution of the Board of Directors is announced and published on the Company's website to enhance the transparency of information regarding the operations of the Company and the Company enrolled liability insurance for its directors to protect the rights and interests of shareholders.

## The state of implements in the evaluation of the Board of Directors

| Evaluation cycle | Evaluation scope                              | Methods of evaluations  | Evaluation   |
|------------------|---|---|--|
| Once a year      | Evaluation for Jun. 22, 2018 to Jun. 21, 2019 | The self-evaluation of Board of Directors, the board members, Audit Committee, and Remuneration Committee | <ul> <li>The self-evaluation of the board members</li> <li>1.Alignment of the goals and missions of the company;</li> <li>2.Awareness of the duties of a director;</li> <li>3.Participation in the operation of the company;</li> <li>4.Management of internal relationship and communication;</li> <li>5.The director's professionalism and continuing education; and</li> <li>6.Internal control.</li> <li>The evaluation of the performance of the Board of Directors</li> <li>1.Participation in the operation of the company;</li> <li>2.Improvement of the quality of the Board of Directors' decision making;</li> <li>3.Composition and structure of the Board of Directors;</li> <li>4.Election and continuing education of the directors; and</li> <li>5.Internal control.</li> <li>The evaluation of the performance of the Audit Committee</li> <li>1.Participation in the operation of the company;</li> <li>2.Awareness of the duties of the Audit Committee;</li> <li>4.Makeup of the Audit Committee and election of its members and</li> <li>5.Internal control.</li> <li>The evaluation of the performance of the Remuneration Committee</li> <li>1.Participation in the operation of the company;</li> <li>2.Awareness of the duties of the Remuneration Committee;</li> <li>3.Improvement of quality of decisions made by the Remuneration Committee;</li> <li>3.Improvement of quality of decisions made by the Remuneration Committee;</li> <li>4.Makeup of the remuneration committee and election of its members and</li> <li>5.Internal control.</li> </ul> |

## 4.2 Audit Committee or Supervisors Participating in Board Meetings

### 4.2.1

The Audit Committee consists of all independent directors and meets at least once a quarter. The Audit Committee will assist the Board of Directors in establishing or modifying the company's internal control system and important handling procedures, matters involving the director's own interests, major asset-traded fund loans and endorsement guarantees, fundraising or private equity securities, appointment or remuneration of the CPA, accounting Or the appointment or dismissal of the Internal Auditor, annual financial reports, etc.

The Audit Committee has examined the Business Report, Financial Statements, and the Resolution for Allocation of Surplus Profit submitted by the Board of Directors for the year ending 2019 which had been audited by Deloitte & Touche, and found them in order.

The independence and adequacy of CPA have been evaluated by Audit Committee and Board of Directors on 27 March, 2020. CPA and the Company have no relation of any interest and relatives. CPA maintains an impartial and objective attitude as providing profession service. CPA receives a disinterested and independent written statement produced by certifying accounting firm. It conforms the regulation of independence and adequacy.

### 4.2.2 Audit Committee

The company has already set up an Audit Committee according to the law to strengthen corporate governance in 2015 board election.

Holding 6 times (A) of Audit Committee Meetings, the attendance status of Independent Directors from 2019 up to the Annual Report being published:

| Title                   | Name                        | Attendance<br>in Person (B) | By<br>Proxy | Meetings during<br>their term of office<br>(A) | Attendance<br>Rate (%) (B/A) | Remarks                      |

4.2.3 Communication outlines of Supervisors with the Board of Directors: Not applicable. The company has already set up an Audit Committee according to the law to strengthen corporate governance in 2015 board election.

# 4.3 Corporate Governance Execution Results and Deviations from "Corporate Governance Best-Practice Principles for TWSE/GTSM Listed Companies"

|   | 1        |    | •   |  |
|---|----------|----|---|--|
| Evaluation Criteria   | Yes      | No | Implementation Status Summary   | Deviations from "Ethical<br>Corporate Management<br>Best Practice Principles<br>for TWSE/GTSM-Listed<br>Companies" and Reasons |
| (1) Has the Company formulated and disclosed its own corporate governance best practice principles in accordance with "Corporate Governance Best-Practice Principles for TWSE/GTSM Listed Companies"? | <b>✓</b> |    | The Company has established the Corporate Governance Principles in accordance with the "Corporate Governance Best Practice Principles for TWSE/TPEx Listed Companies", and has fully complied with the relevant regulations by implementing these principles. In addition, these principles have been disclosed on the Company's website and the Market Observation Post System (MOPS) for search purposes.   | No material difference   |
| (2) Shareholding Structure &<br>Shareholders' Rights  |          |    |   |  |
| a. Has the Company established internal operating procedures to handle shareholder proposals, doubts, disputes, and litigation related issues, and practically implemented such procedures?           | <b>√</b> |    | The Company has established the Corporate Governance Principles, in which a specific chapter titled "Protection of Shareholders' Rights and Interests" is stipulated for implementation. According to the Corporate Governance Principles, the Company has appointed a spokesperson, an acting spokesperson, and a stock affairs agent, namely Oriental Securities Corporation which is responsible for handling shareholders' suggestions or questions so as to protect the rights and interests of shareholders. In case of disputes and lawsuits, the Company will hire the services provided by lawyers to help overcome these disputes and lawsuits depending on the situation.  | No material difference   |
| b. Has the Company kept a list of<br>major shareholders and a list<br>of ultimate owners of these<br>major shareholders?  | <b>√</b> |    | Through the stock affairs agent, the Company fully keeps abreast of the list of major shareholders with actual control over the Company and the ultimate controllers of major shareholders, and reports information regarding the relevant changes in accordance with the "Rules Governing Information Reporting by Companies with TPEx Listed Securities".   | No material difference   |
| c. Has the Company established<br>and operated a risk<br>management mechanism and<br>"firewall" between the<br>Company and its affiliates?  | <b>✓</b> |    | Written guidelines have been formulated with regard to financial and business operations between the Company and our affiliated companies. In addition, price terms and payment methods are clearly defined to eliminate unconventional transactions, and reduce business risks.  In addition to the "Rules Governing Supervision and Management of Subsidiaries", the Company has also established the "Procedures for Lending of Capital to Others", the "Procedures For Endorsements and Guarantees", the "Procedures for Acquisition and Disposition of Assets", and the "Operating Guidelines for Related Party Transaction Management", in order to establish the mechanism and firewall for personnel, asset and financial risk management between the Company and our affiliated companies.   | No material difference   |
| d. Has the Company established internal rules to prohibit company insiders from trading securities using information not disclosed to the market?   | ~        |    | The Company has established the "Procedures for Handling Material Inside Information", the "Code of Ethics" and "Best Practice Principles of Ethical Corporate Management", which stipulate that insiders in the Company may not use undisclosed information to purchase and sell securities. Besides, the Company has notified all directors and supervisors, managers and employees of this provision, and has published these rules and regulations on the Company's website (http://www.feds.com.tw) to be complied by all coworkers, so as to prevent violations or insider trading, and promote following items.  a. Insiders, such as newly appointed directors and managers at the Company, shall be given both the "Procedures of Applying for Handling Material Inside Information of the Company" and the latest edition of "Regulations and Directions Governing Insiders' Equity at TWSE Listed Companies" formulated by TWSE for insiders to comply with as they sign the written statement.  b. The Company non-periodically promotes the "Procedures of Applying for Handling Material Inside Information of the Company" and the relative regulation and information in relation to inside trading for prohibiting insiders to trade the securities by using non-public information in the market.  c. The newly manager and employee of the Company shall sign confidentiality agreements, the Company shall promote the "Procedures of Applying for Handling Material Inside Information of the Company".  d. The status of implementation has been disclosed on the Company | No material difference   |

| of the Board of of Directors  |          |    |  |  |
| a. Have members of the Board of<br>Directors formulated diverse<br>policies and implemented<br>them accordingly?  | <b>✓</b> |    | The nomination and election of members of the Board of Directors are carried out using the candidate nomination system, with reference to the opinions of independent directors, by assessing the academic qualifications of each member, as well as in compliance with the "Election Procedures of Directors and Supervisors", and the "Corporate Governance Principles", to ensure that diversity, independence and stakeholders' opinions are taken into consideration.  Members of the Company's 18th Board of Directors (including 4 male directors and 5 female directors) are highly specialized in business management, leadership and decision-making, as well as knowledge of related industries, and have education background in accounting, finance, sales, diplomacy, as well as information and communications technology. The diversity policy and operation of the Board of Directors (refer to Appendix 1) are disclosed on the Company's website, Succession Plan refers to Appendix 2.   | No material difference   |
| b. In addition to establishing a Remuneration Committee and an Audit Committee, has the Company voluntarily established other types of functional committees?   | <b>√</b> |    | To strengthen the corporate governance and ensure the compensation system of the Company, the Company had established Remuneration Committee and it had convened un-regularly to review the reasonability of directors' and managers' compensation.  The Company has established the Remuneration Committee and the Audit Committee in accordance with the law. In addition, the Company has set up other functional committees, including the Personnel Evaluation Committee, the Market Development Committee, and the Budget Committee. Each division and department are responsible for corporate governance operations according to its duties and responsibilities. The Company will assess the establishment of other functional committees as needed.  | No material difference   |
| c. Does the Company establish regulations and method for evaluating Board performance, and conducted annual performance evaluations regularly, and submit the results of performance assessments to the Board of Directors and use them as reference in determining compensation for individual directors, their nomination and additional office term? | <b>√</b> |    | To implement corporate governance and enhance the functions of the Board of Directors, as well as to set performance targets to enhance the efficiency of the operations of the Board of Directors, the Company formulated the "Rules for Performance Evaluation of Board of Directors" in accordance with the "Corporate Governance Best Practice Principles for TWSE/TPEx Listed Companies". It had been approved to amend at the 7th Board of Directors Meeting of the 18th Term, and it had added the performance evaluation of Audit Committee and Remuneration Committee, which is simultaneously announced on the Company's website.  "Performance Evaluation for Board of Directors" is conducted regularly every year, where members of the Board of Directors, Audit Committee and Remuneration Committee, and its agenda working group were assessed through a questionnaire survey in Nov. 2019. The performance evaluation indicators are determined according to the operations and needs of the Company, in order to effectively enhance the quality of decision-making by the Board of Directors and its operational performance. The evaluation result has been submitted to Board of Directors in first quarter in 2020, and Board of Directors use them as reference in determining their nomination. | No material difference   |
| d. Has the Company evaluated<br>the independence of CPAs on a<br>regular basis?   | <b>√</b> |    | The Company's Accounting Department reviews the independence of Certified Public Auditor once a year. The review result has been reported to and approved by the Audit Committee and Board of Directors on March 27, 2020. After the Company's Accounting Department's assessment, Shu-Chuan Yeh and Ming-Hsin Cho, CPA of Deloitte & Touche have met the Company's independence standards (refer to Appendix 3) and are qualified to act as the Company's certified public accountant. A declaration of independence from the certified public accountants has also been obtained.  | No material difference   |

Note: The tenure of two Independent Directors has been 6~9 years.

### Appendix 2. Members of the Board of Directors, Succession Plan and Key Managerial Objectives for Key Management

- In the succession plan of the Company's Board of Directors and important management, the successor should have excellent academic and working experience, professional knowledge, and excellent work ability. He must also recognize the Company's business philosophy "Sincerity, Diligence, Simplicity, Prudence, and Innovation." He should also be able to grasp the Company's operating goals, communication between management team, and industry status.
- In order to ensure that board members and successors have immediate control over the ever-changing management, competitive environment, and corporate governance-related laws, the Company also plans various exclusive courses for board members to facilitate the development of corporate governance.
- Directed towards important management, the Company has planned a series of annual training courses and project
  management training programs to identify management succession talents needed for continuous store development and
  actively provided trainings to them. The content of the course is to strengthen management, operation, and foreign language
  skills. With performance appraisal and promotion, it is hoped that the internal high-quality talent pool can be gradually
  strengthened to ensure sustainable operation.

# 4.6 The state of the company's performance in the area of ethical corporate management, any variance from the Ethical Corporate Management Best Practice Principles for TWSE/TPEx Listed Companies, and the reason for any such variance

|   |          |                | Deviations from "Ethical Corporate Management  |   |
|---|----------|----------------|--|---|
| Evaluation Criteria   | Yes      | Yes No Summary |  | Best Practice Principles<br>for TWSE/GTSM-Listed<br>Companies" and<br>Reasons |
| (1). Establishment of Business Conduct policy and plans  (a) Does the Company establish the business conduct policy approved by the Board of Directors, and demonstrate business conduct policy and practice in the corporate guidelines and external documents? Have the Board of Directors and management committed to actively implement such policy?  | <b>√</b> |                | The Board of Directors of the Company has approved to establish the "Code of Ethics" and the "Best Practice Principles of Ethical Corporate Management", which specify that employees of the Company shall adhere to the best practice principles of ethical corporate management while conducting various business activities. Besides, the Company clearly specifies matters related to the code of conduct, including "prohibition of offering and receiving bribes", "prohibition of providing illegal political contributions", "prohibition of improper charitable donations or sponsorships", "prohibition of unreasonable gifts, hospitality or other illegitimate interests", etc., where the scope of application for the "Best Practice"  | No material<br>difference   |
| (b) Does the Company establish a risk assessment mechanism against unethical conduct, analyze and assess on a regular basis business activities within their business scope which are at a higher risk of being involved in unethical conduct, and establish prevention programs accordingly? Does the prevention programs include at least the precautionary measures based on Paragraph 2 in Article 7 of the "Ethical Corporate Management Best Practice Principles for TWSE/GTSM-Listed Companies"? | <b>✓</b> |                | Principles of Ethical Corporate Management" applies to subsidiaries of the Company. To ensure the implementation of these rules and regulations, the Company shall clearly specify in its annual report the ethical corporate management policies and the commitment by the Board of Directors and senior management on rigorous and thorough implementation of such policies, and shall carry out the policies in internal management and in commercial activities. Besides, the ideas and beliefs behind the Code of Ethics and the Best Practice Principles of Ethical Corporate Management have been promoted and incorporated into the daily work of employees via various channels, including the Company's website (http://www.feds.com.tw), internal publications, and various types of meetings. In addition, the Company's stakeholders are also reminded to follow and respect the Company's moral and ethical standards. | No material<br>difference   |
| (c) Has the Company established and implemented an unethical conduct prevention plan, which stipulates operational processes, provides guidelines for conduct, discipline for violations of rules, and an appeal system in each case, and regularly review and revise the plan above?   | <b>√</b> |                | With respect to business activities with high risk of unethical conduct, the Company has established effective accounting and internal control systems without establishing external accounts or keeping confidential accounts/ The Company also conducts review at any time to ensure that the design and implementation of these systems are continuously effective.  In order to implement the ethical corporate operation policy, the "Procedures for Ethical Management and Guidelines for Conduct" has been formulated to specify matters for attention when the Company's personnel conducts business, to establish a system of disciplinary action for violations and whistle-blower systems, to announce internal and external independent whistle-blower mailbox, in order to curb dishonest conduct and implement the honest operating policy.  | No material<br>difference   |

|  |        |  | Implementation Status (Note 1)  | Deviations from "Ethical Corporate Management                                 |  |
|--|--------|--|---|---|--|
| Evaluation Criteria  | Yes No |  | Summary   | Best Practice Principles<br>for TWSE/GTSM-Listed<br>Companies" and<br>Reasons |  |
| (2). Implementation of the Code of Business Conduct  |        |  |   |   |  |
| (a) Does the Company evaluate the ethical conduct records of its counterparties and specify "Ethical Clauses" in business contracts?   | ✓      |  | Because the Company has developed and built a strong presence in Taiwan for years by adhering to our founding spirit of "Sincerity, Diligence, Thrift, Prudence and Innovation" as the highest guiding principles for business development, the Company requires all stakeholders with commercial dealings with us, including suppliers, contractors or other collaborators, to comply with the same moral and ethical standards as our managers and coworkers. For instance, since October 2016, the Company has gradually required suppliers, contractors or other collaborators to sign the "Supplier Corporate Social Responsibility Commitment Statement" in service contracts, and to be committed to complying with the items specified in the statement of undertaking, and also takes the opportunity continuously to communicate with stakeholders and continuously remind them of our ethical standards, so as to prevent unethical conduct. | No material<br>difference   |  |
|  |        |  | Before conducting business with suppliers, the Company will request suppliers to provide product inspection records and carefully assess the suppliers' past information. The contracts between the Company and suppliers set out various management practices with the objective of achieving mutually beneficial operations. Articles of breach of contract, termination, and confidentiality are all specified in the contract. Actions will be taken according to law in case suppliers violate the contracts.  |   |  |
|  |        |  | The terms of ethical conduct have been specified in all significant contracts between the Company and its suppliers. Otherwise the suppliers are requested to sign the Supplier Social Responsibility Commitment Statement, which includes the terms of ethical conduct.  |   |  |
| (b)Has the Company established a dedicated unit under the supervision of the Board of Directors to promote corporate ethical management and unethical conduct prevention plan which regularly (at least once a year) report to the Board on their implementation status? | ✓      |  | To improve the management of integrity operation, the Company's corporate governance officer who reports to Board of Directors and human resource department are responsible for the formulation and supervision of integrity operation policies and preventive measures, and report to the Board on periodic basis (at least once a year). At the same time, internal auditors also include the implementation of ethical corporate management into the scope of audit to perform annual self-assessment, and report these matters to the Board of Directors.  | No material<br>difference   |  |
| (c) Does the Company promulgate policies to prevent conflicts of interests and offer appropriate channels for reporting conflicts of benefits?   | ✓      |  | When Directors, managers, or other persons of<br>the Company discover, in the course of<br>conducting the Company's business, conflict of<br>interests with themselves, the legal persons or<br>stakeholders they represent, they shall abstain   | No material<br>difference   |  |

|  |          |    | Implementation Status (Note 1)   | Deviations from "Ethical Corporate Management                                 |
|--|----------|----|--|---|

|  |          |    | from voting at the meeting of the Board, and the other persons shall report the relevant matters to their direct supervisors and the designated department of the Company, and the direct supervisors shall provide proper guidance.   |   |
|  |          |    | The Company has established "Procedures for Ethical Management and Guidelines for Conduct" and the "Whistleblower and Disciplinary Measures Against Violations of Ethical Conduct and Ethical Corporate Management". Any personnel who violates the best practice principles of ethical corporate management shall be punished based on the seriousness of the violation. The Company has set up a grievance system to provide violators with a route to seek help in accordance with the relevant rules and regulations.  |   |
| (d) Does the Company establish an effective operation of the accounting and internal control systems, and its internal audit unit devise relevant audit plans based on the results of assessment of the risk of involvement in unethical conduct, and examine accordingly the compliance with the prevention programs, or engage a certified public accountant to carry out the audit? | ✓        |    | The Company's internal auditors examine compliance with the Company's accounting and internal control systems from time to time based on these systems, and prepare audit reports, which are to be submitted to the Board of Directors.  | No material<br>difference   |
| (e) Does the Company periodically conduct internal and external training on ethical management?  | <b>✓</b> |    | The Company has published these rules and regulations on the Company's website in order to promote these rules and regulations. Other than requiring new employees to learn about the code of ethics and ethical corporate management, the Company also implements methods such as establishing internal regulations, internal management requirements, as well as education and training, in order to implement ethical corporate management policies. In 2019, a total of 331 people attended a total of 327 hours of internal and external trainings on issues related to ethical corporate management (including courses related to compliance with ethical corporate management regulations, accounting system, internal control system, etc.). | No material<br>difference   |
| (3). Establishment of Reporting Channels for Violations of the Code Of Business Conduct. (a) Has the Company established a specific complaints and rewards system through convenient channels for lodging complaints? And does the Company assign dedicated personnel to attend to the matter?   | <b>✓</b> |    | The Company has stipulated the relevant provisions in the "Code of Ethics", the "Best Practice Principles of Ethical Corporate Management", "Procedures for Ethical Management and Guidelines for Conduct" and the "Whistleblower and Disciplinary Measures Against Violations of Ethical Conduct and Ethical Corporate Management".   | No material<br>difference   |
| (b) Has the Company established standard operating procedures for investigating and adopting follow-up measures after investigations of cases, and handling complaints in a confidential manner?   | ✓        |    | If an employee at the Company discovers a violation of provisions related to ethical corporate management, the employee shall take the initiative to file a whistleblower complaint to the Audit Committee, managers, the Chief Audit Executive, the chief corporate governance officer, the Human Resources Department or   | No material<br>difference   |

The Company has planned and implemented a continuous improvement mechanism starting from 2021 to ensure the operating and performance of the trademark management system are in line with the Company's expectation.

### 4.9 Implementation of Internal Control System

### 4.9.1. The declaration of internal control system

### Far Eastern Department Stores Co., Ltd. The Declaration of Internal Control System

Date: 27 March 2020

- 1. Based on the self-examination results of the internal control system for the year of 2019, Far Eastern New Century Corporation (the Company) therefore declares the following:
- 2. Board of Directors and the management of the Company understand that it is their responsibility to establish, implement, and maintain an internal control system, and such a system has been established. The purpose to establish the aforesaid system is to reasonably assure (1) the operating results and operating efficiencies (including profit, performance, and the safeguard of assets); (2) the reliability, instantaneity and transparency of the financial reports, and (3) the compliance of the relevant laws and regulations.
- 3. An internal control system, regardless how perfectly the system is being designed, can have its defects. A system that can reasonably assure the achievements of the three purposes mentioned in the preceding paragraph is considered as effective and useful. In addition, changes in the business environment and situation may, as a result, hinder the effectiveness of an adequate system. However, the internal control system of the Company has included a self-examination mechanism; the Company will make immediate corrections considering the materiality when material errors are detected.
- 4. The evaluation of effectiveness of the internal control system design and implementation is made in accordance with "Guidelines for the Establishment of Internal Control Systems by Public Companies" (the Guidelines). The Guidelines are made to exam the following five items during the internal control process: (1) Control Environment, (2) Risk Evaluation and Management, (3) Control Activities, (4) Information and Communication, and (5) Monitoring processes. Details of each area being examined can be found in the Guidelines °
- 5. Based on the items mentioned in the preceding paragraph, the Company has evaluated the design of the internal control system and the effectiveness of the implementation of the aforesaid system.
- 6. The Company management declares that the internal control system (including Subsidiary Governance) as of 31 Dec. 2019 has effectively assured that the following objectives have been reasonably achieved during the assessment period:
  - (1) The effectiveness and efficiency of business operations; (2) The reliability, timeliness, transparency, and regulatory compliance of the financial reports; (3) The compliance of the relevant laws/regulations.
- 7. This Declaration is a significant content in the annual report and prospectus of the Company, and it is available to the general public. If it contains false information or conceals any material contents, the Company is in violation of Article 20, Article 32, Article 171 and Article 174 set forth in the ROC Securities and Exchange Act •
- 8. The Board of Directors has approved the Declaration of Internal Control System in the board meeting held on 27 March 2020. All of 8 Directors present consented to the Declaration, and no dissenting opinion was expressed.

**Far Eastern Department Stores Ltd** 

Chairman: Douglas Tong Hsu

President: Nancy Hsu

- Note 1: The numbers is calculated based on 2020Q1 financial report reviewed by CPA.
- Note 2: Earnings distribution shall be resolved by Shareholders' Meeting in the subsequent year.
- Note 3: Distribution of profit generated from the preceding year.
- Note 4: Price/Earnings Ratio = Average closing share price of the period/Earnings per share.
- Note 5: Price/Dividend Ratio = Average closing share price of the period/Cash dividend per share.
- Note 6: Cash dividend yield = Cash dividend per share/average closing share price of the year.

#### 1.6 Dividend Policy and Implementation Status

#### 1.6.1. Dividend Policies under the Articles of Incorporation

If the company's annual final accounts have a surplus, after paying the income tax on profit-making business, it should first make up for the losses in previous years. If there is still a surplus, after denouncing the statutory surplus reserve of 10%, and submitting the special surplus reserve according to the law., together with the accumulated undistributed surplus of the previous year, as a surplus available for distribution. However, depending on the business situation, it is possible to decide whether to retain a portion of the shares, and distribute the shareholder dividends on the basis of all the shares. However, when the capital is increased, the dividends to be distributed for the new shares in the current year shall be handled in accordance with the resolution of the shareholders' meeting.  $\circ$ 

The distribution of shareholders' dividend shall take into consideration the changes in the outlook for the Company's businesses, the lifespan of the various products or services that have an impact on future capital needs and taxation. Shareholders' dividend shall be distributed aimed at maintaining the stability of shareholders' dividend distributions. Save for the purposes of improving the financial structure, reinvestments, production expansion or other capital expenditures in which capital is required, when distributing shareholders' dividend, which is not less than 50% of the final surplus of after-tax profit in same year to withhold accumulated losses, legal reserve and special reserve, and the cash dividend is not less than 10% of the shareholders' dividend distributed in the same year.

Taking the Company's pay-out dividends over past three years as example, the dividend payout ratios from 2017 to 2019 were 91%, 90% and 63% respectively. All dividend payout ratios are all in accordance with the Articles of Incorporation of FEDS that outline that the cash dividend declared by

the Company shall be no less than 10% of the total dividends distributed that year. Please see the below table for details:

| Year | EPS (A) | Cash<br>Dividend<br>(B) | Stock<br>Dividend<br>(C) | Dividend<br>Per Share<br>(D=B+C) | Payout<br>Ratio<br>(D/A) | Cash Payout<br>Ratio (B/D) |

Note: \* As we do not disclose our financial forecast information of 2020, in compliance with relevant Government regulations, there is no need to provide this information.

#### 1.8 Remuneration to Employees and Directors

#### 1.8.1. Description regarding compensation for employees and Directors in the Articles of Incorporation:

The standard is set according to Articles of Incorporation of the Company: "If there is profit for the current year, the Company shall set aside 2%~3.5% of it as compensation for employees and, shall set aside not more than 2.5% of it as compensation for Directors. If there is accumulated loss on the books of the Company, portion of the profit equaling the loss shall first be set aside to cover the latter.

The Company may, by a resolution adopted by a majority vote at a meeting of Board of Directors attended by two-third of the total number of Directors, determine the actual ratio, amount, form (in the form of shares or in cash) and the number of shares of the profit distributable as employees' compensation, and, in addition, thereto report of such distribution shall be submitted to the shareholders' meeting. The actual ratio and amount of the profit distributable as Directors' remuneration shall also be determined by Board of Directors, and a report of such distribution shall be submitted to the shareholders' meeting.

## 1.8.2. The accounting treatment for the differences between actual and accrued amount of compensation for employees and Directors:

The estimated amount of compensation for employees and directors is based on the employee's remuneration and director's remuneration from 2% to 3.5% and not more than 2.5%, respectively, prior to the pre-tax benefit of the deduction of staff and directors' compensation. The 2019 annual estimates are based on 3.2% and 2.4% of the pre-tax benefits mentioned above. These amounts were allotted in cash on March 27, 2020. If the amount of the annual financial report is significantly changed by the resolution of the Board of Directors before the date of issuance, the change will be adjusted to the original annual cost. If the amount of the annual financial report still changes after the date of publication, it will be adjusted according to the accounting estimate and adjusted in the next year.

#### 1.8.3. Proposed employees' compensation and Directors' remuneration:

The 2019 employees' compensation and Directors' remuneration was resolved on 27 March 2020 by 8<sup>th</sup> Board Meeting of the 18<sup>th</sup> term. The amounts and forms are listed below:

- (1) the amount of employees' compensation and Directors' remuneration in cash or in shares:

  The Board of Directors of the Company resolved to distribute employees' compensation of NT\$74.392 million in 2019 and directors' compensation is NT\$55.794 million. These amounts are not different from the amount recognized in the 2019 accounts.
- (2) Proposed employee compensation by shares as percentages of net income and total employee compensation: None
- 1.8.4. Remuneration to employees and Directors of Year 2018. The discrepancy, if there is any, between the total amount being actually paid as employees' compensation, remuneration for Directors for 2017 (including number of shares, dollar amount, and share price) and the amount of such compensation and remuneration being recognized should be stated, and the reason for such discrepancy:
  - (1) The Board of Directors resolved to allot 2018 employees for NT\$55.384 million and actually issued NT\$55.08 million.
  - (2) The Board of Directors resolved to allot 2018 directors' compensation for NT\$41.538 million and actually issued NT\$45.5 million.

The number of differences will be released in the following years or supplemented with the remaining years of the previous year.

### 1.9 Shares buyback by the Company: The Company did not buy back share during year 2019 until the annual report being published.

#### V. Operational Highlights

#### 1. Business Activities

#### 1.1 Business Scope

1.1.1. Sales Breakdown of Main Business Segments:

The company and its subsidiaries are single industries that operate retail department stores and supermarkets.

- 1.1.2. Current Products and Services Provided by the Company and Subsidiaries: Please refer to page 78

  Sales Volume and Revenue in Recent Two Years
- 1.1.3. Products and Services Planned to be Developed and Launched by the Company and Subsidiaries:

  None

#### 1.2 Business Environment

#### 1.2.1. Current Industry Situation and Prospects

In 2019, the overall sales volume in Taiwan's department store market grew by 4.4%, with its turnover amounting to NT\$355.2 billion. This market has been growing for the tenth consecutive year. However, the sales volume in department stores grew at a higher rate than convenience stores (3.1% growth rate), supermarkets (4.6% growth rate), and hypermarkets (5.3% growth rate) due to various factors, including the development of e-commerce, the diversification of retail channels, and changes in consumers' shopping habits.

Department store operations have experienced a slowdown in its revenue growth due to the increasing number of rational consumption, increasing demand for variety, and the fast and convenient online shopping. According to the survey by the Department of Statistics, Ministry of Economic Affairs, the "ever-changing customer demand" takes up the highest percentage of major plights that department stores encounter in recent three years, reaching 72.3% in this year. The second highest is "e-commerce takes up market share", which increased to 51.1% comparing to last year. As a result, in response to the strong competition from e-commerce, department stores have been actively transforming. Apart from the continuous modification and adjustment of counters to introduce popular food and lifestyle products, family parks have also been set up to capture business opportunities in families. All kinds of theme events are held to celebrate holidays and festivals. Hopefully number of visitors and overall revenue growth can be increased through diversification.

In order to provide consumers with a more convenient shopping journey and increase consumer shopping adhesion, all department store brands have introduced multiple payment tools. In addition, the Company has actively upgraded its own app in 2019 to further provide more convenient services and mobile payment. Through its self-owned mobile payment system, customers are encouraged to bind their exclusive membership app for convenient parking, promotional information, and enjoy greater discounts such as e-vouchers and bonus points so as to collect user information, understand consumer preferences, and further analyze consumer groups to achieve precision marketing. Furthermore, the implementation of online shopping system enables consumers to enjoy an online and offline, 24-hour and zero time difference shopping environment through the integration of virtual and physical channels so as to create an all-channel and convenient consumption model.

Digital technology deeply influences the retail business. The traditional retail business model has been challenged, while the relationships among shopping malls, customers and products have also been redefined.

Physical department stores have successively moved toward digitization, which reshapes consumption model digitally, thereby establishing a complete, high-quality shopping journey and brand experience. Digitized physical department stores not only have heavily invested in digital technology as their operational infrastructure, but also utilize smart technology, including large numbers of mobile devices, Big Data, Internet of Things (IoT), artificial intelligence (AI), augmented reality (AR) and virtual reality (VR), in order to increase the efficiency of shopping mall operations and service, and enhance customer's shopping convenience and experience, while significantly increasing customer satisfaction and stickiness.

#### 1.2.2 Correlation among the Upstream, Midstream and Downstream Sectors of the Industry

According to the definition of the industry classification, department stores belong to retail sale in non-specialized stores, which refers to the business model of engaging in a wide range of products and retailing by department. Therefore, the upstream, midstream and downstream sectors of the department store industry are correlated mainly in the following manner: The upstream sector consists of product manufacturers (or counters), and the midstream sector is composed of department stores which offer sales locations, while the downstream sector comprises consumers who purchase products. Various factors, including the location of department stores, the characteristics of business district, the consumer crowd, and convenience in public transportation, are closely related to the performance of department stores.

#### 1.2.3 Industry Development Trends and Competition

As a result of the e-commerce boom, the traditional retail business model has been greatly challenged. The relationship among shopping malls, customers and merchandise has been redefined, and department stores have to continuously create unique services and products that are different from e-commerce to attract consumers. In recent years, the frequency of physical channel visits, including department stores, supermarkets, and whole sale stores, etc., has shown a downward trend. According to analysis of "elements that consumers care about physical channels", the top one element is parking convenience. Attractiveness of food and beverages and variety of leisure spaces also ranked in top 5. This reveals that physical channel is no longer a choice for "purchase" purpose to customers. "Entertainability" has rather become an important consideration when customers choose physical channels. Department stores have to meet consumers' needs in experience aside from shopping, whether through events or renovation, so as to leave customer memories apart from shopping so as to increase loyalty.

In 2019, all department stores have actively developed their own online shopping system and promoted a one-stop fast consumption model based on the advantage of product diversity in the department store retail industry with a high level of consumer trust. By using big data to clearly understand the characteristics and needs of consumers, department stores provide convenient new services, market in precision, and in the end generate new revenue.

In 2019, three major department store chains, including FEDS, Far Eastern Sogo, and Shin Kong Mitsukoshi jointly created NT\$168.5 billion worth of sales, and occupied a market share of approximately 47%, indicating a relatively obvious trend of the development of large department store operators. As channel is a key factor king, resource-rich chain groups have a major advantage in terms of attracting investments, and operation. The competition situation, in which department stores move toward the large-scale and chain store model, is set to continue for a while, and will not change easily.

#### 1.3 Technology and Research & Development Overview

In response to different professional needs, Far Eastern Department Stores have planned

comprehensive courses for its employees to enable employees' continuous growth in professions. In 2019, total number of educational training hours was 15,620 hours, including three major categories in basic staff training, core business training, and development training. Foreign professionals were hired to design corporate English training courses to strengthen employees' English language skills. 64 executives were sent abroad to visit well-known overseas department stores and large shopping malls to understand the local business model and consumption trends in the hope of enhancing managers' management ability and vision. In the future, we will continue to increase the investment in and design of education and training resources to improve the professional knowledge and competitiveness of our employees.

The Company, as a leading company in the domestic department store industry, is the only one representative in Taiwan as a membership of IGDS( International Group of Department Stores), and has joined over 56 department store industry trade associations and other related trade associations and societies, including the Retailers Association of Chinese Taipei, the Taiwan Council of Shopping Centers, the Chinese National Association of Industry and Commerce, and the Center for Corporate Sustainability, in hopes of promoting the vigorous development of the domestic department store retailing industry and enhancing our self-management and business management capabilities, so as to contribute to the prosperity and development of the industry, and to lay a good foundation for becoming a sustainable enterprise.

#### 1.4 Long-term and Short-term Business Development Plans

#### 1.4.1 Short-term:

- (1) Increasing growth momentum, where each branch continues to adjust brand lineup and business segments in response of market trends and the characteristics of business districts, in order to enhance the product strength and features of shopping malls.
- (2) Managing social medial platforms, enhancing social marketing, and getting close to customer's consumption needs and preferences by integrating big data analysis, in order to provide more refined and smart personal services.
- (3) Optimizing APP digital tools, strengthening social marketing, combining data analysis to provide customers with warm service and experiences, and through CRM Big Data, conducting more delicate in-depth segmentation, designing various unique experience activities, and providing more refined and intelligent personal services.
- (4) Embracing digital technology, developing smart retail, constructing an omni-channel consumption model, and optimizing a smart shopping experience, thereby moving toward innovative and smart retail.
- (5) Cross-industry integration and joint efforts with industry players to launch a series of merchandise or exhibitions to create topics and increase the mall's customer retention rate.

#### 1.4.2 Long-term:

- (1) Building a strong presence domestically, continuing to create new forms of shopping malls, and expanding the scale of operations and growth niches.
- (2) Expanding market in China, adjusting the business directions of stores in China, and developing new store locations.
- (3) Establishing technology-based and eco-friendly smart shopping malls, creating trends exclusively for customers, becoming a leading retail brand which incorporates sustainable management, and fulfilling CSR.

#### 2. Market, Production and Sales Overview

#### 2.1 Market Analysis

#### 2.1.1 Sales (or provision) locations for the Company's main products (or services):

Taiwan and Mainland China.

#### 2.1.2 Domestic market share (KPI) for main products:

The Company's market share in the Taiwanese market (including Far Eastern Sogo and Ya Tung Department Store) is 25%.

#### 2.1.3 Future market supply and demand conditions and growth:

In the next three years, the department store market continuously welcomes the opening of new shopping malls, which will become the driving force to boost market revenue; however, it is also expected to intensify market competition. According to a report published by NDC, it is estimated that Taiwan's output growth rate in 2019 will not be as good as the previous year due to the weakening of global economic growth momentum, and domestic demand will be the main driving force of economic growth. Meanwhile, the Executive Yuan has also passed the adoption of domestic expansion plan to reduce the burden of the people through the tax system, with a view to increasing disposable income and eventually improving the purchasing power of the people. In addition, Taiwan government implements various incentive measures to increase consumption, such as promoting domestic tourism, organizing large events, and encouraging the purchase of energy-saving and low-carbon products, which is expected to drive the continuous growth of market performance.

#### 2.1.4 Major competitors:

Shin Kong Mitsukoshi Department Store Co., Ltd.

#### 2.1.5 Competitive niches, favorable and unfavorable factors for development prospects, and response

#### measures:

#### A. Competitive niches

- (1) Professional industry knowledge and experience accumulated over the past.
- (2) Decent, pragmatic, forward-looking and innovative business philosophy and strategies.
- (3) Excellent management team and loyal customer base.
- (4) Good company reputation, with full support and cooperation from suppliers.
- B. Favorable factors for development prospects
  - (1) Continuous store expansion in both Taiwan and Mainland China to expand market scale, thereby increasing revenue and profit.
  - (2) Abundant resources at the Group, in combination with the development of smart retail at affiliated companies, to move toward omni-channel operations.
- C. Unfavorable factors for development prospects
  - (1) Strong growth of E-Commerce and TV shopping.
  - (2) Heavy spending on promotion due to a large number of competitors, thereby significantly increasing operating costs.
  - (3) Continuous opening of large shopping malls and outlet stores, thereby increasing market competition.

#### D. Response measures

- (1) Adjust product structure, and screen target customer based on the conditions of business district in which each store is located, in order to carry out differentiated marketing.
- (2) Enhance experiential marketing by creating more interactive and experiential shopping services

- (3) Develop mobile shopping by innovating mobile marketing with the Group, in order to provide a more convenient consumer experience.
- (4) Expand online-to-offline (O2O) integration, and move toward O2O operations, thereby developing a high-quality O2O model.
- (5) Create management efficiency, expand income sources and economize on expenditures, as well as reduce costs.
- **2.2 Main Features and Production Process of Major Products:** Not applicable  $\,^{\circ}$
- 2.3 Supply of Raw Material: Not applicable •
- **2.4** It is necessary to disclose the name of the customer who has accounted for more than 10% of the total amount of goods sold in the past two years and the amount and proportion of the goods to be sold, and explain the reasons for the increase or decrease. Due to the contractual agreement, the customer name or the transaction object, such as an individual and a non-relevant person, may not be disclosed.

#### 4. Environmental Protection Expenditure

Total amount of losses and penalties incurred due to environmental pollution in the most recent fiscal year up to the publication date of this annual report:

None (Merged companies belong to a single industry which engages in the retail business in department stores and supermarkets, and are not manufacturing business units).

#### 5. Employee Relations

#### 5.1 Existing Employee Welfare Measures and System:

#### 5.1.1. Employee Welfare Measures

#### (1) The Company:

- The Company has established the Employee Welfare Committee, and contributes to the employee welfare fund to implement various employee welfare measures, where employees not only enjoy various types of rewards, including dividends, year-end bonus, and festive bonus, but are also entitled to various welfare measures, including birthday allowance, wedding subsidy, childbirth subsidy, hospitalization subsidy, funeral subsidy, child enrollment allowance, and employee travel subsidy.
- Employees are entitled to discounts while shopping at the Company and our affiliated companies.
- The Company purchases group insurance for employees to protect employees' lives and safety.

#### (2) Affiliated companies:

Our affiliated companies have planned various employee welfare measures according to the Group's spirit of labor-management harmony, in order to provide employees with a safety and secure working environment.

#### 5.1.2 Employee Training:

#### (1) The Company:

- In order to meet the work requirements of various positions and at all levels, the Company plans internal professional training courses related to operations management, marketing services and product information, in order to satisfy the needs of or coworkers at work. In 2019, a total of 41,125 people attended 56,099 hours of training in these courses.
- The Company selects and sends suitable coworkers to attend various types of workshops organized by the FEG Human Resources Development Center every year, in line with personal development potential according to coworkers' duties and work requirements. In 2019, a total of 144 people attended 1,029 hours of training in these workshops.
- To enhance our coworkers' professional competencies, the Company acquires the latest information to increase work efficiency, and sends our coworkers to attend various professional courses organized by professional institutions. In 2019, a total of 199 people attended 1,244 hours of training in these courses.
- In 2019, each coworker attended 13.9 hours of training on average, with a total of NT\$1,248 thousand spent on training.

#### (2) Affiliated companies:

Our affiliated companies plan complete and diversified training courses based on their business management needs, in order to cultivate various professional and career development skills in employees.

#### 5.1.3. Retirement system:

#### (1) The Company:

The Company has formulated the Regulations Governing Employee Retirement, and has set up the Supervisory Committee of Employee Pension Reserve Fund in accordance with the Labor Standards Act. According to the old system, the Company contributes 2% of each employee's monthly salary into the pension reserve fund, and deposits this amount into the employee pension reserve fund account at Bank of Taiwan. After the implementation of the new Labor Pension Act, the Company contributes

6% of each employee's monthly salary into the pension reserve fund, and deposits this amount into the Bureau of Labor Insurance account. Every year, the Company appoints a consulting firm to carry out actuarial calculation of retirement pension reserve so as to protect the pension rights of all employees.

#### (2) Affiliated companies:

Our affiliated companies handle matters with respect to contributions to employee pension funds and related payments in accordance with the Labor Standards Act, the Labor Pension Act and local laws and regulations, or any regulation that prevails over the abovementioned regulations.

- 5.2 The Company's administrative and management measures strive to be fair and reasonable. Should different opinions arise, coworkers can communicate their opinions through various grievance channels, including suggestion mailbox and e-mail. Both the employer and employees can build a virtuous cycle of mutual benefit between both parties based on the principle of harmony and rational communication.
- 5.3 Losses suffered due to labor disputes in the most recent fiscal year up to the publication date of this annual report:

| Company  | Disposition dates | Disposition reference numbers      | The articles of law violated                  | The substance of the legal violations   | The content of the dispositions |
|--|-------------------|------------------------------------|---|---|---------------------------------|

#### **6. Important Contracts And Agreements**

| Contract Type                    | Counter Party   | Contract Period | Description   | Restricted<br>Clauses |
|----------------------------------|---|-----------------|---|-----------------------|
|                                  | The Company<br>and Taoyuan City<br>Farmers                          | 2018.05~2033.05 | To expand our business locations, and increase our market share, the Company invested in the Taoyuan County Farmers' Association to construct and operate a commercial building in front of the Taoyuan County Farmers' Association Station, where the address of the exact construction location is B3-12F, No. 20, Zhongzheng Road, Taoyuan City. This commercial building opened on October 26, 1999.  |                       |
|                                  | Association   |                 | As the original contract expired in May 2018, the Company and Taoyuan City Farmers' Association (where the previous Taoyuan County Farmers' Association was renamed Taoyuan City Farmers' Association as Taoyuan County was upgraded to a municipality on December 25, 2014) signed a new lease contract, with a lease period of 15 years.  |                       |
| Commercial                       | The Company<br>and Far Eastern<br>Ai Mai Co., Ltd.                  | 2009.10~2029.10 | The Company rented the storage areas on the first floor underground and third floor of the building located at No 581, Heping Road, Guofeng Village, Hualien City, to Far Eastern Ai Mai Co., Ltd. for the purpose of running a hypermarket and retail business. The building was officially opened on October 28, 2009.  | None                  |
| Real Estate<br>Lease<br>Contract | The Company<br>and FEDS Asia<br>Pacific<br>Development<br>Co., Ltd. | 2016.10~2036.10 | The 5 <sup>th</sup> floor underground to the 18 <sup>th</sup> floor of the building located at No. 21, Sanduo 4 <sup>th</sup> Road, Kaohsiung City, was leased to run a department store, a supermarket and other businesses.   |                       |
|                                  | The Company<br>and Ministry of<br>Education                         | 2006.04~2027.4  | To expand our business locations, and increase our market share, the Company successfully obtained the right to lease pieces of state-owned school land located in Parcel No. 89 and 91, Huiguo Section, Xitun District, Taichung City from the Ministry of Education via tender on November 28, 2005. In the second quarter of 2006, the Company signed an official lease contract with the Ministry of Education. According to the contract, the lease period was 20 years. However, the Company was given a one-year rent-free planning period; thus, the rent was calculated beginning April 6, 2007. After the expiration of the lease period, the Company may apply for contract renewal once for a lease period of 20 years. The rent for the first year was NT\$140,288 thousand, and the rent shall be adjusted once every three years from the start of the lease contract. The Company has completed the construction of the building and officially put the building into operation at the end of 2011. Besides, the Company entrusted the building on the ground to Land Bank of Taiwan. | None                  |

| Contract Type                                  | Counter Party  | Contract Period | Description  | Restricted<br>Clauses |
|--|--|-----------------|--|-----------------------|
| Commercial<br>Real Estate<br>Lease<br>Contract | Pacific SOGO Department Store. Co., Ltd. and Department of Rapid Transit Systems Taipei City Government, Taipei City Department of Finance, and Hung Ton Development Corporation | 2007.01 Signed  | Pacific Sogo Department Stores Co., Ltd. signed a public real property lease contract with the Department of Rapid Transit Systems of Taipei City Government, the Department of Finance of Taipei City Government, and Hung Ton Development Corporation for the joint development building at Zhongxiao Fuxing Station (BR4) along the Taipei Metro Muzha Line. According to the contract, Pacific Sogo shall pay a fixed monthly rent of NT\$12,701 thousand to the Department of Rapid Transit Systems of Taipei City Government and the Department of Finance of Taipei City Government for a period of 9 years and 6 months from the official opening of Fuxing Store. Beginning 2014, the fixed monthly shall be increased to NT\$13,125 thousand. On the other hand, the rent shall be calculated based on the annual turnover of Fuxing Store (BR4).  Before the expiration of the lease period, Pacific Sogo renewed the lease contract in June 2016, with a lease period of 9 years and 6 months, in which the monthly rent in the first year is NT\$20,263 thousand, and shall be adjusted beginning the second year in accordance with the lease contract.  To obtain the right to lease the joint development building at Fuxing Store (BR4), Pacific Sogo made an advance payment to the holder of the development rights for Fuxing Store (BR4) - Hung Ton Development Corporation, and signed a lease contract with Hung Ton Development Corporation in December 2006 to lease the land and the building for Fuxing Store (BR4) owned by Hung Ton Development Corporation. This contract stipulated that when Pacific Sogo has paid an amount exceeding the rent payable, the overpaid amount shall be regarded as prepaid rent paid by Pacific Sogo Department Stores Co., Ltd., which shall be deducted | None                  |
|  | Far Eastern Ai<br>Mai Co., Ltd. and<br>Far Eastern<br>Construction Co.<br>Ltd.   | 109.03 Signed   | from future monthly rent payable. |                                 |  |                 | was contributed by Hsinchu Chemical Co., Ltd. and FEDS in the ratio of 1 to 2, where the contribution made by Far Eastern Ai Mai Co., Ltd. (including pre-development expenses) shall be regarded as prepaid lease payment, which is amortized on average based on the remaining contractual years (19 years and 3 months) from the opening of the hypermarket.  |                       |
| Establishment<br>of Superficies | FEDS Asia Pacific<br>Development Ltd.<br>and Asia Cement<br>Corporation                |                 | FEDS Asia Pacific Development Co., Ltd. signed a contract with Asia Cement Corporation to invest in the construction and operation of the Asia Plaza Tri-Tower Complex in Kaohsiung (Far Eastern Asia Pacific Shopping Mall). According to the contract, Asia Cement Corporation shall provide the land for construction, whereas FEDS Asia Pacific Development Ltd. shall construct the commercial building. FEDS Asia Pacific Development Ltd. may use the land for 50 years from the date of signing the contract, and shall pay NT\$1,073,000 thousand as surface rights fee, which shall be amortized on average according to the period of use. In addition, the company shall pay 5% of the announced land value as land rent every November from the date of signing the contract. This building was completed in October 2001. The cost of investing in the construction of the commercial building shall be calculated based on the total contract price of the construction project, and shall be amortized on average during the period of use (From October 2001 to December 2047). | None                  |
| of Superficies<br>for Land      | The Company<br>and Taipei City<br>Government   | 2003.10 Signed  | The Company obtained surface rights of city-owned land in Taipei Xinyi Special District No. A13 of Taipei City Government in September 2003, where the total surface rights fee is NT\$3,196,888 thousand. The setting of surface rights was completed in October 2003. According to the contract, the duration of the surface rights is 50 years from the date on which the registration of surface rights is completed. In addition, the monthly rent is NT\$3,771 thousand from the date of signing the contract, and shall be adjusted together with the announced land value.   |                       |
|                                 | Chubei New<br>Century<br>Shopping Mall<br>Co., Ltd and<br>Hsinchu County<br>Government | 2015.7 Signed   | On July 8, 2015, Chubei New Century Shopping Mall Co., Ltd signed the "Investment Contract for the Commissioning of the Private Sector to Participate in the Construction of Parking Lot No. 8 in Zhubei City, Hsinchu County" with Hsinchu County Government, where the total surface rights fee is NT\$10,000 thousand. The setting of surface rights was completed in September 2015. According to the contract, the surface rights shall take effect from the date of signing the investment contract for a period of 50 years, including the construction and operation period. On the other hand, from the date of signing the contract, the land rent shall   | None                  |

Analysis of variations exceeding 20% of the numbers in previous year for 2018 and 2019:

<sup>1.</sup> The increase in ratio of long-term capital to property, plant and equipment mainly due to the increase in liabilities after adopting IFRS 16.

<sup>2.</sup> The decrease in quick ratio mainly due to the increase in current liabilities after adopting IFRS 16.

<sup>3.</sup> The decrease in interest coverage ratio mainly due to the increase in interest expenses after adopting IFRS 16.

<sup>4.</sup> The increase in property, plant and equipment turnover mainly due to the decrease in property, plant and equipment after adopting IFRS 16.

<sup>5.</sup> The decrease in total assets turnover mainly due to the increase in total assets after adopting IFRS 16.

<sup>6.</sup> The increase in return on equity, pre-tax income to paid-in capital, and ratio of net income to sales and EPS mainly due to the increase in net income.

<sup>7.</sup> The increase in cash flow ratio and cash reinvestment ratio mainly due to the increase in pre-tax income and the effect after adopting IFRS 16.

<sup>8.</sup> The increase in operating leverage mainly due to the decrease in variable operating costs and expense.

Analysis of variations exceeding 20% of the numbers in previous year for 2018 and 2019:

- 2. The decrease in current ratio ad quick ratio mainly due to the increase in current liabilities after adopting IFRS 16.
- 3. The decrease in interest coverage ratio mainly due to the increase in interest expenses after adopting IFRS 16.
- 4. The decrease in inventory turnover and the increase in average sales days mainly due to the increase in average inventory.
- 5. The increase in property, plant and equipment turnover mainly due to the decrease in property, plant and equipment after adopting IFRS 16.
- 6. The decrease in total assets turnover mainly due to the increase in average total assets after adopting IFRS 16.
- 7. The increase in all items of profitability analysis mainly due to the increase in net income.
- 8. The increase in operating leverage mainly due to the decrease in variable operating costs and expense.

Note 1 : The numbers is calculated based on 2020Q1 financial report reviewed by CPA.  $\circ$ 

Note 2: At the end of the annual report, the following formula should be listed.:

#### 1. Financial structure

- (1) Liabilities to assets ratio = Total liabilities / Total assets
- (2) Long-term capital to fixed assets ratio = (Total shareholders' equity + Long-term liabilities) / Net fixed assets

#### 2. Liquidity analysis

- (1) Current ratio = Current assets / Current liabilities
- (2) Quick ratio = (Current assets Inventory Prepaid expenses) / Current liabilities
- $(3) \ Interest\ coverage\ ratio=Net\ income\ before\ income\ tax\ and\ interest\ expenses\ /\ Interest\ expenses$

The increase in ratio of long-term capital to property, plant and equipment mainly due to the increase in non-current liabilities after adopting IFRS 16.

#### 3. Operating ability

- (1) Receivables turnover (including accounts and notes receivable) = Net sales / Average accounts receivable (including accounts and notes receivable)
- (2) Average collection days = 365/ Accounts receivable turnover
- (3) Inventory turnover = Costs of goods sold / Average inventory
- (4) Average sales days = 365 / Inventory turnover
- (5) Payables turnover (including accounts and notes payable) = Costs of goods sold / Average accounts payable
- (including accounts and notes payable)
- (6) Fixed assets turnover ratio = Net sales / Net fixed assets
- (7) Total assets turnover ratio = Net sales / Total assets

#### 4. Profitability analysis

- (1) Return on total assets =[Net income +Interest expenses×(1-Tax rate)] / Average total assets
- (2) Return on shareholders' equity =Net income / Average shareholders' equity
- (3) Net income to sales ratio = Net income / Net sales
- (4) Earnings per share = (Net income Preferred stock dividend) / Weighted-average number of outstanding shares.

#### 5. Cash flow

- (1) Cash flow ratio = Cash flows from operating activities / Current liabilities
- (2) Cash flow adequacy ratio = Net cash flow from operating activities for the past 5 years / (Capital expenditures + Increase in inventory + Cash dividends) for the past 5 years
- (3) Cash reinvestment ratio = (Net cash flow from operating activities Cash dividends) / (Gross fixed assets + Long-term Investment + Other assets + Working capital)

#### 6. Leverage

- (1) Operating leverage = (Net sales Variable operating costs and expenses) / Operating income
- (2) Financial leverage = Operating income / (Operating income-Interest expenses)

#### 3. The Audit Committee's Review Report

#### The Audit Committee's Review Report

To the 2020 General Shareholders' Meeting of Far Eastern Department Stores Ltd,
In accordance with Article 14-4 of the Securities and Exchange Act and Article 219 of the Company Act, we have

examined the Business Report, Financial Statements, and the Resolution for Allocation of Surplus Profit submitted

by the Board of Directors for the year ending 2019 which had been audited by Deloitte & Touche, and found them

in order.

The Convener of the Audit Committee: Edward Wei

5 May, 2020

**4.Impact of the Financial Distress Occurred to the Company and Affiliates in Recent Years until the Annual Report Being Published**: None

#### **5. 2019 FINANCIAL REPORT (CONSOLIDATED)**

#### INDEPENDENT AUDITORS' REPORT

The Board of Directors and Shareholders Far Eastern Department Stores, Ltd.

#### **Opinion**

We have audited the accompanying consolidated financial statements of Far Eastern Department Stores, Ltd. and its subsidiaries (collectively referred to as the "Group"), which comprise the consolidated balance sheets as of December 31, 2019 and 2018, and the consolidated statements of comprehensive income, changes in equity and cash flows for the years then ended, and the notes to the consolidated financial statements, including a summary of significant accounting policies (collectively referred to as the "consolidated financial statements").

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as of December 31, 2019 and 2018, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, and International Financial Reporting Standards (IFRS), International Accounting Standards (IAS), IFRIC Interpretations (IFRIC), and SIC Interpretations (SIC) endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

#### **Basis for Opinion**

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with The Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the year ended December 31, 2019. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

The key audit matters identified in the Group's consolidated financial statements for the year ended December 31, 2019 are stated as follows:

#### Evaluation of Impairment Loss of Goodwill

As of December 31, 2019, the goodwill of the Group was NT\$2,206,898 thousand, accounting for 2% of total consolidated assets. Under IAS 36, management must test impairment annually.

The goodwill of the Group mainly derives from the merger and acquisition of operating segments in mainland China. When testing goodwill for impairment, management should evaluate whether the recoverable amount is higher than the carrying amount. In determining the recoverable amount, management should estimate the future cash flows from operating segments in mainland China and determine the optimal discount rate. Significant assumptions involve both judgments made by management and material estimation uncertainty. Thus, the evaluation of impairment loss of goodwill is considered a key audit matter. For the accounting policy related to impairment loss of the goodwill, refer to Notes 4(j), 5(a) and 17 to the accompanying consolidated financial statements.

The key audit procedures that we performed in respect of the impairment loss of goodwill are as follows:

- 1. We evaluated the expertise, competency and independence of external valuation specialists mandated by management. We verified the qualification of valuation specialists to ensure their objectivity and assignment were not influenced or restricted and we verified the methodology conducted conform to regulations.
- 2. We understood the process of management's estimation of the future sales growth rate and profit margin predicted by the operating segments in mainland China.
- 3. As a consideration for the assessment reliability for year 2020 and succeeding years, we compared the 2019 budget and the actual operating results of the operating segments in mainland China and evaluated the accuracy of management's historical forecast.
- 4. We confirmed the appropriateness of the discount rate used by management to assess goodwill impairment by using the same evaluation model to calculate the weighted average cost of capital ratio and whether the weighted average cost of capital used by management was significantly different.

#### Fair Value Evaluation of Investment Properties

As of December 31, 2019, the carrying amount of investment properties of NT\$9,086,641 thousand, accounting for 7% of total consolidated assets, is material to the consolidated financial statements. The Group's investment properties are subsequently measured using the fair value model. The fair value evaluation involved management's significant accounting estimation and judgment. Therefore, the fair value evaluation of investment property is considered to be a key audit matter. Refer to Notes 4(i), 5(c) and 16 to the accompanying consolidated financial statements for the relevant detailed information.

The key audit procedures that we performed in respect of the fair value of investment properties are as follows:

- 1. We evaluated the expertise, competency and independence of external valuation specialists mandated by management. We verified the qualification of valuation specialists to ensure that their objectivity and assignment were not influenced or restricted and we verified the methodology conducted conform to regulations.
- 2. We reviewed significant lease contracts and compared relevant market rental prices to assess the reasonableness of future cash flow forecasts.
- 3. We assessed the reasonableness of the valuer's assumptions and methods used in the valuation.

#### **Others Matter**

We have also audited the parent company only financial statements of Far Eastern Department Stores, Ltd. as of and for the years ended December 31, 2019 and 2018 on which we have issued an unmodified opinion.

### Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, and IFRS, IAS, IFRIC, and SIC endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including members of the audit committee, are responsible for overseeing the Group's financial reporting process.

#### Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the auditing standards generally accepted in the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the auditing standards generally accepted in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- 1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- 5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 6. Obtain sufficient and appropriate audit evidence regarding the financial information of entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision, and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements for the year ended December 31, 2019 and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Shu-Chuan Yeh and Ming-Hsing Cho.

Deloitte & Touche Taipei, Taiwan Republic of China

# FAR EASTERN DEPARTMENT STORES, LTD. AND SUBSIDIARIES

# NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2019 AND 2018 (In Thousands of New Taiwan Dollars, Unless Stated Otherwise)

#### 1. GENERAL INFORMATION

Far Eastern Department Stores, Ltd. (the "Company" or "FEDS") was incorporated in the Republic of China (ROC) in August 31, 1967, and operates a nationwide chain of department stores. The Company's shares have been listed on the Taiwan Stock Exchange since October 11, 1978.

The consolidated financial statements of the Company and its subsidiaries, collectively referred to as the "Group", are presented in the Company's functional currency, the New Taiwan dollars.

#### 2. APPROVAL OF CONSOLIDATED FINANCIAL STATEMENTS

The consolidated financial statements were approved by the Company's board of directors on March 27, 2020.

# 3. APPLICATION OF NEW, AMENDED AND REVISED STANDARDS AND INTERPRETATIONS

a. Initial application of the amendments to the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards (IFRS), International Accounting Standards (IAS), IFRIC Interpretations (IFRIC), and SIC Interpretations (SIC) (collectively, the "IFRSs") endorsed and issued into effect by the Financial Supervisory Commission (FSC)

Except for the following, the initial application of the amendments to the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the IFRSs endorsed and issued into effect by the FSC did not have material impact on the Group's accounting policies:

# 1) IFRS 16 "Leases"

IFRS 16 provides a comprehensive model for the identification of lease arrangements and their treatment in the financial statements of both lessee and lessor. It supersedes IAS 17 "Leases", IFRIC 4 "Determining whether an Arrangement contains a Lease", and a number of related interpretations. Refer to Note 4 for information relating to the relevant accounting policies.

#### Definition of a lease

The Group elects to apply the guidance of IFRS 16 in determining whether contracts are, or contain, a lease only to contracts entered into (or changed) on or after January 1, 2019. Contracts identified as containing a lease under IAS 17 are not reassessed and are accounted for in accordance with the transitional provisions under IFRS 16.

# The Group as lessee

The Group recognizes right-of-use assets or investment properties if the right-of-use assets meet the definition of investment properties, and lease liabilities for all leases on the consolidated balance sheets except for those whose payments under low-value asset and short-term leases are recognized as expenses on a straight-line basis. On the consolidated statements of comprehensive income, the Group presents the depreciation expense charged on right-of-use assets separately from the interest expense accrued on lease liabilities; interest is computed using the effective interest method. On the consolidated statements of cash flows, cash payments for the principal portion of lease liabilities are classified within financing activities; cash payments for the interest portion are classified within operating activities. Prior to the application of IFRS 16, payments under operating lease contracts, including property interest qualified as investment properties, were recognized as expenses on a straight-line basis. Prepaid lease payments for land use rights were recognized as prepayments for leases. The difference between the actual payments and the expenses, as adjusted for lease incentives, was recognized as other payables and other non-current liabilities. Cash flows for operating leases were classified within operating activities on the consolidated statements of cash flows. Leased assets and finance lease payables were recognized on the consolidated balance sheets for contracts classified as finance leases.

The Group elects to apply IFRS 16 retrospectively with the cumulative effect of the initial application of this standard recognized in retained earnings on January 1, 2019. Comparative information is not restated.

Except for the leasehold investment properties mentioned below, lease liabilities were recognized on January 1, 2019 for leases previously classified as operating leases under IAS 17. Lease liabilities were measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate on January 1, 2019. Right-of-use assets are measured at an amount equal to the lease liabilities, adjusted by the amount of any prepaid or accrued lease payments. Except for the following practical expedient which is applied, the Group applies IAS 36 to all right-of-use assets.

Part of leases which was previously accounted for as an operating lease under IAS 17, qualifies as an investment property. A lease liability for that leasehold building is recognized and measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate on January 1, 2019. Related right-of-use assets are presented as investment properties and measured at fair value on that date. Any difference will be recognized under retained earnings, and a special reserve will be appropriated under Rule No. 1030006415 issued by the FSC. No adjustment is made for leasehold, which was previously accounted for as an investment property.

The Group also applies the following practical expedients:

- a) The Group accounts for those leases for which the leases term ends on or before December 31, 2019 as short-term leases.
- b) The Group excludes initial direct costs from the measurement of right-of-use assets on January 1, 2019.
- c) The Group uses hindsight, such as in determining lease terms, to measure lease liabilities.

For leases previously classified as finance leases under IAS 17, the carrying amounts of right-of-use assets and lease liabilities on January 1, 2019 are determined as at the carrying amounts of the respective leased assets and finance lease payables on December 31, 2018.

The weighted average lessee's incremental borrowing rate applied to lease liabilities recognized on January 1, 2019 is 1.71%. The difference between the (i) lease liabilities recognized and (ii) operating lease commitments disclosed under IAS 17 on December 31, 2018 is explained as follows:

| The future minimum lease payments of non-cancellable operating lease   |    |                      |
|--|----|----------------------|
| commitments on December 31, 2018   | \$ | 33,561,329           |
| Less: Recognition exemption for short-term leases  |    | (284,235)            |
| Less: Recognition exemption for leases of low-value assets   |    | (512)                |
| Less: Commitment on lease contract before commencement date of the lease   | _  | (3,474,768)          |
| Undiscounted amounts on January 1, 2019  | \$ | 29,801,814           |
| Discounted amounts using the incremental borrowing rate on January 1, 2019 Add: Finance lease liabilities on December 31, 2018 | \$ | 27,031,697<br>91,331 |
| Add (Less): Adjustments as a result of a different treatment of extension and termination options                              | _  | 3,234,724            |
| Lease liabilities recognized on January 1, 2019  | \$ | 30,357,752           |

# The Group as lessor

The Group does not make any adjustments for leases in which it is a lessor, and it accounts for those leases with the application of IFRS 16 starting from January 1, 2019.

The impact on assets, liabilities and equity as of January 1, 2019 from the initial application of IFRS 16 is set out as follows:

|                                     | St | Originally<br>tated on<br>ary 1, 2019 | Ar | ljustments<br>rising from<br>Initial<br>pplication |    | stated on<br>ary 1, 2019 |

2) IFRIC 23 "Uncertainty over Income Tax Treatments"

IFRIC 23 clarifies that when there is uncertainty over income tax treatments, the Group should assume that the taxation authority has full knowledge of all related information when making related examinations. If the Group concludes that it is probable that the taxation authority will accept an uncertain tax treatment, the Group should determine the taxable profit, tax bases, unused tax losses, unused tax credits or tax rates consistently with the tax treatments used or planned to be used in its income tax filings. If it is not probable that the taxation authority will accept an uncertain tax treatment, the Group should make estimates using either the most likely amount or the expected value of the tax treatment, depending on which method the Group expects to better predict the resolution of the uncertainty. The Group has to reassess its judgments and estimates if facts and circumstances change.

b. The IFRSs endorsed by the Financial Supervisory Commission (FSC) for application starting from 2020

| New IFRSs  | Effective Date Announced by IASB                     |
|--|--|
| Amendments to IFRS 3 "Definition of a Business" Amendments to IFRS 9, IAS 39 and IFRS 7 "Interest Rate Benchmark | January 1, 2020 (Note 1)<br>January 1, 2020 (Note 2) |
| Reform" Amendments to IAS 1 and IAS 8 "Definition of Material"   | January 1, 2020 (Note 3)                             |

- Note 1: The Group shall apply these amendments to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after January 1, 2020 and to asset acquisitions that occur on or after the beginning of that period.
- Note 2: The Group shall apply these amendments retrospectively for annual reporting periods beginning on or after January 1, 2020.
- Note 3: The Group shall apply these amendments prospectively for annual reporting periods beginning on or after January 1, 2020.

As of the date the consolidated financial statements were authorized for issue, the Group assesses the possible impacts that the application of the aforementioned amendments and the related amendments to the Regulations Governing the Preparation of Financial Reports by Securities Issuers will have on the Group's financial position and financial performance and will disclose these other impacts when the assessment is completed.

c. New IFRSs in issue but not yet endorsed and issued into effect by the FSC

| New IFRSs  | Effective Date Announced by IASB (Note) |
|--|---|
| Amendments to IFRS 10 and IAS 28 "Sale or Contribution of Assets between an Investor and its Associate or Joint Venture" | To be determined by IASB                |
| IFRS 17 "Insurance Contracts"  | January 1, 2021                         |
| Amendments to IAS 1 "Classification of Liabilities as Current or   | January 1, 2022                         |
| Non-current"   |   |

Note: Unless stated otherwise, the above New IFRSs are effective for annual reporting periods beginning on or after their respective effective dates.

As of the date the consolidated financial statements were authorized for issue, the Group is continuously assessing the possible impact that the application of other standards and interpretations will have on the Group's financial position and financial performance and will disclose the relevant impact when the assessment is completed.

#### 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### a. Statement of compliance

The consolidated financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and IFRSs as endorsed and issued into effect by the FSC.

# b. Basis of preparation

The consolidated financial statements have been prepared on the historical cost basis except for financial instruments, investment properties which are measured at fair value, and net defined benefit liabilities which are measured at the present value of the defined benefit obligation less the fair value of the plan assets.

The fair value measurements, which are grouped into Levels 1 to 3 based on the degree to which the fair value measurement inputs are observable and based on the significance of the inputs to the fair value measurement in its entirety, are described as follows:

- 1) Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities;
- 2) Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for an asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and
- 3) Level 3 inputs are unobservable inputs for the asset or liability.
- c. Classification of current and non-current assets and liabilities

#### Current assets include:

- Assets held primarily for the purpose of trading;
- Assets expected to be realized within 12 months after the reporting period; and
- Cash and cash equivalents unless the asset is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period.

# Current liabilities include:

- Liabilities held primarily for the purpose of trading;
- Liabilities due to be settled within 12 months after the reporting period, even if an agreement to refinance, or to reschedule payments, on a long-term basis is completed after the reporting period and before the financial statements are authorized for issue; and
- Liabilities for which the Company does not have an unconditional right to defer settlement for at least 12 months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Assets and liabilities that are not classified as current are classified as non-current.

#### d. Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Group and the entities controlled by the Group (i.e., its subsidiaries). When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by the Group. All intra-group transactions, balances, income and expenses are eliminated in full on consolidation. Total comprehensive income of subsidiaries is attributed to the shareholders of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Changes in the Group's ownership interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity and attributed to shareholders of the parent.

See Note 12 and Table 8 for details on subsidiaries, including the percentages of their ownership and main businesses.

Refer to Table 1 for the diagram of intercompany relationships of the consolidated financial statements for the year ended December 31, 2019.

#### e. Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the entity's functional currency (i.e., foreign currencies) are recognized at the rates of exchange prevailing at the dates of the transactions.

At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Exchange differences on monetary items arising from settlement or translation are recognized in profit or loss in the period.

Non-monetary items measured at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when fair value was determined. Exchange differences arising from the retranslation of non-monetary items are included in profit or loss for the period except for exchange differences arising from the retranslation of non-monetary items in respect of which gains and losses are recognized directly in other comprehensive income; in which cases, the exchange differences are also recognized directly in other comprehensive income.

Non-monetary items that are measured at historical cost in a foreign currency are not retranslated.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's foreign operations (including the subsidiaries and associates in other countries or subsidiaries which use currencies that are different from the Group) are translated into New Taiwan dollars using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period. Exchange differences arising are recognized in other comprehensive income (as appropriate attributed to owners of the Group and non-controlling interests, respectively).

On the disposal of a foreign operation (i.e., a disposal of the Group's entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation, or a partial disposal of an interest in an associate that includes a foreign operation of which the retained interest becomes a financial asset), all of the exchange differences accumulated in equity in respect of that operation attributable to the owners of the Group are reclassified to profit or loss.

In relation to a partial disposal of a subsidiary that does not result in the Group losing control over the subsidiary, the proportionate share of accumulated exchange differences is re-attributed to non-controlling interests of the subsidiary and is not recognized in profit or loss. For all other partial disposals, the proportionate share of the accumulated exchange differences recognized in other comprehensive income is reclassified to profit or loss.

# f. Inventories

Inventories are stated at the lower of cost or net realizable value, using the retail method. Net realizable value is the estimated selling price of inventories less all estimated costs of completion and costs necessary to make the sale. Inventories are recorded at weighted-average cost on the balance sheet date.

#### g. Investment in associates

An associate is an entity over which the Group has significant influence and that is neither a subsidiary nor an interest in a joint venture. The Group uses the equity method of accounting to recognize its investments in associates.

Under the equity method, an investment in an associate is initially recognized at cost and is adjusted thereafter to recognize the Group's share of the profit or loss and other comprehensive income of the associate. The Group also recognizes the changes in the Group's share of the equity of associates attributable to the Group.

When the Group subscribes for additional new shares of the associate at a percentage different from its existing ownership percentage, the resulting carrying amount of the investment differs from the amount of the Group's proportionate interest in the associate. The Group records such a difference as an adjustment to investments with the corresponding amount charged or credited to capital surplus-changes in the Group's share of equity of associates. If the Group's ownership interest is reduced due to the additional subscription of new shares of the associate, the proportionate amount of the gains or losses previously recognized in other comprehensive income in relation to that associate is reclassified to profit or loss on the same basis as would be required if the investee had directly disposed of the related assets or liabilities. When the adjustment should be debited to capital surplus, but the capital surplus recognized from investments accounted for by the equity method is insufficient, the shortage is debited to retained earnings.

When the Group's share of losses of an associate equals or exceeds its interest in that associate (which includes any carrying amount of the investment accounted for by the equity method and long-term interests that, in substance, form part of the Group's net investment in the associate), the Group discontinues recognizing its share of further losses. Additional losses and liabilities are recognized only to the extent that the Group has incurred legal obligations, or constructive obligations, or made payments on behalf of that associate.

The entire carrying amount of the investment (including goodwill) is tested for impairment as a single asset by comparing its recoverable amount with its carrying amount. Any impairment loss recognized forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognized to the extent that the recoverable amount of the investment subsequently increases.

Group discontinues the use of the equity method from the date on which its investment ceases to be an associate. Any retained investment is measured at fair value at that date and the fair value is regarded as its fair value on initial recognition as a financial asset. The difference between the previous carrying amount of the associate attributable to the retained interest and its fair value is included in the determination of the gain or loss on disposal of the associate. The Group accounts for all amounts previously recognized in other comprehensive income in relation to that associate on the same basis as would be required if that associate had directly disposed of the related assets or liabilities. If an investment in an associate becomes an investment in a joint venture or an investment in a joint venture becomes an investment in an associate, the Group continues to apply the equity method and does not remeasure the retained interest.

When the Group transact with its associate, profits and losses resulting from the transactions with the associate are recognized in the Group's consolidated financial statements only to the extent of interests in the associate that are not related to the Group.

#### h. Property, plant and equipment

Property, plant and equipment are initially measured at cost and subsequently measured at cost less accumulated depreciation and accumulated impairment loss. Before January 1, 2019, property, plant and equipment also included assets held under finance leases.

Property, plant and equipment in the course of construction are measured at cost less any recognized impairment loss. Cost includes professional fees and borrowing costs eligible for capitalization. Such assets are depreciated and classified to the appropriate categories of property, plant and equipment when completed and ready for their intended use.

The depreciation of property, plant and equipment is recognized using the straight-line method. Each significant part is depreciated separately. For assets which were held under finance leases before January 1, 2019, if their respective lease terms are shorter than their useful lives, such assets are depreciated over their lease terms. The estimated useful lives, residual values and depreciation methods are reviewed at the end of each reporting period, with the effects of any changes in the estimates accounted for on a prospective basis.

On derecognition of the property, plant and equipment, the difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss for the year.

# i. Investment properties

Investment properties are properties held to earn rental and/or for capital appreciation. Beginning January 1, 2019, investment properties include right-of-use assets and properties under construction if the definition of investment properties is met; before January 1, 2019, investment properties included properties under construction, properties held under finance leases and property interests under operating leases if the definition of investment properties was met. Investment properties also include land held for a currently undetermined future use.

Freehold investment properties are measured initially at cost, including transaction costs. Beginning January 1, 2019, investment properties acquired through leases are initially measured at cost, which comprises the initial measurement of lease liabilities adjusted for lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs needed to restore the underlying assets, and less any lease incentives received. With respect to the initial recognition of investment properties acquired through leases before January 1, 2019, refer to Note 16 for the accounting policies for finance leases. All investment properties are subsequently measured using the fair value model. Changes in the fair value of investment properties are included in profit or loss for the period in which they arise.

Investment properties under construction, of which the fair value is not reliably measurable, are measured at cost less accumulated impairment loss until such time as either the fair value becomes reliably measurable or construction is completed (whichever comes earlier).

For a transfer of classification from investment properties to property, plant and equipment, the deemed cost of an item of property for subsequent accounting is its fair value at the commencement of owner-occupation.

For a transfer of classification from property, plant and equipment to investment properties at the end of owner-occupation, any difference between the fair value of an item of property at the transfer date and its previous carrying amount is recognized in other comprehensive income.

On derecognition of an investment property, the difference between the net disposal proceeds and the carrying amount of the asset is included in profit or loss.

#### i. Goodwill

Goodwill arising from the acquisition of a business is measured at cost as established at the date of acquisition of the business less accumulated impairment loss.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units that is expected to benefit from the synergies of the combination.

A cash-generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired, by comparing its carrying amount, including the attributable goodwill, with its recoverable amount. However, if the goodwill allocated to a cash-generating unit was acquired in a business combination during the current annual period, that unit shall be tested for impairment before the end of the current annual period. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss is recognized directly in profit or loss. An impairment loss recognized for goodwill is not reversed in subsequent periods.

If goodwill has been allocated to a cash-generating unit and the entity disposes of an operation within that unit, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal, and is measured on the basis of the relative values of the operation disposed of and the portion of the cash-generating unit retained.

# k. Intangible assets

#### 1) Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are initially measured at cost and subsequently measured at cost less accumulated amortization and accumulated impairment loss. Amortization is recognized on a straight-line basis during their expected useful life. The estimated useful lives, residual values, and amortization methods are reviewed at the end of each reporting period, with the effect of any changes in the estimates accounted for on a prospective basis.

When the Group has a right to charge for the usage of concession infrastructure (as a consideration for providing construction services in a service concession arrangement), it recognizes this as an intangible asset. The intangible asset is subsequently measured at cost less accumulated amortization and any accumulated impairment loss.

## 2) Derecognition of intangible assets

On derecognition of the intangible asset, the difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss for the year.

#### 1. Impairment of tangible and intangible assets other than goodwill

At the end of each reporting period, the Group reviews the carrying amounts of its tangible and intangible assets other than goodwill to determine any indication of impairment loss on these assets. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of any impairment loss. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. Corporate assets are allocated to the smallest group of cash-generating units on a reasonable and consistent allocation basis.

The recoverable amount is the higher of fair value less costs to sell and value in use. If the recoverable amount of an asset or cash-generating unit is estimated to be less than its carrying amount, the carrying amount of the asset or cash-generating unit is reduced to its recoverable amount. The impairment loss is recognized in profit or loss.

When an impairment loss is subsequently reversed, the carrying amount of the asset or cash-generating unit is increased to the revised estimate of its recoverable amount, but only to the extent of the carrying amount (deducting amortization or depreciation) that would have been determined had no impairment loss been recognized for the asset or cash-generating unit in prior years. A reversal of an impairment loss is recognized in profit or loss.

#### m. Financial instruments

Financial assets and financial liabilities are recognized when the Group becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issuance of financial assets and financial liabilities (other than financial assets and financial liabilities at FVTPL) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognized immediately in profit or loss.

# 1) Financial assets

All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis.

#### a) Measurement categories

Financial assets are classified into the following categories: Financial assets at FVTPL, financial assets at amortized cost and investments in debt instruments and equity instruments at FVTOCI.

#### i. Financial assets at FVTPL

Financial assets are classified as at FVTPL when such a financial asset is mandatorily classified or designated as at FVTPL. Financial assets mandatorily classified as at FVTPL include investments in equity instruments which are not designated as at FVTOCI and debt instruments that do not meet the amortized cost criteria or the FVTOCI criteria.

Financial assets at FVTPL are subsequently measured at fair value, any remeasurement gains or losses on such financial assets are recognized in other gains or losses. Fair value is determined in the manner described in Note 31: Financial Instruments.

#### ii. Financial assets at amortized cost

Financial assets that meet the following conditions are subsequently measured at amortized cost:

- i) The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- ii) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Subsequent to initial recognition, financial assets at amortized cost, including cash and cash equivalents, trade receivables at amortized cost and refundable deposits, are measured at amortized cost, which equals the gross carrying amount determined using the effective interest method less any impairment loss. Exchange differences are recognized in profit or loss. Interest income is calculated by applying the effective interest rate to the gross carrying amount of such a financial asset.

Cash equivalents include time deposits with original maturities within 3 months from the date of acquisition, which are highly liquid, readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value. These cash equivalents are held for the purpose of meeting short-term cash commitments.

# iii. Investments in equity instruments at FVTOCI

Investments in equity instruments at FVTOCI are subsequently measured at fair value with gains and losses arising from changes in fair value recognized in other comprehensive income and accumulated in other equity. The cumulative gain or loss will not be reclassified to profit or loss on disposal of the equity investments; instead, it will be transferred to retained earnings.

Dividends on these investments in equity instruments are recognized in profit or loss when the Group's right to receive the dividends is established, unless the dividends clearly represent a recovery of part of the cost of the investment.

#### b) Impairment of financial assets

The Group recognizes a loss allowance for expected credit losses on financial assets at amortized cost (including trade receivables).

The Group always recognizes lifetime expected credit losses (ECLs) for trade receivables. For all other financial instruments, the Group recognizes lifetime ECLs when there has been a significant increase in credit risk since initial recognition. If, on the other hand, the credit risk on a financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12-month ECLs.

Expected credit losses reflect the weighted average of credit losses with the respective risks of default occurring as the weights. Lifetime ECLs represent the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECLs represent the portion of lifetime ECLs that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

The impairment loss of all financial assets is recognized in profit or loss by a reduction in their carrying amounts through a loss allowance account.

## c) Derecognition of financial assets

The Group derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

On derecognition of a financial asset at amortized cost in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognized in profit or loss. On derecognition of an investment in an equity instrument at FVTOCI, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognized in profit or loss, and the cumulative gain or loss which had been recognized in other comprehensive income is transferred directly to retained earnings, without recycling through profit or loss.

#### 2) Financial liabilities

#### a) Subsequent measurement

All financial liabilities are measured at amortized cost using the effective interest method.

#### b) Derecognition of financial liabilities

The difference between the carrying amount of a financial liability derecognized and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

#### n. Provisions

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

# o. Revenue recognition

The Group identifies contracts with customers, allocates the transaction price to the performance obligations and recognizes revenue when performance obligations are satisfied.

Revenue from the sale of goods are recognized as revenue when the goods are shipped or delivered because it is the time when the customer has full discretion over the manner of distribution and price to sell the goods, has the primary responsibility for sales to future customers and bears the risks of obsolescence. Trade receivables are recognized concurrently.

When other party participates providing in goods or services to customers, the Group obtains control of the specified goods or services before they are transferred to the customers and, therefore, is acting as a principal in the transaction. On the contrary, the other party is acting as an agent. As the principal, the total amount of the consideration that is expected to be obtained in exchange for the transfer of goods or services is recognized as income. As an agent, the amount of any fees or commissions that the other party expected to obtain in exchange for the provision of goods or services, recognized as income. The charge or commission of the Group may be the net amount of the consideration. The income retained by the Group in exchange for goods or services is the amount retained after payment to the other party.

Customer Loyalty Program, the Group offers award credits which can be used for future purchases when the customer shops. The award credits provides a material right to the customer. The transaction price allocated to the award credits is recognized as a contract liability when collected and will be recognized as revenue when the award credits is redeemed or has expired.

#### p. Leases

#### 2019

At the inception of a contract, the Group assesses whether the contract is, or contains, a lease.

#### 1) The Group as lessor

Leases are classified as finance leases whenever the terms of a lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

When the Group subleases a right-of-use asset, the sublease is classified by reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. However, if the head lease is a short-term lease that the Group, as a lessee, has accounted for applying recognition exemption, the sublease is classified as an operating lease.

Lease payments (less any lease incentives payable) from operating leases are recognized as income on a straight-line basis over the terms of the relevant leases. Initial direct costs incurred in obtaining operating leases are added to the carrying amounts of the underlying assets and recognized as expenses on a straight-line basis over the lease terms.

Variable lease payments that do not depend on an index or a rate are recognized as income in the periods in which they are incurred.

When a lease includes both land and building elements, the Group assesses the classification of each element separately as a finance or an operating lease based on the assessment as to whether substantially all the risks and rewards incidental to ownership of each element have been transferred to the lessee. The lease payments are allocated between the land and the building elements in proportion to the relative fair values of the leasehold interests in the land element and building element of the lease at the inception of a contract. If the allocation of the lease payments can be made reliably, each element is accounted for separately in accordance with its lease classification. When the lease payments cannot be allocated reliably between the land and building elements, the entire lease is generally classified as a finance lease unless it is clear that both elements are operating leases; in which case, the entire lease is classified as an operating lease.

#### 2) The Group as lessee

The Group recognizes right-of-use assets and lease liabilities for all leases at the commencement date of a lease, except for short-term leases and low-value asset leases accounted for applying a recognition exemption where lease payments are recognized as expenses on a straight-line basis over the lease terms.

Right-of-use assets are initially measured at cost, which comprises the initial measurement of lease liabilities adjusted for lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs needed to restore the underlying assets, and less any lease incentives received. Right-of-use assets are subsequently measured at cost less accumulated depreciation and impairment losses and adjusted for any remeasurement of the lease liabilities. Right-of-use assets are presented on a separate line in the consolidated balance sheets, except for those that meet the definition of investment properties. With respect to the recognition and measurement of right-of-use assets that meet the definition of investment properties, refer to Note 9 for the accounting policies for investment properties.

Right-of-use assets are depreciated using the straight-line method from the commencement dates to the earlier of the end of the useful lives of the right-of-use assets or the end of the lease terms. However, if leases transfer ownership of the underlying assets to the Group by the end of the lease terms or if the costs of right-of-use assets reflect that the Group will exercise a purchase option, the Group depreciates the right-of-use assets from the commencement dates to the end of the useful lives of the underlying assets.

Lease liabilities are initially measured at the present value of the lease payments, which comprise fixed payments, in-substance fixed payments, variable lease payments which depend on an index or a rate, less any lease incentives receivable. The lease payments are discounted using the interest rate implicit in a lease, if that rate can be readily determined. If that rate cannot be readily determined, the Group uses the lessee's incremental borrowing rate.

Subsequently, lease liabilities are measured at amortized cost using the effective interest method, with interest expense recognized over the lease terms. When there is a change in a lease term, or a change in future lease payments resulting from a change in an index or a rate used to determine those payments, the Group remeasures the lease liabilities with a corresponding adjustment to the right-of-use-assets. However, if the carrying amount of the right-of-use assets is reduced to zero, any remaining amount of the remeasurement is recognized in profit or loss. Lease liabilities are presented on a separate line in the consolidated balance sheets.

Variable lease payments that do not depend on an index or a rate are recognized as expenses in the periods in which they are incurred.

#### 2018

Leases are classified as finance leases whenever the terms of a lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

# 1) The Group as lessor

Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and amortized on a straight-line basis over the lease term.

Lease incentives included in an operating lease are recognized as an asset. The aggregate cost of incentives is recognized as a reduction of rental income on a straight-line basis. Lease incentives included in a finance lease are recognized as a reduction of minimum lease payments.

Contingent rentals are recognized as income in the period in which they are incurred.

## 2) The Group as lessee

Assets held under finance leases are initially recognized as assets of the Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the consolidated balance sheets as a finance lease obligation.

Operating lease payments are recognized as expenses on a straight-line basis over the lease term.

Lease incentives received under operating leases are recognized as liabilities. The aggregate benefit of incentives is recognized as a reduction of rental expenses on a straight-line basis. Lease incentives received under a finance lease are recognized as a reduction of minimum lease payments.

Contingent rentals are recognized as expenses in the period in which they are incurred.

#### 3) Leasehold land for own use

When a lease includes both land and building elements, the Group assesses the classification of each element separately as a finance or an operating lease based on the assessment as to whether substantially all the risks and rewards incidental to ownership of each element have been transferred to the Lessee. The minimum lease payments are allocated between the land and the building elements in proportion to the relative fair values of the leasehold interests in the land element and building element of the lease at the inception of the lease.

If the allocation of the lease payments can be made reliably, each element is accounted for separately in accordance with its lease classification. When the lease payments cannot be allocated reliably between the land and building elements, the entire lease is generally classified as a finance lease unless it is clear that both elements are operating leases; in which case, the entire lease is classified as an operating lease.

#### q. Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

Other than that which is stated above, all other borrowing costs are recognized in profit or loss in the period in which they are incurred.

#### r. Retirement benefit costs

Payments to defined contribution retirement benefit plans are recognized as an expense when employees have rendered services entitling them to the contributions.

Defined benefit costs (including service cost, net interest and remeasurement) under the defined benefit retirement benefit plans are determined using the projected unit credit method. Service cost (including current service cost and past service cost) and net interest on the net defined benefit liabilities (assets) are recognized as employee benefits expenses when the plan amendment or curtailment occurs. Remeasurement, comprising actuarial gains and losses (the effect of the changes to the asset ceiling) and the return on plan assets (excluding interest), is recognized in other comprehensive income in the period in which they occur. Remeasurement recognized in other comprehensive income (loss) is reflected immediately in retained earnings and will not be reclassified subsequently to profit or loss.

Net defined benefit liabilities (assets) represent the actual deficit (surplus) in the Group's defined benefit plan. Any surplus resulting from this calculation is limited to the present value of any refunds from the plans or reductions in future contributions to the plans.

#### s. Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

#### 1) Current tax

According to the Income Tax Law, an additional tax on unappropriated earnings is provided for in the year the shareholders approve to retain earnings.

Adjustments of prior years' tax liabilities are added to or deducted from the current period's income tax expenses.

#### 2) Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences and unused loss carryforwards to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized.

Deferred tax liabilities are recognized for taxable temporary differences associated with investments in subsidiaries and associates, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are recognized only to the extent that it is probable that there will be sufficient taxable profits against which utilize the benefit of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the assets to be recovered. A previously unrecognized deferred tax asset is also reviewed at the end of each reporting period and recognized to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liabilities are settled or the assets are realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

## 3) Current and deferred tax for the year

Current and deferred taxes are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred taxes are also recognized in other comprehensive income or directly in equity, respectively.

When current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

# 5. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, management is required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised if the revisions affect only that period or in the period of the revisions and future periods if the revisions affect both current and future periods.

# a. Impairment of goodwill

Determining whether goodwill is impaired requires an estimation of the value in use of the cash-generating units to which goodwill has been allocated. The calculation of the value in use requires management to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate the present value. Where the actual future cash flows are less than expected, a material impairment loss may arise.

# b. Impairment assessment of tangible and intangible assets other than goodwill

For impairment tests of assets, the Group evaluates and decides the independent cash flows of certain assets, useful lives of those assets and their probable future profit or loss based on subjective judgment, asset-usage models and department store industry characteristics. Any change in national and local economic conditions or the Group's strategy may cause a significant impairment loss.

# c. Fair value measurements and valuation processes of the investment properties

Third-party qualified valuers were engaged to perform the fair value evaluation of the Group's investment properties using the appropriate valuation techniques for fair value measurements.

The valuers of the Group determined the appropriate inputs by referring to the analyses of the financial position and the operation results of investees, recent transaction prices and prices of the same equity instruments not quoted in active markets in the vicinity of the Group's investment properties. If there are changes in the actual inputs in the future which differ from expectation, the fair value might vary accordingly. The Group updates inputs every quarter to confirm the appropriateness of the fair value measurement.

Information on the valuation techniques and inputs used in determining the fair value of investment properties is disclosed in Note 16.

# 6. CASH AND CASH EQUIVALENTS

|  | December 31 |                        |    |                        |
|--|-------------|------------------------|----|------------------------|
|  |             | 2019                   |    | 2018                   |

| Domestic investments                        |                     |              |  |
| Listed and OTC shares                       | \$ 4,736,737        | \$ 3,631,653 |  |
| Unlisted shares                             | 574,766             | 564,243      |  |
|   | 5,311,503           | 4,195,896    |  |
| Foreign investments                         |                     |              |  |
| Unlisted shares                             | 16,517              | 8,903        |  |
|   | <u>\$ 5,328,020</u> | \$ 4,204,799 |  |
|   |                     | (Continued)  |  |

|                        | December 31         |                             |  |
|------------------------|---------------------|-----------------------------|--|
|                        | 2019                | 2018                        |  |
| Current<br>Non-current | \$ 297,456<br>      | \$ 244,785<br>3,960,014     |  |
|                        | <u>\$ 5,328,020</u> | \$ 4,204,799<br>(Concluded) |  |

- a. These investments in equity instruments are not held for trading. Instead, they are held for medium to long-term strategic purposes. Accordingly, the management elected to designate these investments in equity instruments as at FVTOCI as they believe that recognizing short-term fluctuations in these investments' fair value in profit or loss would not be consistent with the Group's strategy of holding these investments for long-term purposes.
- b. Refer to Note 33 for information relating to investments in equity instruments at FVTOCI pledged as security.

#### 9. FINANCIAL ASSETS AT AMORTIZED COST

|  | December 31             |                                |  |
|--|-------------------------|--------------------------------|--|

- a. The credit risk of financial instruments such as bank deposits is measured and monitored by the accounting department. The Group chooses the transaction object and the other party performs good credit with the bank.
- b. The ranges of interest rates for financial assets at amortized cost were approximately 0.30%-2.40% and 0.30%-2.10% per annum as of December 31, 2019 and 2018, respectively.
- c. Refer to Note 33 for information relating to investments in financial assets at amortized cost pledged as security.

| Gross carrying amount               | \$ 1,034,999 | \$ 1,867,787         |  |  |
| Less: Allowance for impairment loss | (128,628)    | (129,572)            |  |  |
|                                     | \$ 906,371   | \$ 1,738,21 <u>5</u> |  |  |

The Group's trade receivables pertained to revenue on credit cards and goods coupons. The average credit period for revenue from credit cards was 2 to 3 days, and for goods coupons, 15 days.

In determining the recoverability of a trade receivable, the Group considered any change in the credit quality of the trade receivable since the date credit was initially granted to the end of the reporting period. Allowances for impairment loss were recognized against trade receivables based on estimated irrecoverable amounts determined with reference to past default experience of the counterparties and an analysis of their current financial position.

The Group measures the loss allowance for trade receivables at an amount equal to lifetime ECLs. The expected credit losses on trade receivables are estimated using a provision matrix by reference to past default experience of the debtor and an analysis of the debtor's current financial position, adjusted for general economic conditions of the industry in which the debtors operate and an assessment of both the current as well as the forecasted direction of economic conditions at the reporting date. As the Group's historical credit loss experience does not show significantly different loss patterns for different customer segments, the provision for loss allowance based on past due status is not further distinguished according to the Group's different customer base.

The Group writes off a trade receivable when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery. For trade receivables that have been written off, the Group continues to engage in enforcement activity to attempt to recover the receivables due. Where recoveries are made, these are recognized in profit or loss.

The following table details the loss allowance of trade receivables based on the Group's provision matrix.

#### December 31, 2019

FEDS Development agrees to offer a one-year loan to FENC (China) with a credit of RMB216,700 thousand and also provides an unsecured and interest-free loan to YDEC (Shanghai) with a credit of RMB81,377 thousand. Revolving lines of credit are allowed. As of December 31, 2018, FENC (China) made a drawdown of RMB216,560 thousand and YDEC (Shanghai) made a drawdown of RMB57,377 thousand. The actual borrowing amounts of these loans were recognized as other receivables within the Group. As of December 31, 2019, the whole amount of loan were repaid.

The Group postulated that the potential benefits of the investment will exceed the prospective interest incomes arising from the loan. Thus, the loan's terms of conditions were not regarded only as an independent transaction; the prospective benefits of the Group's investment plans were also taken into consideration. Moreover, as the ultimate parent company of the borrowers is Far Eastern New Century Ltd. (FENC), the Group believes that the borrowers are able to repay the debts without offering pledges in terms of their financial positions.

The following table details the loss allowance of other receivables based on the Group's provision matrix.

# December 31, 2019

- 1) As of December 31, 2019, they were still in the startup period.
- 2) Bai Fa China Holdings (HK) Ltd. applied to discontinue operations in June 2017 due to non-operating plans in the short-term.
- 3) The board of directors approved to end operations in April 2017, and went into liquidation on October 23, 2018.
- 4) Considering market demand and supply, Chengdu FEDS Co., Ltd. (Chengdu FEDS) decided to reconstruct and transform the business operating scheme to improve effectiveness. Therefore, Chengdu FEDS has ended their operations since December 23, 2017.
- 5) The board of directors approved to end operations in April 2019.
- b. Subsidiaries excluded from the consolidated financial statements

- 1) In November 2008, Pacific Sogo Department Stores Co., Ltd. (SOGO) applied to the Taiwan Taipei District Court (TTDC) for PSIC to be declared bankrupt, and the TTDC ruled PSIC bankrupt on December 30, 2010. On April 8, 2011, PSIC convened the first creditors' meeting. Assets of PSIC had been sold successively since August 22, 2012, and the bankruptcy manager had consecutively completed the allocation of assets of PSIC. The TTDC also ruled that the bankruptcy proceedings be terminated and announced to the public on November 11, 2015. Three years from the date of the announcement, Pacific Sogo Investment Co., Ltd. is regarded as the legal personality eradication on November 11, 2018.
- 2) The amount of Lian Ching Investment Co., Ltd. had been written off to zero, no liabilities were undertaken by the Group and the accounts are not disclosed in the consolidated financial statements.

FEDS Development Ltd., Far Eastern New Century (China) Investment Co., Ltd. (FENCI (China)) (subsidiary of FENC) and Oriental Holdings Co., Ltd. (subsidiary of Asia Cement Corporation) jointly invested in Yuan Ding Enterprise (Shanghai) Limited (YDEL (Shanghai)) in order to hold and undertake the real estate development and construction of a commercial building in the Shanghai World Expo district. The investment agreement was already signed.

In February and December 2019, respectively, Yuan Ding Enterprise (Shanghai) Limited (YDEL (Shanghai)) undertook the registration of a capital increase, which resulted in an increase of RMB250,000 thousand (NT\$1,138,000 thousand) and RMB107,880 thousand (NT\$467,034 thousand), respectively, in the Group's investment account in YDEL (Shanghai). In addition, the proportion of ownership is 20%, with a total investment amount 1,605,034 thousand.

In July 2019 and November 2018, Yuan Hsin Digital Payment Co., Ltd. (YHDP) undertook the registration of a capital reduction to offset the deficit, which resulted in a decrease of 7,324 thousand and 6,806 thousand shares, respectively, in the Group's equity in YHDP.

In June 2018, Ding Ding Integrated Marketing Service Co., Ltd. (DDIM) undertook the registration of a capital reduction to offset the deficit, which resulted in a decrease in the Group's equity in DDIM of 7,080 thousand shares.

Chongqing Pacific Consultant & Management Co., Ltd. (CPCM) invested RMB75,000 thousand in Chengdu Baiyang Industry Co., Ltd. (CDBI) and acquired 33% of the voting rights of CDBI. CPCM signed a contract to ensure long-term cooperation with its Joint Venture Partner, Chengdu Department Emporium Group Co., Ltd. (CDEG), and they agreed that CPCM would pay CDBI a security deposit of RMB425,000 thousand. Under the cooperation contract, the allocation of retained earnings of CDBI to CPCM will be at certain percentages stated in the contract and not at their respective percentages of ownership. The contract further states that CDBI should not be liquidated and CPCM should not transfer its equity (including voting rights) in CDBI to any party. The security deposit of RMB425,000 thousand can be transferred in stages as capital of CDBI and recognized as a long-term investment prepayment. When the percentage of the allocation of retained earnings, which had been requested by CDEG, exceeds a certain percentage of the allocation of retained earnings as stated in the contract, CPCM may simultaneously request to get back 50% of the allocated retained earnings and the security deposit. As of December 31, 2019, CDBI had returned RMB108,308 thousand to CPCM.

The investments in associates accounted for using the equity method and the share of profit or loss and other comprehensive income of those investments were based on the associates' financial statements audited for the same years by other auditors.

Refer to Note 33 for the information on the carrying amounts of investments in associates accounted for using the equity method that were pledged as security.

The above items of property, plant and equipment are depreciated on a straight-line basis over their estimated useful lives as follows:

| Buildings  | 17-56 years |
|--|-------------|
| Buildings and facilities                           | 5-20 years  |
| Decorative facilities                              | 3-20 years  |
| Equipment under finance leases                     | 15-50 years |
| Plant, transportation, and miscellaneous equipment | 3-12 years  |

AIMAI evaluated the prospective profits in 2018. The impairment tests were applied to the property, plant and equipment of both branches based on their recoverable amounts, and \$38,047 thousand was recognized as an impairment loss.

Refer to Note 33 for the information on the carrying amounts of property, plant and equipment that were pledged as collateral for long/short-term borrowings.

# 15. LEASE ARRANGEMENTS

b.

a. Right-of-use assets - 2019

|  | December 31,<br>2019                                  |
|--|---|
| Carrying amounts   |   |
| Land Buildings Plant, transportation, and miscellaneous equipment  | \$ 11,367,407<br>33,396,243<br>1,160<br>\$ 44,764,810 |
|  | For the Year<br>Ended<br>December 31,<br>2019         |
| Additions to right-of-use assets   | <u>\$ 2,101,626</u>                                   |
| Depreciation charge for right-of-use assets  Land  Buildings  Plant, transportation, and miscellaneous equipment | \$ 344,220<br>3,318,910<br>1,228<br>\$ 3,664,358      |
| Lease liabilities - 2019   |   |
|  | December 31,<br>2019                                  |
| Carrying amounts   |   |
| Current<br>Non-current   | \$ 3,381,049<br>\$ 25,406,473                         |

Range of discount rate for lease liabilities was as follows:

|  | December 31,<br>2019 |
|--|----------------------|
| Land   | 1.09%-1.75%          |
| Buildings  | 0.90%-4.35%          |
| Plant, transportation, and miscellaneous equipment | 0.92%-1.15%          |

#### c. Material lease-in activities and terms

The Group leases certain property and equipment for its retail business with a lease term of 1 to 50 years. In addition to fixed payments, a part of the lease contract also specifies variable lease payments with different conditions. Some stores are leased by acquiring land use rights to build buildings and transfer buildings to lessor unconditionally at the end of the lease terms.

#### d. Other lease information

# <u>2019</u>

|   | For the Year<br>Ended<br>December 31,<br>2019 |
|---|---|
| Expenses relating to short-term leases  | <u>\$ 182,955</u>                             |
| Expenses relating to low-value asset leases                                     | <u>\$ 69,461</u>                              |
| Expenses relating to variable lease payments not included in the measurement of |   |
| lease liabilities   | <u>\$ 227,668</u>                             |
| Total cash outflow for leases   | <u>\$ (6,106,960</u> )                        |

The Group has elected to apply the recognition exemption for short-term leases and low-value assets leases and, thus, did not recognize right-of-use assets and lease liabilities for these leases.

# 2018

The future minimum lease payments of non-cancellable operating lease commitments are as follows:

|   | December 31,<br>2018                     |
|---|--|
| Not later than 1 year<br>Later than 1 year and not later than 5 years<br>Later than 5 years | \$ 3,724,940<br>12,542,437<br>17,293,952 |
|   | <u>\$ 33,561,329</u>                     |

The lease payments and sublease payments recognized in profit or loss were as follows:

|   | For the Year<br>Ended<br>December 31,<br>2018 |
|---|---|
| Minimum lease payments Contingent rental payments | \$ 3,934,059<br>170,442                       |
| Sublease payments                                 | (61,751)<br>\$ 4,042,750                      |

#### 16. INVESTMENT PROPERTIES

|  | Land         | Buildings and<br>Facilities | Investment<br>Properties<br>under<br>Construction | Right-of-use<br>Assets | Total        |

| Loss on changes in the fair value of investment        |              |                             |   |                        |              |
| properties   | (34,068)     | (69,685)                    | <del></del>                                       | (47,844)               | (151,597)    |
| Balance at December 31, 2019                           | \$ 5,720,778 | \$ 2,866,154                | \$ 10,124   | <u>\$ 489,585</u>      | \$ 9,086,641 |

The investment properties located in the Hualien area were affected by the earthquake which occurred on February 6, 2018, which caused significant damage to the investment properties. The Group demolished the building in March 2018 and recognized loss on disposal of investment properties of \$90,621 thousand in 2018.

Right-of-use assets included in investment properties which are units of office spaces located in Taoyuan and subleased under operating leases to others.

Some of the Group's investment properties were leased out for 1 to 20 years. The lessees do not have bargain purchase options to acquire the investment properties at the expiry of the lease periods.

Except for the minimum lease payments, some of the lease contracts also indicate that the lessees should make variable payments which shall be determined at the Consumer Price Index.

The maturity analysis of lease payments receivable under operating leases of investment properties at December 31, 2019 is as follows:

|                | December 31,<br>2019 |
|----------------|----------------------|
| Year 1         | \$ 764,587           |
| Year 2         | 698,985              |
| Year 3         | 638,463              |
| Year 4         | 494,165              |
| Year 5         | 487,403              |
| Year 6 onwards | 4,359,943            |
|                | \$ 7,443,546         |

The future minimum lease payments of non-cancellable operating lease commitments at December 31, 2018 are as follows:

|  | December 31,<br>2018 |
|--|----------------------|
| Not later than 1 year                        | \$ 825,529           |
| Later than 1 year and not later than 5 years | 2,269,991            |
| Later than 5 years                           | 3,468,739            |
|  | <u>\$ 6,564,259</u>  |

The fair values of the investment properties as of December 31, 2019 and 2018 were based on the valuations carried out at those dates, on a recurring basis by independent qualified professional valuers, Hong-Kai Chang, Yi-Chih Chang, Yu-Fen Yeh and Kuang-Ping Tai from Savills Real Estate Appraiser Office, a member of certified ROC real estate appraisers.

Except for undeveloped lands, the fair values of investment properties were measured using the income approach and the significant assumptions used are the increase in the estimated future net cash inflows, or the decrease in discount rates that would result in increases in the fair values.

|  | December 31                |                                   |  |  |
|--|----------------------------|-----------------------------------|--|--|
|  | 2019                       | 2018                              |  |  |
| Expected future cash inflows Expected future cash outflows | \$ 21,454,628<br>3,020,664 | \$ 21,577,513<br><u>2,895,472</u> |  |  |
| Expected future cash inflows, net                          | <u>\$ 18,433,964</u>       | <u>\$ 18,682,041</u>              |  |  |
| Discount rate  | 3.845%-4.345%              | 3.845%-4.345%                     |  |  |

The market rentals in the area where the investment properties are located were between \$1 thousand and \$2 thousand per ping (i.e., per 3.3 square meters). The market rentals for comparable properties were between \$1 thousand and \$4 thousand per ping (i.e., per 3.3 square meters).

The expected future cash inflows generated by investment properties referred to rental income, interest income on rental deposits and disposal value. The rental income was extrapolated using the existing lease contracts of the Group and comparative market rentals covering 5-11 years, taking into account the annual rental growth rate. The interest income on rental deposits was extrapolated by the one-year average deposit interest rate, and the disposal value was determined by the direct capitalization method under the income approach. The expected future cash outflows on investment properties included expenditures such as

property taxes, insurance premiums, management fees, maintenance costs and replacement allowances. These expenditures were extrapolated on the basis of the current level of expenditures, taking into account the future adjustments to the government-announced land value, the tax rate promulgated under the Construction Cost Index and the House Tax Act and construction costs.

The discount rate was determined with reference to the interest rate for two-year time deposits of Chunghwa Post Co., Ltd. plus 0.75% and the risk premium of investment properties of 2%-2.5%.

Part of the land owned by the Group, where is located in the east of Taiwan, was not developed yet. The fair value of the undeveloped land area was measured by the land development analysis approach. The increase in the estimated total sales price, the increase in the rate of return, or the decrease in the overall capital interest rate would result in increase in the fair value. The significant assumptions used are as follows:

|   | December 31            |                        |  |  |
|---|------------------------|------------------------|--|--|
|   | 2019                   | 2018                   |  |  |
| Estimated total sales price                     | <u>\$ 1,511,974</u>    | \$ 1,965,503           |  |  |
| Rate of return<br>Overall capital interest rate | 18%-20%<br>1.56%-3.08% | 16%-20%<br>1.49%-3.90% |  |  |

The total sales price is estimated on the basis of the most effective use of land or property available for sale after development is completed, taking into account the related regulations, optimism of domestic macroeconomic prospects, local land use, and comparable market prices.

Refer to Note 33 for the information on the carrying amounts of investment properties pledged as collateral for borrowings.

Goodwill arising on mergers or the acquisition of majority interests in companies is the acquisition cost in excess of the fair value of the identifiable net assets acquired.

The recoverable amount of this cash-generating unit was determined based on a value in use calculation which uses cash flow projections based on financial budgets approved by management, a discount rate of 11.8% and 11.3% per annum and the Group reviews the carrying amount of goodwill by comparing its recoverable amount with its carrying amount to determine whether there is any indication that those assets have suffered an impairment loss. The impairment of goodwill which was related to the operation in mainland China amounted to \$1,095,884 thousand and \$1,630,000 thousand for the years ended December 31, 2019 and 2018, respectively.

Cash flows of the financial forecast is prepared and based on estimates of annual revenues, gross profit, capital expenditures and other operating costs. Management believed that any reasonably possible change in the key assumptions on which the recoverable amount was based would not cause the aggregate carrying amount of the cash-generating unit to exceed its aggregate recoverable amount.

The following intangible assets are amortized on a straight-line basis over their estimated useful lives as follows:

Computer software 1-10 years Franchise 45 years

a. In January 2007, SOGO constructed a building within the Zhongxiao-Fuxing Station (BR4) of the Muzha line of the Taipei Rapid Transit System under a lease agreement with the Department of Rapid Transit Systems (DRTS), the Department of Finance under the Taipei City Government (TCG) and Hong-Tong Comprehensive Commercial Developing Co., Ltd. (HTCCD) SOGO renewed and signed a new lease agreement before the due date in June 2016. The new lease term is 9 years and 6 months, and the monthly rental for the first year is \$20,263 thousand. From the second year onward, the rental will be adjusted in accordance to the conditions formulated in the new lease agreement.

SOGO paid deposits of \$23,637 thousand to the DRTS under the TCG and \$38,278 thousand to the Department of Finance under the TCG. SOGO also paid operating deposits of \$182,324 thousand to the DRTS under the TCG. SOGO's total refundable deposits were \$244,239 thousand as of December 31, 2019.

In addition, SOGO made other prepayments under development leasehold rights - HTCCD to obtain the right to lease the building housing SOGO's Branch BR4. In December 2006, SOGO entered into a lease agreement with HTCCD. Under this agreement, when the amount paid by SOGO exceeds the rental payable, the premium will be deemed as prepaid rental to be deducted from future rental expenses.

- b. In September 2003, FEDS acquired the land use rights for No. A13 in Xinyi District of Taipei City, which is owned by the TCG. The total amount of the land use rights was \$3,196,888 thousand, and FEDS completed the registration of its acquisition of the land use rights in October 2003. Under the contract, FEDS has the right to use the land for 50 years starting from the completion of the land use rights' registration. The initial monthly rental is \$3,771 thousand, to be adjusted annually in accordance with the assessed and publicly announced land value on the contract date. The construction had been completed and transferred to right-of-use assets in 2019.
- c. On January 1, 1998, FEDS Asia Pacific Development signed a contract with Asia Cement Corporation (ACC) for the construction of the Kaohsiung Asian Business and Finance Building on the land provided by ACC. Under this contract, FEDS Asia Pacific Development will own the leasehold rights for 50 years starting from the date of the contract and should pay ACC \$1,073,000 thousand as the premium for the land use rights. The land use rights are amortized during the land use period. Annual land rental is payable in November of each year for 50 years at 5% of the assessed and publicly announced land value.

The construction was completed in October 2001, and the building was rented out to FEDS and Vieshow Cinemas Co. The construction cost is amortized over the building occupancy period from October 2001 to December 2047.

- d. Owing to the change of business operations of Dalian Pacific Department Store Co., Ltd. (DPDS), DPDS entered into a lease agreement with Dalian Parkland Co., Ltd. and prepaid RMB60,000 thousand to Dalian Parkland Co., Ltd. as rental. The amount of the rental is amortized over the lease term period.
- e. In November 2001, under an agreement, AIMAI will lease a hypermarket from Hsinchu Chemical Industrial Co., Ltd. (HCCI). HCCI will provide the land and build the hypermarket. The related construction expenses will be paid by HCCI and AIMAI at the respective ratio of 1:2. The payment (including the previous development expenses) by AIMAI will be regarded as prepaid rental and amortized over the rental period upon the remaining lease term beginning from the opening day (19 years and 3 months). The Hsinchu branch of AIMAI opened in October 2003.
- f. Shanghai Pacific Department Store obtained land use rights which are amortized over 30 years on the basis of the straight-line method.
- g. On July 8, 2015, Chubei New Century Shopping Mall Co., Ltd. (CBNC) signed a build-operate-transfer (BOT) investment contract with the Hsinchu County Government. The total royalty of this investment contract was \$10,000 thousand, and the registration of the acquisition of the land use rights was completed in September 2015. Under the contract, CBNC has the right to use the land for 50 years (including the construction and operation period) from the date that this agreement was signed by both parties. The respective period's rental amount for the land is based on 1% of the land owners' reported value in the construction period and 3% of the land owners' reported value in the operation period. The rental amount will be adjusted in accordance with the assessed and publicly announced land value.

#### 23. RETIREMENT BENEFIT PLANS

#### a. Defined contribution plans

The Group in ROC of the Group adopted a pension plan under the Labor Pension Act (LPA ), which is a state-managed defined contribution plan. Under the LPA, an entity makes monthly contributions to employees' individual pension accounts at 6% of monthly salaries and wages.

The employees of the Group's subsidiaries in mainland China are members of a state-managed retirement benefit plan operated by the local government of mainland China. The Group in mainland China are required to contribute a specified percentage of payroll costs to the retirement benefit scheme to fund the benefits. The only obligation of the Group with respect to the retirement benefit plan is to make the specified contributions.

#### b. Defined benefit plans

The defined benefit plan adopted by Yu Ming Advertising Agency Co., Ltd. (YMAC ), Far Eastern Hon Li Do Co., Ltd. (FEHLD), FEDS, AIMAI, Ya Tung Department Stores, Ltd. (YTDS) and SOGO of the Group in accordance with the Labor Standards Law is operated by the government of the ROC. Pension benefits are calculated on the basis of the length of service and average monthly salaries of the 6 months before retirement. The Company and aforementioned subsidiaries contribute amounts equal to 2%-6% of total monthly salaries and wages to a pension fund administered by the pension fund monitoring committee. Pension contributions are deposited in the Bank of Taiwan in the committee's name. Before the end of each year, the Group assesses the balance in the pension fund. If the amount of the balance in the pension fund is inadequate to pay retirement benefits for employees who conform to retirement requirements in the next year, the Group is required to fund the difference in one appropriation that should be made before the end of March of the next year. The pension fund is managed by the Bureau of Labor Funds, Ministry of Labor (the "Bureau"); the Group has no right to influence the investment policy and strategy.

The pension costs of YMAC respectively amounted to \$12 and \$13 thousand in 2019 and 2018, and the accrued pension liabilities on December 31, 2019 and 2018 were both \$486 thousand.

FEHLD terminated sales on July 1, 2000. Thus, the employees of FEHLD became the employees of AIMAI. The length of services of the employees at FEHLD is carried forward to accumulate and calculate the defined benefit plans at AIMAI. If the employees retire, the calculation of pension costs would be based on the length of service at FEHLD. The accrued pension liabilities on December 31, 2019 and 2018 amounted to \$479 and \$778 thousand, respectively. These accrued pension liabilities were provisions for the aforementioned pension.

The amounts included in the consolidated balance sheets in respect of the Group's defined benefit plans are as follows:

|   | FEDS                     | AIMAI                  | YTDS                  | SOGO                    |

Through the defined benefit plans under the Labor Standards Law, the Group is exposed to the following risks:

- 1) Investment risk: The plan assets are invested in equity and debt securities, bank deposits, etc. The investment is conducted at the discretion of the Bureau or under the mandated management. However, in accordance with relevant regulations, the return generated by plan assets should not be below the interest rate for a 2-year time deposit with local banks.
- 2) Interest risk: A decrease in the government bond interest rate will increase the present value of the defined benefit obligation; however, this will be partially offset by an increase in the return on the plan's debt investments of the plan assets.
- 3) Salary risk: The present value of the defined benefit obligation is calculated with reference to the future salaries of plan participants. As such, an increase in the salaries of the plan participants will increase the present value of the defined benefit obligation.

The actuarial valuations of the present value of the defined benefit obligation were carried out by qualified actuaries. The significant assumptions used for the purposes of the actuarial valuations are as follows:

|  | FEDS   | AIMAI  | YTDS   | SOGO   |
|--|--------|--------|--------|--------|
| <u>December 31, 2019</u>   |        |        |        |        |
| Discount rates Expected rates of salary increase                     | 0.750% | 0.750% | 0.750% | 0.750% |
|  | 2.000% | 1.000% | 2.000% | 2.250% |
| December 31, 2018  Discount rates  Expected rates of salary increase | 1.125% | 1.125% | 1.000% | 1.125% |
|  | 2.000% | 1.000% | 2.000% | 2.250% |

If probable, reasonable changes in each of the significant actuarial assumptions occur and all other assumptions remain constant, the present value of the defined benefit obligation will increase (decrease) as follows:

|   | FEDS                     | AIMAI                  | YTDS               | SOGO                                    |
|---|--------------------------|------------------------|--------------------|---|
| <u>December 31, 2019</u>  |                          |                        |                    |   |
| Discount rate(s) 0.25% increase 0.25% decrease                    | \$ (17,601)<br>\$ 18,275 | \$ (7,310)<br>\$ 7,611 | \$ (243)<br>\$ 252 | \$ (19,059)<br>\$ 19,838                |
| Expected rate(s) of salary increase 0.25% increase 0.25% decrease | \$ 17,730<br>\$ (17,168) | \$ 7,451<br>\$ (7,192) | \$ 245<br>\$ (237) | \$ 19,201<br>\$ (18,549)<br>(Continued) |

|   | FEDS                     | AIMAI                  | YTDS               | SOGO                                    |
|---|--------------------------|------------------------|--------------------|---|
| <u>December 31, 2018</u>  |                          |                        |                    |   |
| Discount rate(s) 0.25% increase 0.25% decrease                    | \$ (17,528)<br>\$ 18,207 | \$ (7,501)<br>\$ 7,812 | \$ (267)<br>\$ 277 | \$ (18,730)<br>\$ 19,512                |
| Expected rate(s) of salary increase 0.25% increase 0.25% decrease | \$ 17,728<br>\$ (17,156) | \$ 7,675<br>\$ (7,406) | \$ 270<br>\$ (261) | \$ 18,956<br>\$ (18,294)<br>(Concluded) |

The sensitivity analysis presented above may not be representative of the actual change in the present value of the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

## 24. EQUITY

## a. Share capital

## Ordinary shares

|   | December 31          |                      |
|---|----------------------|----------------------|
|   | 2019                 | 2018                 |
| Shares authorized (in thousands of shares)            | 1,750,000            | 1,750,000            |
| Shares authorized                                     | <u>\$ 17,500,000</u> | <u>\$ 17,500,000</u> |
| Shares issued and fully paid (in thousands of shares) | <u>1,416,941</u>     | <u>1,416,941</u>     |
| Shares issued   | <u>\$ 14,169,406</u> | <u>\$ 14,169,406</u> |

Fully paid ordinary shares, which have a par value of \$10, are entitled to one vote and a right to receive dividends per share.

#### b. Capital surplus

|   | December 31                         |                           |
|---|-------------------------------------|---------------------------|
|   | 2019                                | 2018                      |
| May be used to offset a deficit, distributed as cash dividends, or transferred to share capital (Note)                      |                                     |                           |
| Issuance in excess of ordinary shares Treasury share transactions Changes in percentage of ownership interest in associates | \$ 2,142,074<br>1,173,346<br>12,046 | \$ 2,142,074<br>1,173,346 |
|   | \$ 3,327,466                        | \$ 3,315,420              |

Note: Such capital surplus may be used to offset a deficit; in addition, when the Company has no deficit, such capital surplus may be distributed as cash dividends or transferred to share capital (limited to a certain percentage of the Company's capital surplus and once a year ).

#### c. Retained earnings and dividend policy

According to the Company's Articles of Incorporation, net income should be used to pay its business income tax and offset deficits. From any remaining net income, 10% will be appropriated as a legal reserve, and a special reserve as required by government regulations. After adding prior years' unappropriated earnings, the Company could retain a certain amount for expansion plans and then make the appropriation equally to each shareholder. However, if there is an increase in capital during the year, bonuses appropriated to new shareholders should be allocated based on the resolution passed in the shareholders' meeting. For information about the policies of employees' compensation and remuneration of directors prior to and after the amendments to the Company's Articles of Incorporation, refer to Note 26.

The Company's distribution of dividends would be in consideration of on economic conditions, tax obligations, and operating requirements for cash. For an orderly system of dividend distribution, the dividends are distributed in accordance with the Articles of Incorporation. In addition, improvements of the financial structure and support for investment, capacity expansion or other major capital expenditures are needed. The cash dividends to be distributed should not be below 50% than the current year's post-tax net profit deduction, offsetting losses of previous years, the statutory surplus reserve and the special surplus reserve, except for the improvement of financial structure and the transfer of funds, capacity expansion or other major capital expenditures. The cash dividends to be distributed should not be below 10% of the total cash and share dividends for the current accounting year.

Appropriation of earnings to legal reserve shall be made until the legal reserve equals the Company's paid-in capital. Legal reserve may be used to offset deficit. If the Company has no deficit and the legal reserve has exceeded 25% of the Company's paid-in capital, the excess may be transferred to capital or distributed in cash.

Under Order No. 1010012865, Order No. 1010047490 and Order No. 1030006415 issued by the FSC and the directive titled Questions and Answers for Special Reserves Appropriated Following Adoption of IFRSs, the Company should appropriate or reverse to a special reserve.

The appropriations of earnings for 2018 and 2017, which were approved in the shareholders' meetings on June 25, 2019 and June 21, 2018, respectively, are as follows:

|                            | For the Year Ended December 31 |                     |
|----------------------------|--------------------------------|---------------------|
|                            | 2018                           | 2017                |
| Legal reserve              | \$ 131,81 <u>5</u>             | \$ 153,599          |
| Special reserve            | <u>\$ 73,330</u>               | <u>\$ 12,543</u>    |
| Cash dividends             | <u>\$ 1,204,400</u>            | <u>\$ 1,416,940</u> |
| Dividends per share (NT\$) | \$ 0.85                        | \$ 1.00             |

The appropriation of the earnings for 2019 was proposed by the board of directors on March 27, 2020. The appropriations and dividends per share are as follows:

|                            | For the Year<br>Ended<br>December 31,<br>2019 |
|----------------------------|---|
| Legal reserve              | <u>\$ 125,920</u>                             |
| Special reserve            | <u>\$ (156,088)</u>                           |
| Cash dividends             | <u>\$ 1,133,552</u>                           |
| Dividends per share (NT\$) | \$ 0.80                                       |

The appropriation of earnings for 2019 was resolved in the shareholders' meeting held on June 24, 2020.

#### d. Special reserve

|   | For the Year Ended December 31 |              |
|---|--------------------------------|--------------|
|   | 2019                           | 2018         |
| Beginning at January 1 Appropriation in respect of                                      | \$ 2,656,286                   | \$ 2,643,743 |
| Initial application of IFRS 16 Net increases in the fair value of investment properties | 135,735<br>73,330              | 12,543       |
| Balance at December 31  | \$ 2,865,351                   | \$ 2,656,286 |

On the initial application of the fair value model to investment properties and on the initial application of IFRS 16, property leasehold interests which were previously accounted for as operating leases under IAS 17 are recognized as investment properties and measured at fair value, the Company appropriated for a special reserve at an amount equal to the net increase arising from fair value measurement and which was subsequently transferred to retained earnings. The additional special reserve should be appropriated for subsequent net increases in fair value. The amount appropriated may be reversed to the extent that the cumulative net increases in fair value decrease or on the disposal of investment properties. If investment properties were reclassified to property, plant and equipment, the associated special reserve would be reversed in accordance to the subsequent depreciation expense of property, plant and equipment.

## e. Other equity items

## 1) Exchange differences on translating the financial statements of foreign operations

|   | For the Year Ended December 31 |                     |
|---|--------------------------------|---------------------|
|   | 2019                           | 2018                |
| Balance at January 1 Exchange differences on translating the financial statements | \$ 90,654                      | \$ 86,048           |
| of foreign operations Share from associates accounted for using the equity method | 35,266<br>(60,595)             | 3,779<br><u>827</u> |
| Balance, at December 31   | \$ 65,325                      | <u>\$ 90,654</u>    |

Translation adjustments arising from net assets of foreign operations that translated from the functional currency to New Taiwan dollars were recognized as other comprehensive incomes of exchange differences on translating foreign operations.

## 2) Unrealized gain (loss) on financial assets at FVTOCI

| Adjustments relating to changes of associates accounted for     |                                |                     |
| using the equity method   |                                | (625)               |
| Balance, at December 31   | <u>\$ 8,113,401</u>            | <u>\$ 8,166,484</u> |

#### g. Treasury shares

The shares that the subsidiaries held were acquired before the Company Act was amended in 2001. The Company's shares held by its subsidiaries at the end of the reporting period are as follows:

#### December 31, 2019

| Name of Subsidiary       | Number of<br>Shares Held<br>(In Thousands<br>of Shares) | Carrying<br>Amount | Market Price      |
|--------------------------|---|--------------------|-------------------|
| Bai Ding Investment      | 8,207   | \$ 97,110          | <u>\$ 213,771</u> |
| <u>December 31, 2018</u> |   |                    |                   |
| Name of Subsidiary       | Number of<br>Shares Held<br>(In Thousands<br>of Shares) | Carrying<br>Amount | Market Price      |
| Bai Ding Investment      | 8,207   | <u>\$ 97,110</u>   | <u>\$ 128,837</u> |

Under the Securities and Exchange Act, the Company shall neither pledge treasury shares nor exercise shareholders' rights on these shares, such as the rights to dividends and to vote. The subsidiaries holding treasury shares, however, retain shareholders' rights, except the rights to participate in any share issuances for cash and to vote.

## 25. REVENUE

|   | For the Year Ended December 31 |                      |
|---|--------------------------------|----------------------|
|   | 2019                           | 2018                 |
|   | Ф. 22 704 027                  | Φ 22.704.052         |
| Sales of goods (Note)                                       | \$ 22,794,827                  | \$ 23,704,953        |

|                           | Cash                           | Cash             |  |  |
| Employees' compensation   | \$ 74,392                      | \$ 55,384        |  |  |
| Remuneration of directors | 55,794                         | 41,538           |  |  |

If there is a change in the amounts after the annual consolidated financial statements are authorized for issue, the differences are recorded as a change in the accounting estimate.

There was no difference between the actual amounts of employees' compensation and remuneration of directors paid and the amounts recognized in the consolidated financial statements for the year ended December 31, 2018 and 2017.

Information on the employees' compensation and remuneration of directors resolved by the Company's board of directors in 2019 and 2018 is available at the Market Observation Post System website of the Taiwan Stock Exchange.

#### 27. INCOME TAX

a. Income tax recognized in profit or loss

Major components of income tax expense (benefit) are as follows:

|  | For the Year Ended December 31 |                   |  |  |
|--|--------------------------------|-------------------|--|--|
|  | 2019                           | 2018              |  |  |
| Current tax  |                                |                   |  |  |
| In respect of the current year                                   | \$ 769,421                     | \$ 728,346        |  |  |
| Income tax on unappropriated earnings                            | 442                            | -                 |  |  |
| Adjustments for the prior years                                  | (38,818)                       | (241)             |  |  |
|  | 731,045                        | 728,105           |  |  |
| Deferred tax   |                                |                   |  |  |
| In respect of the current year                                   | 195,609                        | 35,200            |  |  |
| Effect of tax rate changes                                       | -                              | 85,957            |  |  |
| Adjustments to deferred tax attributable to changes in tax rates |                                |                   |  |  |
| and laws   | 25,570                         | 48,101            |  |  |
| Adjustments for the prior years                                  | (1,555)                        | 1,257             |  |  |
|  | 219,624                        | 170,515           |  |  |
| Income tax expense recognized in profit or loss                  | <u>\$ 950,669</u>              | <u>\$ 898,620</u> |  |  |

A reconciliation of accounting profit and income tax expenses are as follows:

|  | For the Year Ended December 3 |                   |  |  |  |
|--|-------------------------------|-------------------|--|--|--|
|  | 2019                          | 2018              |  |  |  |
| Profit before income tax from continuing operations  | \$ 3,102,938                  | \$ 2,549,115      |  |  |  |
| Income tax expense calculated at the statutory rate  | \$ 883,130                    | \$ 690,816        |  |  |  |
| Nondeductible expenses in determining taxable income | 17,516                        | 21,312            |  |  |  |
| Deferred tax effect of earnings of subsidiaries      | 40,032                        | (230,173)         |  |  |  |
| Tax-exempt income                                    | (73,524)                      | (53,307)          |  |  |  |
| Income tax on unappropriated earnings                | 442                           | -                 |  |  |  |
| Land value increment tax                             | (9,238)                       | (23,303)          |  |  |  |
| Unrecognized loss carryforwards                      | 138,127                       | 383,187           |  |  |  |
| Unrecognized deductible temporary differences        | (12,783)                      | 7,595             |  |  |  |
| Effect of tax rate changes                           | -                             | 85,957            |  |  |  |
| Adjustments for prior years' income tax              | (40,373)                      | 1,016             |  |  |  |
| Others   | 7,340                         | 15,520            |  |  |  |
| Income tax expense recognized in profit or loss      | <u>\$ 950,669</u>             | <u>\$ 898,620</u> |  |  |  |

The Income Tax Act in the ROC was amended in 2018, and the corporate income tax rate was adjusted from 17% to 20%. In addition, the rate of the corporate surtax applicable to the 2018 unappropriated earnings was reduced from 10% to 5%. The applicable tax rate used by the subsidiaries in China is 25%. Tax rates used by other groups operating in other jurisdictions are based on the tax laws in those jurisdictions.

# b. Income tax recognized in other comprehensive income

|  | For the Year Ended December 31 |           |  |  |
|--|--------------------------------|-----------|--|--|
|  | 2019                           | 2018      |  |  |
| Deferred tax                           |                                |           |  |  |
| In respect of the current year         |                                |           |  |  |
| Remeasurement on defined benefit plans | \$ (46,260)                    | \$ 10,113 |  |  |
| Effect of tax rate changes             |                                | 13,253    |  |  |
|  | <u>\$ (46,260)</u>             | \$ 23,366 |  |  |

## c. Current tax assets and liabilities

|   | December 31                                 |                               |  |  |
|---|---|-------------------------------|--|--|
|   | 2019  | 2018                          |  |  |
| Current tax assets Tax refund receivable Benefits of tax losses to be carried back to recover taxes paid in prior periods | \$ 10,291<br><u>521</u><br><u>\$ 10,812</u> | \$ 3,025<br>2,630<br>\$ 5,655 |  |  |
| Current tax liabilities Income tax payable  | <u>\$ 772,780</u>                           | \$ 609,796                    |  |  |

## d. Deferred tax assets and liabilities

The movements of deferred tax assets and deferred tax liabilities are as follows:

# For the year ended December 31, 2019

## g. Income tax assessments

Income tax returns for the Group's entities in ROC have been assessed by the tax authorities through 2017.

#### 28. EARNINGS PER SHARE

**Unit: NT\$ Per Share** 

|   | For the Year End   | ded December 31    |
|---|--------------------|--------------------|
|   | 2019               | 2018               |
| Basic earnings per share Diluted earnings per share | \$ 1.26<br>\$ 1.26 | \$ 0.94<br>\$ 0.93 |

Earnings and weighted average number of ordinary shares outstanding used for the computation of earnings per share are as follows:

## Net profit for the year

|   | For the Year Ended December 31 |                     |  |  |
|---|--------------------------------|---------------------|--|--|
|   | 2019                           | 2018                |  |  |
| Profit for the year attributable to owners of the Company Effect of potentially dilutive ordinary shares: | \$ 1,781,843                   | \$ 1,318,150        |  |  |
| Employees' compensation   | <del>_</del>                   | <del></del>         |  |  |
| Earnings used in the computation of diluted earnings per share  | <u>\$ 1,781,843</u>            | <u>\$ 1,318,150</u> |  |  |

#### Shares

(In Thousands of Shares)

|  | For the Year Ended December 31 |           |  |
|--|--------------------------------|-----------|--|
|  | 2019                           | 2018      |  |
| Weighted average number of ordinary shares outstanding used in the |                                |           |  |
| computation of basic earnings per share                            | 1,408,734                      | 1,408,734 |  |
| Effect of potentially dilutive ordinary shares:                    |                                |           |  |
| Employees' compensation  | 4,031                          | 4,931     |  |
| Weighted average number of ordinary shares outstanding used in the |                                |           |  |
| computation of dilutive earnings per share                         | 1,412,765                      | 1,413,665 |  |

If the Group offered to settle the compensation or bonuses paid to employees in cash or shares, the Group assumed the entire amount of the compensation or bonus will be settled in shares and the resulting potential shares were included in the weighted average number of shares outstanding used in the computation of diluted earnings per share, if the effect is dilutive. Such dilutive effect of the potential shares was included in the computation of diluted earnings per share until the number of shares to be distributed to employees is resolved in their meeting in the following year.

## 29. CASH FLOW INFORMATION

#### a. Non-cash transactions

For the years ended December 31, 2019 and 2018, the Group entered into the following non-cash investing activities which were not reflected in the consolidated statements of cash flows:

The Group reclassified prepayments for equipment of \$127,464 thousand and \$127,640 thousand, respectively, as property, plant and equipment (see Note 14).

#### b. Changes in liabilities arising from financing activities

#### For the year ended December 31, 2019

#### 30. CAPITAL MANAGEMENT

Under its operating development schemes and related government rules, the Group manages its capital to ensure it can continue to operate as a going concern while maximizing the return to shareholders through the optimization of the debt and equity balance.

The capital structure of the Group consists of net debt (borrowings offset by cash and cash equivalents) and equity of the Group (comprising share capital, capital surplus, retained earnings and other equity). The Group's capital management concerns the capital expenditures for capital structure and relative risks to ensure the optimal capital structure; the Group may adjust the amount of dividends paid to shareholders, the number of new shares issued and the proceeds from borrowings and repayments of borrowings, in order to balance the overall capital structure.

#### 31. FINANCIAL INSTRUMENTS

a. Fair value information - financial instruments not measured at fair value

The financial instruments not measured at fair value are either those with due dates in the near future or those with a future collection value which approximately equals its carrying amount. Thus, the fair value of these financial instruments are estimated at their carrying amounts on the financial reporting date.

## b. Fair value information - financial instruments measured at fair value on a recurring basis

## 1) Fair value hierarchy

## December 31, 2019

There were no transfers between Level 1 and 2 in both 2019 and 2018.

## 2) Reconciliation of Level 3 fair value measurements of financial instruments

## For the year ended December 31, 2019

| Financial Assets  | Investment in<br>Equity<br>Instruments at<br>FVTOCI |
|---|---|
| Balance at January 1, 2019  | \$ 573,146  |
| Recognized in profit or loss (included in other gains and losses)  Recognized in other comprehensive income (included in unrealized valuation | (87)  |
| gain/(loss) on financial assets at FVTOCI)  | 18,224  |
| Balance at December 31, 2019  | \$ 591,283  |

#### For the year ended December 31, 2018

| Financial Assets  | Investment in<br>Equity<br>Instruments at<br>FVTOCI |
|---|---|
| Balance at January 1, 2018  | \$ -  |
| Adjustments on initial application of IFRS 9  | 492,191   |
| Balance at January 1, 2018 (restated)   | 492,191   |
| Recognized in other comprehensive income (included in unrealized valuation gain/(loss) on financial assets at FVTOCI) | 80,955  |
| Balance at December 31, 2018  | \$ 573,146  |

3) Valuation techniques and inputs applied for Level 3 fair value measurement

# Transaction method of market approach. The approach is a valuation strategy that looks at market ratios of companies with similar profitability at the end of the reporting period,

while taking the liquidity premium into consideration.

#### c. Categories of financial instruments

|  | December 31 |            |  |  |  |
|--|-------------|------------|--|--|--|
|  | 2019        | 2018       |  |  |  |
| <u>Financial assets</u>                |             |            |  |  |  |
| FVTPL                                  |             |            |  |  |  |
| Mandatorily classified as at FVTPL     | \$ 457,256  | \$ 437,747 |  |  |  |
| Financial assets at amortized cost (1) | 18,170,249  | 22,215,229 |  |  |  |
| FVTOCI                                 |             |            |  |  |  |
| Equity instruments                     | 5,328,020   | 4,204,799  |  |  |  |
| Financial liabilities                  |             |            |  |  |  |
| Amortized cost (2)                     | 50,412,783  | 53,293,190 |  |  |  |

- 1) The balances included the carrying amount of cash and cash equivalents, notes receivable and trade receivables (including related parties), other receivables and refundable deposits, which are measured at amortized cost.
- 2) The balances included the carrying amount of short-term borrowings, short-term bills payable, notes payable and trade payables (including related parties), other payables, long-term borrowings including the current portion and deposits received, which are measured at amortized cost.

#### d. Financial risk management objectives and policies

The Group's major financial instruments include equity instruments, trade receivables, trade payables and borrowings. The Group's financial risk management pertains to the management of operations-related market risks (including exchange rate risk, interest rate and other price risks), credit risks and liquidity risks. To reduce financial risk, the Group is committed to identifying, assessing and avoiding the market uncertainties and reducing negative effects of these market changes on the Group's financial performance.

The main financial activities of the Group are governed by the Group's internal management and approved by the board of directors. The financial schemes, which include fund raising plans should be carried out in compliance with the Group's policies.

#### 1) Market risk

#### a) Exchange rate risk

The Group was exposed to exchange rate risk for holding assets and liabilities denominated in foreign currencies.

The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities (including those eliminated on consolidation) at the end of the reporting period are as follows:

In Thousands of U.S. Dollars

|                    | Decem            | ber 31          |
|--------------------|------------------|-----------------|
|                    | 2019             | 2018            |
| <u>Assets</u>      |                  |                 |
| USD                | <u>\$ 14,409</u> | \$ 29,879       |
| <u>Liabilities</u> |                  |                 |
| USD                | <u>\$ 3,900</u>  | <u>\$ 3,968</u> |

#### Sensitivity analysis

The Group was mainly affected by the floating exchange rates of USD denominated assets and liabilities. The sensitivity analyses below were determined based on the Group's exposure to exchange rates for non-derivative instruments at the end of the reporting period. The change of exchange rates reported to the senior management of the Group was based on a 1% increase or decrease in exchange rate which also denotes the management's assessment for the reasonableness of the fluctuation of exchange rates.

If exchange rates had been 1% higher or lower and all other variables were held constant, the profit before income tax or equity of the Group for 2019 and 2018 would increase/decrease by \$3,151 thousand and \$7,958 thousand, respectively,

#### b) Interest rate risk

The Group was exposed to interest rate risk because the entities in the Group borrowed funds at both fixed and floating interest rates. The risk is managed by the Group by maintaining an appropriate mix of fixed and floating rate borrowings.

The carrying amounts of the Group's financial assets and financial liabilities with exposure to interest rates at the end of the reporting period are as follows:

|                               | Dec          | December 31     |  |  |  |
|-------------------------------|--------------|-----------------|--|--|--|
|                               | 2019         |                 |  |  |  |
| Fair value interest rate risk |              |                 |  |  |  |
| Financial assets              | \$ 10,503,16 | 8 \$ 10,740,306 |  |  |  |
| Financial liabilities         | 31,388,61    | 5 9,476,066     |  |  |  |
| Cash flow interest rate risk  |              |                 |  |  |  |
| Financial assets              | 2,662,90     | 5 2,026,821     |  |  |  |
| Financial liabilities         | 28,192,55    | 3 22,051,911    |  |  |  |

#### Sensitivity analysis

The sensitivity analyses below were determined based on the Group's exposure to interest rates for financial assets and financial liabilities at the end of the reporting period. For sensitivity analysis purposes, the sensitivity rate was adjusted as a result of the volatile financial markets. The measurement of the increase or decrease in the interest rates is based on 100 basis points, which is reported to the senior management denoting the management's assessment for the reasonableness of the fluctuation of the interest rates.

If interest rates had been 100 basis points higher or lower and all other variables had been held constant, the income before income taxes for the years ended December 31, 2019 and 2018 would have decreased/increased by \$255,296 thousand and \$200,251 thousand, respectively.

#### c) Other price risks

The Group was exposed to equity price risks involving equity investments in listed companies and beneficial certificates. The Group's investments in listed companies and beneficial certificates should be in compliance with the rule made by the board of directors in order to achieve the goal of risk management and maximize the returns on investments.

#### Sensitivity analysis

The sensitivity analyses below were determined based on the exposure to equity price risks at the end of the reporting period. For sensitivity analysis purposes, the sensitivity rate was adjusted as a result of the volatile financial market.

If equity prices had been 5% higher or lower, the income before income tax for the years ended December 31, 2019 and 2018 would increase/decrease by \$22,863 thousand and \$21,887 thousand, respectively, as a result of the changes in fair value of held-for-trading investments. The pre-tax other comprehensive income for the years ended December 31, 2019 and 2018 would have increased/decreased by \$266,401 thousand and \$210,240 thousand, respectively, as a result of the changes in fair value of available-for-sale financial assets.

#### 2) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. At the end of the reporting period, the Group's credit risk was mainly from trade receivables in operating activities, bank deposits and financial instruments in financial activities.

To maintain the quality of trade receivables, the Group manages credit risk by assessing customers' credit elements, such as financial status, historical transactions, etc., and obtains an adequate amount of collaterals as guarantees from the customers with high credit risk. In addition, the Group reviews the recoverable amount of each trade debt at the end of the reporting period to ensure that adequate allowances are made for irrecoverable amounts. On the credit risk management of bank deposits and other financial instruments, the Group trades with the counterparties comprising banks with high credit ratings.

#### 3) Liquidity risk

Liquidity risk is a risk in which the Group cannot pay cash or use other financial assets to settle the financial liabilities. The Group manages liquidity risk by monitoring and maintaining a level of cash and cash equivalents deemed adequate to finance the Group's operations and mitigate the effects of fluctuations in cash flows. In addition, management monitors the use of bank borrowings and ensures compliance with loan covenants and it will not damage to the Group's reputation.

On the demand for capital payments for a particular purpose, the Group maintains adequate cash by the way of the long-term finance/borrowings. For the management of cash shortage, the Group monitors cash management and allocates cash appropriately to maintain financial flexibility and ensure the mitigation of liquidity risk.

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The tables are drawn up based on the undiscounted cash flows of financial liabilities from the earliest date on which the Group may be required to pay. The tables include both interest and principal cash flows. Specifically, bank loans with a repayment on demand clause are included in the earliest time band regardless of the probability of the banks' choice to exercise their rights. The maturity dates for other non-derivative financial liabilities are based on the agreed repayment periods.

## m. Compensation of key management personnel

|   | For the Year Ended December 31 |                   |  |  |
|---|--------------------------------|-------------------|--|--|
|   | 2019                           | 2018              |  |  |
| Short-term employee benefits Post-employment benefits | \$ 139,920<br>523              | \$ 129,097<br>494 |  |  |
|   | <u>\$ 140,443</u>              | <u>\$ 129,591</u> |  |  |

The compensation to directors and other key management personnel were determined by the Compensation Committee of the Group in accordance with the individual performance and the market trends.

#### 33. ASSETS PLEDGED AS COLLATERAL OR FOR SECURITY

The following assets were provided as collateral for goods purchases, long/short-term borrowings, short-term bills payable and administrative proceedings:

|   | December 31 |            |      |            |
|---|-------------|------------|------|------------|
|   | 2019        |            | 2018 |            |
| Financial assets at amortized cost                | \$          | 199,000    | \$   | 280,400    |
| Investments accounted for using the equity method |             | 3,569,838  |      | 3,504,587  |
| Financial assets at FVTOCI                        |             | 2,375,340  |      | 1,783,290  |
| Property, plant and equipment                     | ]           | 17,213,913 |      | 17,400,626 |
| Investment properties                             |             | 624,887    |      | 682,999    |
|   | <u>\$ 2</u> | 23,982,978 | \$   | 23,651,902 |

#### 34. SIGNIFICANT CONTINGENT LIABILITIES AND UNRECOGNIZED COMMITMENTS

In addition to those disclosed in other notes, significant contingencies and unrecognized commitments of the Group as of December 31, 2019 and 2018 are as follows:

a. Significant unrecognized commitments

The amount of unrecognized commitments are as follows:

|  | December 31         |                         |  |  |
|--|---------------------|-------------------------|--|--|
|  | 2019                | 2018                    |  |  |
| Acquisition of property, plant and equipment<br>Jnused letters of credit for purchases | \$ 2,469,345        | \$ 3,592,586<br>500,000 |  |  |
|  | <u>\$ 2,469,345</u> | \$ 4,092,586            |  |  |

b. A letter from the Ministry of Economic Affairs (MOEA) on July 28, 2011 stated that the term of the board of directors and supervisors (the "Board") of SOGO was terminated, and the election of the Board should be held by October 28, 2011. On August 26, 2011, in the shareholders' meeting, Douglas Hsu, Ching-Wen Huang, Mao-De Huang, Hsiao-Yi Wang and Satoshi Inoue were elected to be the representatives of the Board and Jing-Yi Wang was elected as a supervisor. On September 2, 2011, the registration of the Board was submitted to the MOEA, and on August 30, 2013, the registration of the Board was approved and completed by the MOEA.

For the resolution passed in the shareholders' meeting, SOGO's shareholders filed an appeal for an invalid resolution and for the withdrawal of the resolution of the shareholders' meeting. As of March 17, 2017, many verdicts, including the Year 100 Letter Su No. 3965 verdict made by the TTDC, the Year 104 Letter Tsai Shang No. 90 verdict made by the Supreme Administrative Court (SAC), the Year 101 Letter Kun No. 1589 and No. 1681 verdicts made by the THC, and the Year 106 Letter Tsai Shang No. 86 verdict made by the SAC, confirmed that the shareholders' meeting was legal and rejected the appeal of the SOGO shareholders.

Also, Heng-Long Li filed an appeal against SOGO and PLTI, alleging that the decisions made in the SOGO shareholders' meeting on August 26, 2011 were invalid. After the TTDC rejected the appeal in the Year 103 Letter Shang No. 1014 verdict, the THC rejected the appeal once more.

Moreover, the former chairman of PLTI, Heng-Long Li, stated that he appointed Chun-Chih Weng, Chao-Chuan Chu, Shen-Yi Li, Jui-Tsun Liu and Yu-Ying Chin as members of the Board of SOGO to replace Ching-Wen Huang, Satoshi Inoue, Douglas Hsu, Hsiao-Yi Wang and Mao-De Huang. Furthermore, those individuals (Chun-Chih Weng, Chao-Chuan Chu, Shen-Yi Li, Jui-Tsun Liu and Yu-Ying Chin) elected Chun-Chih Weng as the chairman of PLTI and applied to the MOEA for the registration of a change of the Board and supervisor of SOGO on August 8, 2011. However, the application of the registration was rejected by the MOEA, due to the election being held by the former chairman of PLTI, Heng-Long Li. Chun-Chih Weng, Chao-Chuan Chu, Shen-Yi Li, Jui-Tsun Liu and Yu-Ying Chin not only announced publicly that they are the five members of the Board of SOGO but also that they held the SOGO shareholders' meetings on September 5, 2011 and September 6, 2011. However, the decisions made in these two shareholders' meetings on September 5, 2011 and September 6, 2011 were not approved and not consented to by all of SOGO's shareholders. According to the Year 100 Letter Su No. 4224 verdict from the TTDC on January 22, 2014, the TTDC declared that the decisions made in the shareholders' meeting on September 5, 2011 were not approved legally; according to the Year 100 Letter Su No. 4164 verdict on November 28, 2013, the TTDC confirmed that the decisions made in the shareholders' meeting on September 6, 2011 were not approved legally. The THC passed the Year 103 Letter Shang No. 330 verdict on May 31, 2016 rejecting the appeal and confirmed that the resolutions of the shareholders' meeting on September 5, 2011 were not approved legally. Chun-Chih Weng filed an appeal against the judgments. Under Court Reference Year 107 Letter Tai Shang No. 965 verdict, issued by the Taiwan Supreme Court on December 6, 2018, the Court rejected Chun-Chih Weng's appeals and confirmed that the resolutions of the shareholders' meeting on September 5, 2011 were not approved legally. In the Year 103 Letter Shang No. 87 verdict from the THC on August 17, 2016, the THC rejected the appeal and confirmed that the decisions made in the shareholders' meeting on September 6, 2011 were not approved legally. Chun-Chih Weng filed an appeal against the judgments. Under Court Reference Year 107 Letter Tai Shang No. 1591 verdict, issued by the Taiwan Supreme Court on December 13, 2018, the Court rejected Chun-Chih Weng's appeals and confirmed that the resolutions of the shareholders' meeting on September 5, 2011 were not approved legally.

c. Pacific Department Store asserted that SOGO injured the trademark, and raised an appeal to the president Qing-Wen Huang and the general manager Ding-Song WanGuo of SOGO for violation of the trademark law. After being sued by the TTDC (Year 106 Annual detective No. 2264) on November 27, 2017. Under Court Reference Year 106 Zhi Yi Zi Note 70 verdict, issued by the TTDC on December 28, 2018, the Court made the judgment that Qing-Wen Huang and Ding-Song WanGuo were innocent of the filed criminal charges. Taiwan Taipei District Prosecutor's Office appealed to Intellectual Property Court on January 23, 2019. SOGO received a complaint proposed by the Pacific Department Store in January. In the complaint, the president Qing-Wen Huang and the general manager Ding-Song WanGuo were asked to compensate an amount of \$72,226,923 thousand, and also to post the judgment on the front pages of several newspapers for 30 days. Pacific Department Store withdrew the criminal case and the criminal case supplementary civil action in April 2019.

#### 35. SIGNIFICANT EVENTS AFTER THE REPORTING PERIOD

- a. In response to the outbreak of 2019 novel coronavirus (COVID-19) in early 2020, the government of the Republic of China took preventive measures and other countries imposed travel restrictions to curb the spread of the epidemic. The Group had to cooperate with local authorities by suspending its stores' operation in Chongqing, China in February 2020. After the assessment and approval by the government of the Republic of China on the COVID-19, most stores resumed operation in March 2020, except catering.
- b. AIMAI signed a lease contract with FECC for hypermarket, retail and other businesses, and the lease term is 20 years which was approved by the board of directors on March 26, 2020.

### 36. SIGNIFICANT ASSETS AND LIABILITIES DENOMINATED IN FOREIGN CURRENCIES

The following information was aggregated by the foreign currencies other than functional currencies of the Group and the exchange rates between foreign currencies and respective functional currencies are disclosed. The significant assets and liabilities denominated in foreign currencies are as follows:

### December 31, 2019

### 37. SEPARATELY DISCLOSED ITEMS

- a. Information about significant transactions and investees:
  - 1) Financing provided to others (Table 2)
  - 2) Endorsements/guarantees provided (Table 3)
  - 3) Marketable securities held (excluding investments in subsidiaries, associates and joint ventures) (Table 4)
  - 4) Marketable securities acquired or disposed of at costs or prices of at least NT\$300 million or 20% of the paid-in capital (Table 5)
  - 5) Acquisition of individual real estate at costs of at least NT\$300 million or 20% of the paid-in capital (None)

- 6) Disposal of individual real estate at prices of at least NT\$300 million or 20% of the paid-in capital (None)
- 7) Total purchases from or sales to related parties amounting to at least NT\$100 million or 20% of the paid-in capital (None)
- 8) Receivables from related parties amounting to at least NT\$100 million or 20% of the paid-in capital (Table 6)
- 9) Trading in derivative instruments (None)
- 10) Intercompany relationships and significant intercompany transactions (Table 7)
- 11) Information on investees (Table 8)
- b. Information on investments in mainland China
  - 1) Information on any investee company in mainland China, showing the name, principal business activities, paid-in capital, method of investment, inward and outward remittance of funds, ownership percentage, net income of investees, investment income or loss, carrying amount of the investment at the end of the year, repatriations of investment income, and limit on the amount of investment in the mainland China area (Table 9)
  - 2) Any of the following significant transactions with investee companies in mainland China, either directly or indirectly through a third party, and their prices, payment terms, and unrealized gains or losses:
    - a) The amount and percentage of purchases and the balance and percentage of the related payables at the end of the year (None)
    - b) The amount and percentage of sales and the balance and percentage of the related receivables at the end of the year (None)
    - c) The amount of property transactions and the amount of the resultant gains or losses (None)
    - d) The balance of negotiable instrument endorsements or guarantees or pledges of collateral at the end of the year and the purposes (Table 3)
    - e) The highest balance, the ending balance, the interest rate range, and total current period interest with respect to the financing of funds (Table 2)
    - f) Other transactions that have a material effect on the profit or loss for the year or on the financial position, such as the rendering or receipt of services (None)

### 38. SEGMENT INFORMATION

The Group belongs to a single industry of department stores and supermarkets. Information reported to the chief operating decision maker for the purposes of resource allocation and assessment of segment performance focuses on geographical information as management structure. The Group's reportable segments under IFRS 8 "Operating Segments" includes ROC and China.

- 1. The Company made the investment directly.
- 2. The Company made the investment through a company registered in a third region. The companies registered in a third region were FEDS Development Ltd. and Pacific China Holdings Ltd.
- 3. Others.

### **6. 2019 FINANCIAL REPORT (STAND-ALONE)**

### INDEPENDENT AUDITORS' REPORT

The Board of Directors and Shareholders Far Eastern Department Stores, Ltd.

### **Opinion**

We have audited the accompanying financial statements of Far Eastern Department Stores, Ltd. (the "Company"), which comprise the balance sheets as of December 31, 2019 and 2018, and the statements of comprehensive income, changes in equity and cash flows for the years then ended, and the notes to the financial statements, including a summary of significant accounting policies (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2019 and 2018, and its financial performance and its cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

### **Basis for Opinion**

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with The Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements for the year ended December 31, 2019. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

The key audit matters identified in the Company's financial statements for the year ended December 31, 2019 are stated as follows:

### Evaluation of Impairment Loss of Goodwill on Investments in Subsidiaries

The carrying amounts of investments in the Company's subsidiaries include goodwill, which was acquired through indirect investment on Pacific Liu Tong Investment Co. Ltd. for its operating segments in mainland China. Under IAS 36, the management of the Company performs impairment annually. When testing goodwill for impairment, the management should evaluate whether the recoverable amount is higher than the carrying amount. In determining the recoverable amount, management should estimate the future cash flows from operating segments in mainland

China and determine the optimal discount rate. Significant assumptions involve both judgments made by management and material estimation uncertainty. Thus, the evaluation of impairment loss of goodwill in subsidiaries is considered a key audit matter. For the accounting policy related to investments in subsidiaries, refer to Notes 4(f) and 5(a) to the accompanying financial statements in which goodwill impairment of investments in subsidiaries is included.

The key audit procedures that we performed in respect of the impairment loss of goodwill are as follows:

- 1. We evaluated the expertise, competency and independence of external valuation specialists mandated by management. We verified the qualification of valuation specialists to ensure their objectivity and assignment were not influenced or restricted and we verified the methodology conducted conform to regulations.
- 2. We understood the process of management's estimation of the future sales growth rate and profit margin predicted by the operating segments in mainland China.
- 3. As a consideration for the assessment reliability for year 2020 and succeeding years, we compared the 2019 budget and the actual operating results of the operating segments in mainland China and evaluated the accuracy of management's historical forecast.
- 4. We confirmed the appropriateness of the discount rate used by management to assess goodwill impairment by using the same evaluation model to calculate the weighted average cost of capital ratio and whether the weighted average cost of capital used by management was significantly different.

### Fair Value Evaluation of Investment Properties

As of December 31, 2019, the carrying amount of investment properties of NT\$8,997,056 thousand, accounting for 11% of the total assets, is material to the financial statements. The Company's investment properties are subsequently measured using the fair value model. In the process of fair value assessment, valuation technique and inputs require consideration of the future scheme of investment properties to estimate the discounted fair value of future cash flows. Future cash flows are extrapolated using the existing lease contracts of the Company and market rentals.

Since cash flow forecasts are subject to economic conditions, which have a high level of measurement uncertainty, we have resultantly identified the fair value evaluation of investment properties as a key audit matter. Please refer to Notes 4(i), 5(b) and 14 to the accompanying financial statements for the relevant detailed information.

The key audit procedures that we performed in respect of the fair value of investment properties are as follows:

- 1. We evaluated the expertise, competency and independence of external valuation specialists mandated by management. We verified the qualification of valuation specialists to ensure that their objectivity and assignment were not influenced or restricted and we verified the methodology conducted conform to regulations
- 2. We reviewed significant lease contracts to ensure the accuracy of fundamental information for cash flow forecasts.
- 3. We assessed the reasonableness of the valuer's assumptions and methods used in the valuation.

### Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including the audit committee, are responsible for overseeing the Company's financial reporting process.

### Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the auditing standards generally accepted in the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the auditing standards generally accepted in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- 1. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- 5. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 6. Obtain sufficient and appropriate audit evidence regarding the financial information of entities or business activities within the Company to express an opinion on the financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements for the year ended December 31, 2019 and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Shu-Chuan Yeh and Ming-Hsing Cho.

Deloitte & Touche Taipei, Taiwan Republic of China

### NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2019 AND 2018 (In Thousands of New Taiwan Dollars, Unless Stated Otherwise)

### 1. GENERAL INFORMATION

Far Eastern Department Stores, Ltd. (the "Company" or "FEDS") was incorporated in the Republic of China (ROC) in August 31, 1967 and operates a nationwide chain of department stores. The Company's shares have been listed on the Taiwan Stock Exchange since October 11, 1978.

The financial statements are presented in the Company's functional currency, the New Taiwan dollar.

### 2. APPROVAL OF FINANCIAL STATEMENTS

The financial statements were approved by the board of directors on March 27, 2020.

### 3. APPLICATION OF NEW, AMENDED AND REVISED STANDARDS AND INTERPRETATIONS

a. Initial application of the amendments to the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards (IFRS), International Accounting Standards (IAS), IFRIC Interpretations (IFRIC), and SIC Interpretations (SIC) (collectively, the "IFRSs") endorsed and issued into effect by the Financial Supervisory Commission (FSC)

Except for the following, the initial application of the amendments to the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the IFRSs endorsed and issued into effect by the FSC did not have any material impact on the Company's accounting policies:

### 1) IFRS 16 "Leases"

IFRS 16 provides a comprehensive model for the identification of lease arrangements and their treatment in the financial statements of both lessee and lessor. It supersedes IAS 17 "Leases", IFRIC 4 "Determining whether an Arrangement contains a Lease", and a number of related interpretations. Refer to Note 4 for information relating to the relevant accounting policies.

### Definition of a lease

The Company elects to apply the guidance of IFRS 16 in determining whether contracts are, or contain, a lease only to contracts entered into (or changed) on or after January 1, 2019. Contracts identified as containing a lease under IAS 17 and IFRIC 4 are not reassessed and are accounted for in accordance with the transitional provisions under IFRS 16.

### The Company as lessee

The Company recognizes right-of-use assets, and lease liabilities for all leases on the balance sheets except for those whose payments under low-value asset and short-term leases are recognized as expenses on a straight-line basis. On the statements of comprehensive income, the Company presents the depreciation expense charged on right-of-use assets separately from the interest expense accrued on lease liabilities; interest is computed using the effective interest method. On the statements of cash flows, cash payments for the principal portion of lease liabilities are classified within financing activities; cash payments for the interest portion are classified within operating

activities. Prior to the application of IFRS 16, payments under operating lease contracts were recognized as expenses on a straight-line basis. Prepaid lease payments for land use rights were recognized as prepayments for leases. The difference between the actual payments and the expenses, as adjusted for lease incentives, was recognized as other payables and other non-current liabilities. Cash flows for operating leases were classified within operating activities on the statements of cash flows. Leased assets and finance lease payables were recognized on the balance sheets for contracts classified as finance leases.

The Company elects to apply IFRS 16 retrospectively with the cumulative effect of the initial application of this standard recognized in retained earnings on January 1, 2019. Comparative information is not restated

Lease liabilities were recognized on January 1, 2019 for leases previously classified as operating leases under IAS 17. Lease liabilities were measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate on January 1, 2019. Right-of-use assets are measured at an amount equal to the lease liabilities, adjusted by the amount of any prepaid or accrued lease payments. The Company applies IAS 36 to all right-of-use assets.

The Company also applies the following practical expedients:

- a) The Company accounts for those leases for which the lease term ends on or before December 31, 2019 as short-term leases.
- b) The Company excludes initial direct costs from the measurement of right-of-use assets on January 1, 2019.
- c) The Company uses hindsight, such as in determining lease terms, to measure lease liabilities.

For leases previously classified as finance leases under IAS 17, the carrying amounts of right-of-use assets and lease liabilities on January 1, 2019 are determined as at the carrying amounts of the respective leased assets and finance lease payables on December 31, 2018.

The lessee's weighted average incremental borrowing rate applied to lease liabilities recognized on January 1, 2019 is 1.69%. The difference between the (i) lease liabilities recognized and (ii) operating lease commitments disclosed under IAS 17 on December 31, 2018 is explained as follows:

| The future minimum lease payments of non-cancellable operating lease   |                      |
|--|----------------------|
| commitments on December 31, 2018   | \$ 15,761,932        |
| Less: Recognition exemption for short-term leases  | (1,430)              |
| Less: Commitment on lease contract before commencement date of the lease   | (2,847,900)          |
| Undiscounted amounts on January 1, 2019  | <u>\$ 12,912,602</u> |
| Discounted amounts using the incremental borrowing rate on January 1, 2019 Add (less): Adjustments as a result of a different treatment of extension and | \$ 10,984,436        |
| termination options  | 2,869,737            |
| Lease liabilities recognized on January 1, 2019  | \$ 13,854,173        |

### The Company as lessor

The Company does not make any adjustments for leases in which it is a lessor, and it accounts for those leases with the application of IFRS 16 starting from January 1, 2019.

The impact on assets, liabilities and equity as of January 1, 2019 from the initial application of IFRS 16 is set out as follows:

|  | As Originally<br>Stated on<br>January 1, 2019 | Adjustments<br>Arising from<br>Initial<br>Application | Restated on<br>January 1, 2019           |
|--|---|---|--|

| Total effect on assets   |   | <u>\$ 13,753,823</u>                                  |  |
| Lease liabilities - current<br>Other payables<br>Lease liabilities - non-current         | 1,284,856<br>-                                | \$ 847,462<br>(100,350)<br>13,006,711                 | 847,462<br>1,184,506<br>13,006,711       |
| Total effect on liabilities  |   | \$ 13,753,823   |  |

### 2) IFRIC 23 "Uncertainty over Income Tax Treatments"

IFRIC 23 clarifies that when there is uncertainty over income tax treatments, the Company should assume that the taxation authority has full knowledge of all related information when making related examinations. If the Company concludes that it is probable that the taxation authority will accept an uncertain tax treatment, the Company should determine the taxable profit, tax bases, unused tax losses, unused tax credits or tax rates consistently with the tax treatments used or planned to be used in its income tax filings. If it is not probable that the taxation authority will accept an uncertain tax treatment, the Company should make estimates using either the most likely amount or the expected value of the tax treatment, depending on which method the Company expects to better predict the resolution of the uncertainty. The Company has to reassess its judgments and estimates if facts and circumstances change.

### b. The IFRSs endorsed by the Financial Supervisory Commission (FSC) for application starting from 2020

| New IFRSs  | Effective Date Announced by IASB |  |
|--|----------------------------------|--|
| Amendments to IFRS 3 "Definition of a Business"                  | January 1, 2020 (Note 1)         |  |
| Amendments to IFRS 9, IAS 39 and IFRS 7 "Interest Rate Benchmark | January 1, 2020 (Note 2)         |  |
| Reform"  |                                  |  |
| Amendments to IAS 1 and IAS 8 "Definition of Material"           | January 1, 2020 (Note 3)         |  |

Note 1: The Company shall apply these amendments to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after January 1, 2020 and to asset acquisitions that occur on or after the beginning of that period.

Note 2: The Company shall apply these amendments retrospectively for annual reporting periods beginning on or after January 1, 2020.

Note 3: The Company shall apply these amendments prospectively for annual reporting periods beginning on or after January 1, 2020.

As of the date the financial statements were authorized for issue, the Company assesses the possible impacts that the application of the aforementioned amendments and the related amendments to the Regulations Governing the Preparation of Financial Reports by Securities Issuers will have on the Company's financial position and financial performance and will disclose these other impacts when the assessment is completed.

c. New IFRSs in issue but not yet endorsed and issued into effect by the FSC

| New IFRSs  | Effective Date Announced by IASB (Note) |  |
|--|---|--|
| Amendments to IFRS 10 and IAS 28 "Sale or Contribution of Assets between an Investor and its Associate or Joint Venture" | To be determined by IASB                |  |
| IFRS 17 "Insurance Contracts"  | January 1, 2021                         |  |
| Amendments to IAS 1 "Classification of Liabilities as Current or   | January 1, 2022                         |  |
| Non-current"   |   |  |

Note: Unless stated otherwise, the above New IFRSs are effective for annual reporting periods beginning on or after their respective effective dates.

As of the date the financial statements were authorized for issue, the Company is continuously assessing the possible impact that the application of other standards and interpretations will have on the Company's financial position and financial performance and will disclose the relevant impact when the assessment is completed.

### 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### a. Statement of compliance

The parent company only financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, (the "Regulations").

### b. Basis of preparation

The financial statements have been prepared on the historical cost basis except for financial instruments and investment properties which are measured at fair value, and net defined benefit liabilities which are measured at the present value of the defined benefit obligation less the fair value of the plan assets.

The fair value measurements, which are grouped into Levels 1 to 3 based on the degree to which the fair value measurement inputs are observable and based on the significance of the inputs to the fair value measurement in its entirety, are described as follows:

- 1) Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities;
- 2) Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for an asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and
- 3) Level 3 inputs are unobservable inputs for the asset or liability.

When preparing the Company's financial statements, the Company used the equity method to account for its investments in subsidiaries and associates. In order for the amounts of the net profit for the year, other comprehensive income for the year and total equity in the parent company only financial statements to be the same with the amounts attributable to the owner of the Company in its consolidated financial statements, adjustments arising from the differences in accounting treatment between the parent company only basis and consolidated basis were made to investments accounted for using the equity method, share of other comprehensive income of subsidiaries and associates accounted for using the equity method and related equity items, as appropriate, in the Company's financial statements.

### c. Classification of current and non-current assets and liabilities

### Current assets include:

- Assets held primarily for the purpose of trading;
- Assets expected to be realized within 12 months after the reporting period; and
- Cash and cash equivalents unless the asset is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period.

### Current liabilities include:

- Liabilities held primarily for the purpose of trading;
- Liabilities due to be settled within 12 months after the reporting period, even if an agreement to refinance, or to reschedule payments, on a long-term basis is completed after the reporting period and before the financial statements are authorized for issue; and
- Liabilities for which the Company does not have an unconditional right to defer settlement for at least 12 months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Assets and liabilities that are not classified as current are classified as non-current.

### d. Foreign currencies

In preparing the Company's financial statements, transactions in currencies other than Company's functional currency (i.e., foreign currencies) are recognized at the rates of exchange prevailing at the dates of the transactions.

At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Exchange differences on monetary items arising from settlement or translation are recognized in profit or loss in the period.

Non-monetary items that are measured at historical cost in a foreign currency are not retranslated.

For the purposes of presenting the Company's financial statements, the assets and liabilities of the Company's foreign operations (including the subsidiaries and associates in other countries or subsidiaries which use currencies that are different from the Company) are translated into New Taiwan dollars using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period. Exchange differences arising are recognized in other comprehensive income.

### e. Inventories

Inventories are stated at the lower cost or net realizable value, using the retail method. Inventories are recorded at the weighted-average cost on the balance sheet date. Net realizable value is the estimated selling price of inventories less all estimated costs of completion and costs necessary to make the sale.

### f. Investments in subsidiaries

The Company uses the equity method of accounting to recognize its investments in subsidiaries. A subsidiary is an entity that is controlled by the Company.

Under the equity method, an investment in a subsidiary is initially recognized at cost and is adjusted thereafter to recognize the Company's share of the profit or loss and other comprehensive income of the subsidiary. In addition, the Company recognizes the changes in the Company's share of equity of subsidiaries attributable to the Company.

Changes in the Company's ownership interests in subsidiaries that do not result in the Company losing control over the subsidiaries are accounted for as equity transactions. Any difference between the carrying amounts of the Company's interests and the fair value of the consideration paid or received is recognized directly in equity.

When the Company's share of losses of a subsidiary equals or exceeds its interest in that subsidiary (which includes any carrying amount of the investment in the subsidiary accounted for using the equity method and long-term interests that, in substance for part of the Company's net investment in the subsidiary), the proportionate share of losses is recognized.

Any excess of the cost of acquisition over the Company's share of the net fair value of the identifiable assets and liabilities of a subsidiary at the date of acquisition is recognized as goodwill, which is included within the carrying amount of the investment and is not amortized. Any excess of the Company's share of the fair value of the net identifiable assets and liabilities over the cost of the acquisition is recognized immediately in profit or loss.

The Company assesses its investment for any impairment by comparing the carrying amount with the estimated recoverable amount as assessed based on the investee's financial statements as a whole. Impairment loss is recognized when the carrying amount exceeds the recoverable amount. If the recoverable amount of the investment subsequently increases, the Company recognizes a reversal of the impairment loss; the adjusted post-reversal carrying amount should not exceed the carrying amount that would have been recognized (net of amortization or depreciation) had no impairment loss been recognized in prior years. An impairment loss recognized on goodwill cannot be reversed in a subsequent period.

When the Company loses control of a subsidiary, it recognizes the investment retained in the former subsidiary at its fair value at the date control is lost. The difference between the fair value of the retained investment plus any consideration received and the carrying amount of the previous investment at the date when control is lost is recognized as a gain or loss in profit or loss. Besides, the Company accounts for all amounts previously recognized in other comprehensive income in relation to that subsidiary on the same basis as would be required if the Company had directly disposed of the related assets or liabilities.

Profits and losses from downstream transactions with a subsidiary are eliminated in full in the Company's financial statements. Profits and losses resulting from upstream transactions and transactions between subsidiaries are recognized in the parent company only financial statements only to the extent of interests in the subsidiaries that are not related to the Company.

### g. Investments in associates

An associate is an entity over which the Company has significant influence and that is neither a subsidiary nor an interest in a joint venture. The Company uses the equity method of accounting to recognize its investments in associates.

Under the equity method, an investment in an associate is initially recognized at cost and is adjusted thereafter to recognize the Company's share of the profit or loss and other comprehensive income of the associate. The Company also recognizes the changes in the Company's share of the equity of associates attributable to the Company.

When the Company subscribes for additional new shares of the associate, at a percentage different from its existing ownership percentage, the resulting carrying amount of the investment differs from the amount of the Company's proportionate interest in the associate. The Company records such a difference as an adjustment to investments with the corresponding amount charged or credited to capital surplus. If the Company's ownership interest is reduced due to the additional subscription of new shares of the associate, the proportionate amount of the gains or losses previously recognized in other comprehensive income in relation to that associate is reclassified to profit or loss on the same basis as would be required if the investee had directly disposed of the related assets or liabilities. When the adjustment should be debited to capital surplus, but the capital surplus recognized from investments accounted for using the equity method is insufficient, the shortage is debited to retained earnings.

When the Company's share of losses of an associate equals or exceeds its interest in that associate (which includes any carrying amount of the investment accounted for using the equity method and long-term interests that, in substance, form part of the Company's net investment in the associate), the Company discontinues recognizing its share of further losses. Additional losses and liabilities are recognized only to the extent that the Company has incurred legal obligations, or constructive obligations, or made payments on behalf of that associate.

The entire carrying amount of the investment (including goodwill) is tested for impairment as a single asset by comparing its recoverable amount with its carrying amount. Any impairment loss recognized forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognized to the extent that the recoverable amount of the investment subsequently increases.

The Company discontinues the use of the equity method from the date on which its investment in the associate ceases. Any retained investment is measured at fair value at that date and the fair value is regarded as its fair value on initial recognition as a financial asset. The difference between the previous carrying amount of the associate attributable to the retained interest and its fair value is included in the determination of the gain or loss on the disposal of the associate. The Company accounts for all amounts previously recognized in other comprehensive income in relation to that associate on the same basis as would be required if that associate had directly disposed of the related assets or liabilities.

When the Company transacts with its associate, profits and losses resulting from the transactions with the associate are recognized in the Company's financial statements only to the extent of interests in the associate that are not related to the Company.

### h. Property, plant and equipment

Property, plant and equipment are initially measured at cost and subsequently measured at cost less accumulated depreciation and accumulated impairment loss. Before January 1, 2019, property, plant and equipment also included assets held under finance leases.

Property, plant and equipment in the course of construction are measured at cost, less any recognized impairment loss. Cost includes professional fees and borrowing costs eligible for capitalization. Such properties are depreciated and classified to the appropriate categories of property, plant and equipment when completed and ready for their intended use.

The depreciation of property, plant and equipment is recognized using the straight-line method. Each significant part is depreciated separately. For assets which were held under finance leases before January 1, 2019, if their respective lease terms are shorter than their useful lives, such assets are depreciated over their lease terms. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

On derecognize the asset of property, plant and equipment, the difference between the net disposal proceeds and the carrying amount of the asset is included in profit or loss for the year.

#### i. Investment properties

Investment properties are properties held to earn rentals and/or for capital appreciation. Beginning January 1, 2019, investment properties include properties under construction if the definition of investment properties is met. Investment properties also include land held for a currently undetermined use in the future.

Freehold investment properties are measured initially at cost, including transaction costs. All investment properties are subsequently measured using the fair value model. Changes in the fair value of investment properties are included in profit or loss for the period in which they arise.

Investment properties under construction, of which the fair value is not reliably measurable, are measured at cost less accumulated impairment loss until such time as either the fair value becomes reliably measurable or construction is completed (whichever comes earlier).

For a transfer of classification from investment properties to property, plant and equipment, the deemed cost of an item of property for subsequent accounting is its fair value at the commencement at the commencement of owner-occupation.

For a transfer of classification from property, plant and equipment to investment property at the end of owner-occupation, any difference between the fair value of the property at the transfer date and its previous carrying amount is recognized in other comprehensive income.

To derecognize an investment property, the difference between the net disposal proceeds and the carrying amount of the asset is included in profit or loss for the year.

### j. Intangible assets

### 1) Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are initially measured at cost and subsequently measured at cost less accumulated amortization and accumulated impairment loss. Amortization is recognized on a straight-line basis during their expected useful lives. The estimated useful lives, residual values, and amortization method are reviewed at the end of each reporting period with the effect of any changes in estimates accounted for on a prospective basis.

# 2) Derecognition of intangible assets

On derecognition of an intangible asset, the difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss for the year.

#### k. Impairment of tangible and intangible assets

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets other than goodwill to determine whether there is any indication of impairment loss on those assets. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. Corporate assets are allocated to the smallest group of cash-generating units on a reasonable and consistent allocation basis.

The recoverable amount is the higher of fair value less costs to sell and value in use. If the recoverable amount of an asset or cash-generating unit is estimated to be less than its carrying amount, the carrying amount of the asset or cash-generating unit is reduced to its recoverable amount. The impairment loss is recognized in profit or loss.

When an impairment loss is subsequently reversed, the carrying amount of the asset or cash-generating unit is increased to the revised estimate of its recoverable amount, but only to the extent of the carrying amount (deducting amortization or depreciation) that would have been determined had no impairment loss been recognized for the asset or cash-generating unit in prior years. A reversal of an impairment loss is recognized in profit or loss.

#### 1. Financial instruments

Financial assets and financial liabilities are recognized when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issuance of financial assets and financial liabilities are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognized immediately in profit or loss.

#### 1) Financial assets

All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis.

#### a) Measurement categories

Financial assets are classified into the following categories: Financial assets at FVTPL, financial assets at amortized cost and investments in debt instruments and equity instruments at FVTOCI.

#### i. Financial assets at amortized cost

Financial assets that meet the following conditions are subsequently measured at amortized cost:

- i) The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- ii) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Subsequent to initial recognition, financial assets at amortized cost, including cash, trade receivables at amortized cost and refundable deposits, are measured at amortized cost, which equals the gross carrying amount determined using the effective interest method less any impairment loss. Exchange differences are recognized in profit or loss. Interest income is calculated by applying the effective interest rate to the gross carrying amount of such a financial asset.

#### ii. Investments in equity instruments at FVTOCI

Investments in equity instruments at FVTOCI are subsequently measured at fair value with gains and losses arising from changes in fair value recognized in other comprehensive income and accumulated in other equity. The cumulative gain or loss will not be reclassified to profit or loss on disposal of the equity investments; instead, it will be transferred to retained earnings.

Dividends on these investments in equity instruments are recognized in profit or loss when the Company's right to receive the dividends is established, unless the dividends clearly represent a recovery of part of the cost of the investment.

#### b) Impairment of financial assets and contract assets

The Company recognizes a loss allowance for expected credit losses on financial assets at amortized cost (including trade receivables).

The Company always recognizes lifetime expected credit losses (ECLs) for trade receivables. For all other financial instruments, the Company recognizes lifetime ECLs when there has been a significant increase in credit risk since initial recognition. If, on the other hand, the credit risk on a financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month ECLs.

Expected credit losses reflect the weighted average of credit losses with the respective risks of default occurring as the weights. Lifetime ECLs represent the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECLs represent the portion of lifetime ECLs that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

The impairment loss of all financial assets is recognized in profit or loss by a reduction in their carrying amounts through a loss allowance account.

#### c) Derecognition of financial assets

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

On derecognition of a financial asset at amortized cost in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognized in profit or loss. On derecognition of an investment in an equity instrument at FVTOCI, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognized in profit or loss, and the cumulative gain or loss which had been recognized in other comprehensive income is transferred directly to retained earnings, without recycling through profit or loss.

#### 2) Financial liabilities

#### a) Subsequent measurement

All financial liabilities are measured at amortized cost using the effective interest method.

# b) Derecognition of financial liabilities

The difference between the carrying amount of a financial liability derecognized and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

#### m. Revenue recognition

The Company identifies contracts with customers, allocates the transaction price to the performance obligations and recognizes revenue when performance obligations are satisfied.

Revenue from the sale of goods are recognized as revenue when the goods are shipped or delivered because it is the time when the customer has full discretion over the manner of distribution and price to sell the goods, has the primary responsibility for sales to future customers and bears the risks of obsolescence. Trade receivables are recognized concurrently.

When the other party participates in providing goods or services to customers, the Company obtains control of the specified goods or services before they are transferred to the customers and, therefore, is acting as a principal in the transaction. On the contrary, the other party is acting as an agent. As the principal, the total amount of the consideration that is expected to be obtained in exchange for the transfer of goods or services is recognized as income. As an agent, the amount of any fees or commissions that the other party expected to obtain in exchange for the provision of goods or services, recognized as income. The charge or commission of the Company may be the net amount of the consideration. The income retained by the Company in exchange for goods or services is the amount retained after payment to the other party.

Customer Loyalty Program, the Company offers award credits which can be used for future purchases when the customer shops. The award credits provides a material right to the customer. The transaction price allocated to the award credits is recognized as a contract liability when collected and will be recognized as revenue when the award credits is redeemed or has expired.

#### n. Leases

#### 2019

At the inception of a contract, the Company assesses whether the contract is, or contains, a lease.

#### 1) The Company as lessor

Leases are classified as finance leases whenever the terms of a lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Lease payments (less any lease incentives payable) from operating leases are recognized as income on a straight-line basis over the terms of the relevant leases. Initial direct costs incurred in obtaining operating leases are added to the carrying amounts of the underlying assets and recognized as expenses on a straight-line basis over the lease terms.

Variable lease payments that do not depend on an index or a rate are recognized as income in the periods in which they are incurred.

When a lease includes both land and building elements, the Company assesses the classification of each element separately as a finance or an operating lease based on the assessment as to whether substantially all the risks and rewards incidental to ownership of each element have been transferred to the lessee. The lease payments are allocated between the land and the building elements in proportion to the relative fair values of the leasehold interests in the land element and building element of the lease at the inception of a contract. If the allocation of the lease payments can be made reliably, each element is accounted for separately in accordance with its lease classification. When the lease payments cannot be allocated reliably between the land and building elements, the entire lease is generally classified as a finance lease unless it is clear that both elements are operating leases; in which case, the entire lease is classified as an operating lease.

#### 2) The Company as lessee

The Company recognizes right-of-use assets and lease liabilities for all leases at the commencement date of a lease, except for short-term leases and low-value asset leases accounted for applying a recognition exemption where lease payments are recognized as expenses on a straight-line basis over the lease terms.

Right-of-use assets are initially measured at cost, which comprises the initial measurement of lease liabilities adjusted for lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs needed to restore the underlying assets, and less any lease incentives received. Right-of-use assets are subsequently measured at cost less accumulated depreciation and impairment losses and adjusted for any remeasurement of the lease liabilities.

Right-of-use assets are depreciated using the straight-line method from the commencement dates to the earlier of the end of the useful lives of the right-of-use assets or the end of the lease terms.

Lease liabilities are initially measured at the present value of the lease payments, which comprise fixed payments, in-substance fixed payments, variable lease payments which depend on an index or a rate, less any lease incentives receivable. The lease payments are discounted using the interest rate implicit in a lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses the lessee's incremental borrowing rate.

Subsequently, lease liabilities are measured at amortized cost using the effective interest method, with interest expense recognized over the lease terms. When there is a change in a lease term, or a change in future lease payments resulting from a change in an index or a rate used to determine those payments, the Company remeasures the lease liabilities with a corresponding adjustment to the right-of-use-assets. However, if the carrying amount of the right-of-use assets is reduced to zero, any remaining amount of the remeasurement is recognized in profit or loss. Lease liabilities are presented on a separate line in the consolidated balance sheets.

Variable lease payments that do not depend on an index or a rate are recognized as expenses in the periods in which they are incurred.

#### 2018

Leases are classified as finance leases whenever the terms of a lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

#### 1) The Company as lessor

Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and amortized on a straight-line basis over the lease term.

Lease incentives included in the operating lease are recognized as an asset. The aggregate cost of incentives is recognized as a reduction of rental income on a straight-line basis over the lease term. Contingent rents arising under operating leases are recognized as income in the period in which they are incurred.

#### 2) The Company as lessee

Assets held under finance leases are initially recognized as assets of the Company at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the balance sheets as a finance lease obligation.

Lease incentives received under operating leases are recognized as liabilities. The aggregate benefit of incentives is recognized as a reduction of rental expense on a straight-line basis.

Contingent rents arising under operating leases are recognized as an expense in the period in which they are incurred.

#### 3) Leasehold land for own use

When a lease includes both land and building elements, the Company assesses the classification of each element as a finance or an operating lease separately based on the assessment as to whether substantially all the risks and rewards incidental to ownership of each element have been transferred to the Company. The minimum lease payments are allocated between the land and the building elements in proportion to the relative fair values of the leasehold interests in the land element and building element of the lease at the inception of the lease.

If the allocation of the lease payments can be made reliably, each element is accounted for separately in accordance with their classification of lease. When the lease payments cannot be allocated reliably between the land and building elements, the entire lease is generally classified as a finance lease unless it is clear that both elements are operating leases, in which case the entire lease is classified as an operating lease.

#### o. Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

Other than that which is stated above, all other borrowing costs are recognized in profit or loss in the period in which they are incurred.

#### p. Retirement benefit costs

Payments to defined contribution retirement benefit plans are recognized as an expense when employees have rendered services entitling them to the contributions.

Defined benefit costs (including service cost, net interest and remeasurement) under the defined benefit retirement benefit plans are determined using the projected unit credit method. Service cost and net interest on the net defined benefit liabilities (assets) are recognized as employee benefits expenses when the plan amendment or curtailment occurs. Remeasurement, comprising actuarial gains and losses (the effect of the changes to the asset ceiling) and the return on plan assets (excluding interest), is recognized in other comprehensive income in the period in which they occur. Remeasurement recognized in other comprehensive income (loss) is reflected immediately in retained earnings and will not be reclassified subsequently to profit or loss.

Net defined benefit liabilities (assets) represent the actual deficit (surplus) in the Company's defined benefit plan. Any surplus resulting from this calculation is limited to the present value of any refunds from the plans or reductions in future contributions to the plans.

#### q. Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

#### 1) Current tax

According to the Income Tax Law, an additional tax on unappropriated earnings is provided for in the year the shareholders approve to retain earnings.

Adjustments of prior years' tax liabilities are added to or deducted from the current period's income tax expenses.

#### 2) Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized.

Deferred tax liabilities are recognized for taxable temporary differences associated with investments in subsidiaries and associates, except where the Company is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with these investments are recognized only to the extent that it is probable that there will be sufficient taxable profits against which to use the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the assets to be recovered. A previously unrecognized deferred tax asset is also reviewed at the end of each reporting period and recognized to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liabilities are settled or the assets are realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities. For investment properties that are measured using the fair value model, the carrying amounts of such assets are presumed to be recovered entirely through their sale.

#### 3) Current and deferred tax for the year

Current and deferred taxes are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income, in which case, the current and deferred taxes are also recognized in other comprehensive income, respectively.

# 5. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Company's accounting policies, management is required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised if the revisions affect only that period or in the period of the revisions and future periods if the revisions affect both current and future periods.

#### **Key Sources of Estimation Uncertainty**

a. Impairment of goodwill included in the investments in subsidiaries

Determining whether the goodwill included in the investments in subsidiaries is impaired requires an estimation of the value in use of the cash-generating units which are expected to benefit from the synergies of the related combination and to which the goodwill has been allocated since the acquisition date. The calculation of the value in use requires management to estimate the future cash flows expected to arise from the cash-generating units and a suitable discount rate in order to calculate the present value. Where the actual future cash flows are less than expected, a material impairment loss may arise.

b. Fair value measurement and valuation process of the investment properties

Third-party qualified valuers were engaged to perform the fair value evaluation of the Company's investment properties using the appropriate valuation techniques for fair value measurements.

The valuers of the Company determined the appropriate inputs by referring to the analyses of the financial position and the operation results of investees, recent transaction prices and prices of the same equity instruments not quoted in active markets in the vicinity of the Company's investment properties. If there are changes in the actual inputs in the future which differ from expectation, the fair value might vary accordingly. The Company updates inputs every quarter to confirm the appropriateness of the fair value measurement.

Information on the valuation techniques and inputs used in determining the fair value of investment properties is disclosed in Note 14.

#### 6. CASH

|   | December 31          |                   |  |  |
|---|----------------------|-------------------|--|--|
|   | 2019                 | 2018              |  |  |
| Cash on hand and revolving funds<br>Checking accounts and demand deposits | \$ 35,642<br>502,719 | \$ 30,370<br>     |  |  |
|   | <u>\$ 538,361</u>    | <u>\$ 746,181</u> |  |  |

The market rate intervals of cash in bank at the end of the reporting period are as follows:

|                  | Decem         | ber 31      |
|------------------|---------------|-------------|
|                  | 2019          | 2018        |
| Deposits in bank | 0.001%-0.330% | 0.01%-0.43% |

# 7. FINANCIAL ASSETS AT FAIR VALUE THROUGH OTHER COMPREHENSIVE INCOME - NON-CURRENT

|   | December 31             |                        |  |  |
|---|-------------------------|------------------------|--|--|
|   | 2019                    | 2018                   |  |  |
| Investments in equity instruments at FVTOCI                                   |                         |                        |  |  |
| Domestic investments Listed shares and emerging market shares Unlisted shares | \$ 2,993,461<br>107,588 | \$ 2,254,523<br>99,828 |  |  |
|   | \$ 3,101,049            | \$ 2,354,351           |  |  |

- a. These investments in equity instruments are not held for trading. Instead, they are held for medium to long-term strategic purposes. Accordingly, the management elected to designate these investments in equity instruments as at FVTOCI as they believe that recognizing short-term fluctuations in these investments' fair value in profit or loss would not be consistent with the Company's strategy of holding these investments for long-term purposes.
- b. Refer to Note 30 for information relating to investments in equity instruments at FVTOCI pledged as security.

#### 8. FINANCIAL ASSETS AT AMORTIZED COST - CURRENT

|  | December 31      |           |  |
|--|------------------|-----------|--|
|  | 2019             | 2018      |  |
| Time deposits with original maturities of more than 3 months | <u>\$ 25,271</u> | \$ 25,095 |  |

#### b. Trade receivables

|   | December 31         |                    |  |  |
|---|---------------------|--------------------|--|--|
|   | 2019                | 2018               |  |  |
| At amortized cost Trade receivables Less: Allowance for impairment loss | \$ 425,818<br>(537) | \$ 780,216<br>(24) |  |  |
|   | <u>\$ 425,281</u>   | <u>\$ 780,192</u>  |  |  |

The Company's trade receivables pertained to revenue on credit cards and goods coupons. The average credit period for revenue from credit cards was 2 to 3 days, and for goods coupons, 15 days.

In determining the recoverability of a trade receivable, the Company considered any change in the credit quality of the trade receivable since the date credit was initially granted to the end of the reporting period. Allowances for impairment loss were recognized against trade receivables based on estimated irrecoverable amounts determined with reference to past default experience of the counterparties and an analysis of their current financial position.

The Company measures the loss allowance for trade receivables at an amount equal to lifetime ECLs. The expected credit losses on trade receivables are estimated using a provision matrix by reference to past default experience of the debtor and an analysis of the debtor's current financial position, adjusted for general economic conditions of the industry in which the debtors operate and an assessment of both the current as well as the forecasted direction of economic conditions at the reporting date. As the Company's historical credit loss experience does not show significantly different loss patterns for different customer segments, the provision for loss allowance based on past due status is not further distinguished according to the Company's different customer base.

The Company writes off a trade receivable when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery. For trade receivables that have been written off, the Company continues to engage in enforcement activity to attempt to recover the receivables due. Where recoveries are made, these are recognized in profit or loss.

The following table details the loss allowance of trade receivables based on the Company's provision matrix.

#### December 31, 2019

| AMC              | 100%   | 100%    |  |

Refer to Note 32 for the details of the subsidiaries indirectly held by the Company.

The Company had a 35% equity interest in PLTI. However, the proportion of the combined equity of PLTI in the Company and its subsidiaries reached 56.6%; thus, this investee was recognized as an entity over which the Company had control.

In December 2019, YTDS undertook the registration of a capital reduction to offset the deficit, which resulted in a decrease of 20,000 thousand shares in the Company's equity in YTDS. YTDS issued shares for an increase in cash capital, and the Company acquired 40,000 thousand shares at \$10 per share which totaled \$400,000 thousand.

In December 2018, BYIC undertook the registration of a capital reduction to offset the deficit, which resulted in a decrease of 78,000 thousand shares in the Company's equity in BYIC.

The investments in subsidiaries accounted for using the equity method and the share of profit or loss and other comprehensive income of those investments for the years ended December 31, 2019 and 2018 were based on the subsidiaries' financial statements audited for the same years by other auditors.

#### b. Investments in associates

|   | December 31         |              |  |
|---|---------------------|--------------|--|
|   | 2019                | 2018         |  |
| Associates that are not individually material | <u>\$ 2,108,854</u> | \$ 2,102,458 |  |

Aggregate information of associates that are not individually material are summarized as follows:

|                                   | For the Year Ended December 31 |                     |  |
|-----------------------------------|--------------------------------|---------------------|--|
|                                   | 2019                           | 2018                |  |
| The Company's share of            |                                |                     |  |
| Net profit (loss) for the year    | \$ 10,029                      | \$ (25,044)         |  |
| Other comprehensive (loss) profit | (3,862)                        | 11,123              |  |
| Total comprehensive profit (loss) | <u>\$ 6,167</u>                | <u>\$ (13,921</u> ) |  |

The Company and its grandson company, Pacific Sogo Department Stores Co., Ltd. (SOGO) invested in Ding Integrated Marketing Service Co., Ltd. (DDIM) and Yuan Hsin Digital Payment Co., Ltd. (YHDP), in amounts totaling 20% of each Company's shares. As a result, these investments were accounted for using the equity method.

In July 2019 and November 2018, YHDP undertook the registration of a capital reduction to offset the deficit, which resulted in a decrease in the Company's equity in YHDP of 3,662 thousand shares and 3,403 thousand shares, respectively.

In June 2018, DDIM undertook the registration of a capital reduction to offset the deficit, which resulted in a decrease in the Company's equity in DDIM of 3,540 thousand shares.

The investments in associates accounted for using the equity method and the share of profit or loss and other comprehensive income of those investments for the years ended December 31, 2019 and 2018 were based on the associates' financial statements audited for the same years by other auditors.

Refer to Note 30 for the information on the carrying amounts of investments in associates accounted for using the equity method that were pledged as security.

The above items of property, plant and equipment are depreciated on a straight-line basis over their estimated useful lives as follows:

| Buildings  | 55 years    |
|--|-------------|
| Buildings and facilities                           | 8-15 years  |
| Decorative facilities                              | 6 years     |
| Equipment held under finance leases                | 35-50 years |
| Plant, transportation, and miscellaneous equipment | 5-8 years   |

Some of the investment properties were transferred to property, plant and equipment at their fair value as the use of these assets changed to self-use for the year ended December 31, 2019.

Refer to Note 30 for the information on the carrying amounts of property, plant and equipment that were pledged as security.

|  | December 31, 2019                             |

#### c. Material lease-in activities and terms

Plant, transportation, and miscellaneous equipment

The Company operates a retail business of leasing property and equipment for its operating activities with lease term of 3 to 50 years. In addition to fixed payments, some lease contracts also indicate variable lease payments with different conditions. Some stores are leased by acquiring land use rights to build buildings and transfer buildings to lessor unconditionally at the end of the lease term.

1.17%-1.72%

0.90%-1.72% 0.92%

#### d. Other lease information

# 2019

Land

**Buildings** 

|   | For the Year<br>Ended<br>December 31,<br>2019 |
|---|---|
| Expenses relating to short-term leases  | \$ 5,113                                      |
| Expenses relating to low-value asset leases                                     | <u>\$ 3,866</u>                               |
| Expenses relating to variable lease payments not included in the measurement of |   |
| lease liabilities   | <u>\$ 19,065</u>                              |
| Total cash outflow for leases   | <u>\$ (1,784,930</u> )                        |

The Company has elected to apply the recognition exemption for short-term leases and low-value assets leases and, thus, did not recognize right-of-use assets and lease liabilities for these leases.

# <u>2018</u>

The future minimum lease payments of non-cancellable operating lease commitments are as follows:

|   | December 31,<br>2018                  |
|---|---------------------------------------|
| Not later than 1 year<br>Later than 1 year and not later than 5 years<br>Later than 5 years | \$ 849,693<br>3,355,437<br>11,556,802 |
|   | <u>\$ 15,761,802</u>                  |

The lease payments and sublease payments recognized in profit or loss were as follows:

|   | For the Year<br>Ended<br>December 31,<br>2018 |
|---|---|
| Minimum lease payments Contingent rental payments | \$ 893,445<br>                                |
|   | <u>\$ 917,370</u>                             |

#### 14. INVESTMENT PROPERTIES

|   | Land         | Buildings and<br>Facilities | Investment Properties under Construction | Total          |

| Balance at December 31, 2019  | \$ 6,216,334 | \$ 2,770,598                | <u>\$ 10,124</u>                         | \$ 8,997,056   |

The investment properties located in the Hualien area were affected by the earthquake which occurred on February 6, 2018, which caused significant damage to the investment properties. The Company demolished the building in March 2018 and recognized loss on disposal of investment properties of \$90,621 thousand in 2018.

Some of the Company's investment properties had been leased out under operating leases with lease term of 1-20 years, and the lease contracts include the lessee's buy-back agreement.

Except for minimum lease payments, some of the Company's lease contracts stipulate that the Company should adjust rentals on the basis of the consumer price index per annum.

The maturity analysis of lease payments receivable under operating leases of investment properties at December 31, 2019 as follows:

|                | December 31,<br>2019 |
|----------------|----------------------|
| Year 1         | \$ 221,158           |
| Year 2         | 130,057              |
| Year 3         | 99,322               |
| Year 4         | 84,961               |
| Year 5         | 67,599               |
| Year 6 onwards | 222,406              |
|                | <u>\$ 825,503</u>    |

The future minimum lease payments of non-cancellable operating lease commitments at December 31, 2018 as follows:

|  | December 31,<br>2018 |
|--|----------------------|
| Not later than 1 year                        | \$ 189,184           |
| Later than 1 year and not later than 5 years | 375,047              |
| Later than 5 years                           | <u>252,863</u>       |
|  | <u>\$ 817,094</u>    |

The fair values of the investment properties as of December 31, 2019 and 2018 were based on the valuations carried out at those dates, on a recurring basis by independent qualified professional valuers, Hong-Kai Chang, Yi-Chih Chang, Yu-Fen Yeh and Kuang-Ping Tai from Savills Real Estate Appraiser Office, a member of certified ROC real estate appraisers.

Except for undeveloped lands, the fair values of investment properties were measured using the income approach and the significant assumptions used are the increase in the estimated future net cash inflows, or the decrease in discount rates that would result in increases in the fair values.

|  | December 31                |                            |
|--|----------------------------|----------------------------|
|  | 2019                       | 2018                       |
| Expected future cash inflows Expected future cash outflows | \$ 21,531,652<br>2,443,572 | \$ 21,573,710<br>2,272,008 |
| Expected future cash inflows, net                          | <u>\$ 19,088,080</u>       | <u>\$ 19,301,702</u>       |
| Discount rate  | 4.345%                     | 4.345%                     |

The market rentals in the area where the investment properties are located were between \$1 thousand and \$2 thousand per ping (i.e., per 3.3 square meters). The market rentals for comparable properties were between \$1 thousand and \$4 thousand per ping (i.e., per 3.3 square meters).

The expected future cash inflows generated by investment properties referred to rental income, interest income on rental deposits and disposal value. The rental income was extrapolated using the existing lease contracts of the Company and comparative market rentals covering 5-10 years, taking into account the annual rental growth rate. The interest income on rental deposits was extrapolated by the one-year average deposit interest rate, and the disposal value was determined by the direct capitalization method under the income approach. The expected future cash outflows on investment properties included expenditures such as property taxes, insurance premiums, management fees, maintenance costs and replacement allowances. These expenditures were extrapolated on the basis of the current level of expenditures, taking into account the future adjustments to the government-announced land value, the tax rate promulgated under the Construction Cost Index and the House Tax Act and construction costs.

The discount rate was determined with reference to the interest rate for two-year time deposits of Chunghwa Post Co., Ltd. plus 0.75% and the risk premium of investment properties of 2.5%.

Part of the land owned by the Company, where is located in the east of Taiwan, was not developed yet. The fair value of the undeveloped land area was measured by the land development analysis approach. The increase in the estimated total sales price, the increase in the rate of return, or the decrease in the overall capital interest rate would result in increase in the fair value. The significant assumptions used are as follows:

|  | December 31            |                        |
|--|------------------------|------------------------|
|  | 2019                   | 2018                   |
| Estimated total sales price                  | <u>\$ 1,511,974</u>    | <u>\$ 1,965,503</u>    |
| Rate of return Overall capital interest rate | 18%-20%<br>1.56%-3.08% | 16%-20%<br>1.49%-3.90% |

The total sales price is estimated on the basis of the most effective use of land or property available for sale after development is completed, taking into account the related regulations, optimism of domestic macroeconomic prospects, local land use, and comparable market prices.

Refer to Note 30 for the information on the carrying amounts of investment properties pledged as collateral for borrowings.

| Xinyi Division A13 - land use rights | \$ -        | \$ 2,173,763 |

In September 2003, the Company acquired the land use rights for No. A13 in Xinyi District of Taipei City, which is owned by the Taipei City Government. The total amount of the land use rights was \$3,196,888 thousand, and the Company completed the registration of its acquisition of the land use rights in October 2003. Under the contract, the Company has the right to use the land for 50 years from the time of completion of the land use rights' registration. The initial monthly rental is \$3,771 thousand, to be adjusted annually in accordance with the assessed and publicly announced land value on the contract date. The construction had been completed and transferred to right-of-use assets in 2019.

# 20. RETIREMENT BENEFIT PLANS

# a. Defined contribution plan

The Company adopted a pension plan under the Labor Pension Act (LPA), which is a state-managed defined contribution plan. Under the LPA, an entity makes monthly contributions to employees' individual pension accounts at 6% of monthly salaries and wages.

### b. Defined benefit plan

The defined benefit plan adopted by the Company in accordance with the Labor Standards Law is operated by the government. Pension benefits are calculated on the basis of the length of service and average monthly salaries of the 6 months before retirement. The Company contribute amounts equal to 2% of total monthly salaries and wages to a pension fund administered by the pension fund monitoring committee. Pension contributions are deposited in the Bank of Taiwan in the committee's name. Before the end of each year, the Company assesses the balance in the pension fund. If the amount of the balance in the pension fund is inadequate to pay retirement benefits for employees who conform to retirement requirements in the following year, the Company is required to fund the difference in one appropriation that should be made before the end of March of the following year. The pension fund is managed by the Bureau of Labor Funds, Ministry of Labor (the "Bureau"); the Company has no right to influence the investment policy and strategy.

The amounts included in the balance sheets in respect of the Company's defined benefit plan are as follows:

|  | December 31             |                         |  |
|--|-------------------------|-------------------------|--|
|  | 2019                    | 2018                    |  |
| Present value of the defined benefit obligation<br>Fair value of the plan assets | \$ 690,534<br>(924,569) | \$ 667,816<br>(578,815) |  |
| Net defined benefit (assets) liabilities   | <u>\$ (234,035)</u>     | \$ 89,001               |  |

Movements in net defined benefit liabilities are as follows:

|  | Present Value<br>of the Defined<br>Benefit<br>Obligation | Fair Value of<br>the Plan Assets | Net Defined<br>Benefit<br>Liabilities |
|--|--|----------------------------------|---------------------------------------|
| Balance at January 1, 2018               | \$ 742,897   | \$ (505,389)                     | \$ 237,508                            |
| Service cost                             |  |                                  |                                       |
| Current service cost                     | 7,088  | -                                | 7,088                                 |

| Balance at December 31, 2019             | <u>\$ 690,534</u>  | <u>\$ (924,569)</u>              | \$ (234,035)<br>(Concluded)           |

Through the defined benefit plan under the Labor Standards Law, the Company is exposed to the following risks:

- 1) Investment risk: The plan assets are invested in equity and debt securities, bank deposits, etc. The investment is conducted at the discretion of the Bureau or under the mandated management. However, in accordance with relevant regulations, the return generated by plan assets should not be below the interest rate for a 2-year time deposit with local banks.
- 2) Interest risk: A decrease in the government bond interest rate will increase the present value of the defined benefit obligation; however, this will be partially offset by an increase in the return on the plan's debt investments of the plan assets.
- 3) Salary risk: The present value of the defined benefit obligation is calculated with reference to the future salaries of plan participants. As such, an increase in the salaries of the plan participants will increase the present value of the defined benefit obligation.

The actuarial valuations of the present value of the defined benefit obligation were carried out by qualified actuaries. The significant assumptions used for the purposes of the actuarial valuations are as follows:

|                                  | December 31 |        |  |
|----------------------------------|-------------|--------|--|
|                                  | 2019        | 2018   |  |
| Discount rate                    | 0.750%      | 1.125% |  |
| Expected rate of salary increase | 2.000%      | 2.000% |  |

If possible reasonable change in each of the significant actuarial assumptions will occur and all other assumptions will remain constant, the present value of the defined benefit obligation would increase (decrease) as follows:

|                                     | December 31         |                    |  |
|-------------------------------------|---------------------|--------------------|--|
|                                     | 2019                | 2018               |  |
| Discount rate(s)                    |                     |                    |  |
| 0.25% increase                      | <u>\$ (17,601</u> ) | <u>\$ (17,528)</u> |  |
| 0.25% decrease                      | <u>\$ 18,275</u>    | <u>\$ 18,207</u>   |  |
| Expected rate(s) of salary increase |                     |                    |  |
| 0.25% increase                      | <u>\$ 17,730</u>    | <u>\$ 17,728</u>   |  |
| 0.25% decrease                      | \$ (17,168)         | \$ (17,156)        |  |

The sensitivity analysis presented above may not be representative of the actual change in the present value of the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

|  | December 31     |            |
|--|-----------------|------------|
|  | 2019            | 2018       |
| The expected contributions to the plan for the next year | <u>\$ 5,417</u> | \$ 5,680   |
| The average duration of the defined benefit obligation   | 10.4 years      | 10.7 years |

# 21. EQUITY

#### a. Share capital

# Ordinary shares

|  | December 31                              |                            |
|--|--|----------------------------|
|  | 2019                                     | 2018                       |

Fully paid ordinary shares, which have a par value of \$10, are entitled to one vote and a right to receive dividends per share.

#### b. Capital surplus

|  | December 31               |                           |
|--|---------------------------|---------------------------|
|  | 2019                      | 2018                      |
| May be used to offset a deficit, distributed as cash dividends, or transferred to share capital (Note) |                           |                           |
| Issuance in excess of ordinary shares<br>Treasury share transactions                                   | \$ 2,142,074<br>1,173,346 | \$ 2,142,074<br>1,173,346 |
| May only be used to offset a deficit   |                           |                           |
| Changes in percentage of ownership interest in subsidiaries and associates                             | 12,046                    |                           |
|  | \$ 3,327,466              | \$ 3,315,420              |

Note: Such capital surplus may be used to offset a deficit; in addition, when the Company has no deficit, such capital surplus may be distributed as cash or transferred to share capital (limited to a certain percentage of the Company's capital surplus and once a year).

#### c. Retained earnings and dividend policy

According to the Company's Articles of Incorporation, net income should be used to pay its business income tax and offset deficits. From any remaining net income, 10% will be appropriated as a legal reserve, and a special reserve as required by government regulations. After adding prior years' unappropriated earnings, the Company could retain a certain amount for expansion plans and then make the appropriation equally to each shareholder. However, if there is an increase in capital during the year, bonuses appropriated to new shareholders should be allocated based on the resolution passed in the shareholders' meeting. For information about the policies of employees' compensation and remuneration of directors prior to and after the amendments to the Company's Articles of Incorporation, refer to Note 23.

The Company's distribution of dividends would be in consideration of economic conditions, tax obligations, and operating requirements for cash. For an orderly system of dividend distribution, the dividends are distributed in accordance with the Articles of Incorporation. In addition, improvements of the financial structure and support for investment, capacity expansion or other major capital expenditures. The cash dividends to be distributed should not be below 50% than the current year's post-tax net profit deduction, offsetting losses of previous years, the statutory surplus reserve and the special surplus reserve, except for the improvement of financial structure and the transfer of funds, capacity expansion or other major capital expenditures. The cash dividends to be distributed should not be below 10% of the total cash and share dividends for the current accounting year.

Appropriation of earnings to legal reserve shall be made until the legal reserve equals the Company's paid-in capital. Legal reserve may be used to offset deficit. If the Company has no deficit and the legal reserve has exceeded 25% of the Company's paid-in capital, the excess may be transferred to capital or distributed in cash.

Under Order No. 1010012865, Order No. 1010047490 and Order No. 1030006415 issued by the FSC and the directive titled Questions and Answers for Special Reserves Appropriated Following Adoption of IFRSs, the Company should appropriate or reverse to a special reserve.

The appropriations of earnings for 2018 and 2017, which were approved in the shareholders' meetings on June 25, 2019 and June 21, 2018, respectively, are as follows:

|                                 | For the Year Ended December 31 |                     |
|---------------------------------|--------------------------------|---------------------|
|                                 | 2018                           | 2017                |
| Legal reserve                   | <u>\$ 131,815</u>              | <u>\$ 153,599</u>   |
| Special reserve                 | <u>\$ 73,330</u>               | <u>\$ 12,543</u>    |
| Cash dividends                  | <u>\$ 1,204,400</u>            | <u>\$ 1,416,940</u> |
| Cash dividends per share (NT\$) | \$ 0.85                        | \$ 1.00             |

The appropriation of earnings for 2019 was proposed by the board of directors on March 27, 2020. The appropriations and dividends per share are as follows:

|                                 | For the Year<br>Ended<br>December 31,<br>2019 |
|---------------------------------|---|
| Legal reserve                   | \$ 125,920                                    |
| Special reserve                 | \$ (156,088)                                  |
| Cash dividends                  | \$ 1,133,552                                  |
| Cash dividends per share (NT\$) | \$ 0.80                                       |

The appropriation of earnings for 2019 was resolved in the shareholders' meeting held on June 24, 2020.

#### d. Special reserve

|  | For the Year Ended December 31 |              |
|--|--------------------------------|--------------|
|  | 2019                           | 2018         |
| Beginning at January 1 Initial application of IFRS 16 Appropriation in respect of net increases in the fair value of | \$ 2,656,286<br>135,735        | \$ 2,643,743 |
| investment properties  | 73,330                         | 12,543       |
| Balance at December 31   | \$ 2,865,351                   | \$ 2,656,286 |

On the initial application of the fair value model to investment properties and on the initial application of IFRS 16, property leasehold interests which were previously accounted for as operating leases under IAS 17 are recognized as investment properties and measured at fair value, the Company appropriated for a special reserve at the amount that was the same as the net increase arising from fair value measurement and transferred to retained earnings. The additional special reserve should be appropriated for subsequent net increases in fair value. The amount appropriated may be reversed to the extent that the cumulative net increases in fair value decrease or on the disposal of investment properties.

#### e. Other equity items

#### 1) Exchange differences on translating the financial statements of foreign operations

|  | For the Year Ended December 31 |              |
|--|--------------------------------|--------------|
|  | 2019                           | 2018         |
| Beginning at January 1 Share of exchange difference of subsidiaries and associates | \$ 90,654                      | \$ 86,048    |
| accounted for using the equity method  | (25,329)                       | <u>4,606</u> |
| Balance at December 31   | \$ 65,325                      | \$ 90,654    |

# 2) Unrealized gain (loss) on financial assets at FVTOCI

|  | For the Year Ended December 31 |              |
|--|--------------------------------|--------------|
|  | 2019                           | 2018         |
|  |                                |              |
| Beginning at January 1                                     | \$ 1,969,628                   | \$ 1,242,300 |
| Recognized for the year                                    |                                |              |
| Unrealized gain - equity instruments                       | 746,698                        | 311,658      |
| Share from subsidiaries and associates accounted for using |                                |              |
| the equity method  | 342,548                        | 419,862      |
| Other comprehensive income recognized for the year         | 3,058,874                      | 1,973,820    |
| Reclassification adjustment                                |                                |              |
| Cumulative unrealized loss of equity instruments           |                                |              |
| transferred to retained earnings due to disposal           |                                | (4,192)      |
| Balance at December 31                                     | \$ 3,058,874                   | \$ 1,969,628 |

# f. Treasury shares

The shares that the subsidiaries held were acquired before the Company Act was amended in 2001. The Company's shares held by its subsidiaries at the end of the reporting period are as follows:

# December 31, 2019

| Name of Subsidiary       | Number of<br>Shares Held<br>(In Thousands<br>of Shares) | Carrying<br>Amount | Market Price      |
|--------------------------|---|--------------------|-------------------|
| Bai Ding Investment      | 8,207   | \$ 97,110          | <u>\$ 213,771</u> |
| <u>December 31, 2018</u> |   |                    |                   |
| Name of Subsidiary       | Number of<br>Shares Held<br>(In Thousands<br>of Shares) | Carrying<br>Amount | Market Price      |
| Bai Ding Investment      | 8,207   | <u>\$ 97,110</u>   | <u>\$ 128,837</u> |

Under the Securities and Exchange Act, the Company shall neither pledge treasury shares nor exercise shareholders' rights on these shares, such as the rights to dividends and to vote. The subsidiaries holding treasury shares, however, retain shareholders' rights, except the rights to participate in any share issuances for cash and to vote.

#### 22. REVENUE

|  |                               | For the Year Ended December 31          |   |

| Note: Gross revenue is presented as follows:   |                               |   |   |
|  |                               | For the Year En                         | ded December 31                         |
|  |                               | 2019                                    | 2018                                    |
| Concessionaires' sales<br>Sale of goods  |                               | \$ 37,141,303<br>5,035,862              | \$ 37,076,151<br>5,189,052              |
|  |                               | <u>\$ 42,177,165</u>                    | <u>\$ 42,265,203</u>                    |
| Contract Balances  |                               |   |   |
|  | December 31,<br>2019          | December 31,<br>2018                    | <b>January 1, 2018</b>                  |
| Contract liabilities - current   |                               |   |   |
| Sale of goods<br>Customer loyalty programs   | \$ 2,991,519<br><u>33,007</u> | \$ 2,807,936<br>39,896                  | \$ 2,643,333<br>37,604                  |
|  | \$ 3,024,526                  | \$ 2,847,832                            | \$ 2,680,937                            |

Refer to Note 9 for the information of notes receivables and trade receivables.

The changes in the balance of contract liabilities primarily result from the timing difference between the Company's performance and the respective customer's payment.

Revenue of the reporting period recognized from the beginning contract liabilities which were satisfied in the previous periods is as follows:

|   | For the Year Ended December 31 |                               |
|---|--------------------------------|-------------------------------|
| From contract liabilities at the start of the years | 2019                           | 2018                          |
| Sale of goods<br>Customer loyalty programs          | \$ 1,270,069<br>39,896         | \$ 1,198,864<br><u>37,604</u> |
|   | <u>\$ 1,309,965</u>            | <u>\$ 1,236,468</u>           |

# 23. NET PROFIT FOR THE YEAR

Net profit for the year includes the following items:

# a. Operating costs

|                 | For the Year Ended December 31 |                     |
|-----------------|--------------------------------|---------------------|

|                           | 2019                           | 2018                           |  |  |
|                           | Cash                           | Cash                           |  |  |
| Employees' compensation   | \$ 74,392                      | \$ 55,384                      |  |  |
| Remuneration of directors | 55,794                         | 41,538                         |  |  |

If there is a change in the amounts after the annual financial statements are authorized for issue, the differences are recorded as a change in the accounting estimate.

There is no difference between the actual amounts of employees' compensation and remuneration of directors paid and the amounts recognized in the financial statements for the years ended December 31, 2018 and 2017.

Information on the employees' compensation and remuneration of directors resolved by the Company's board of directors in 2019 and 2018 is available at the Market Observation Post System website of the Taiwan Stock Exchange.

#### 24. INCOME TAX

a. Income tax recognized in profit or loss

Major components of income tax expense are as follows:

|   | For the Year Ended December 31 |            |  |
|---|--------------------------------|------------|--|
|   | 2019                           | 2018       |  |
| Current income tax                              |                                |            |  |
| In respect of the current year                  | \$ 267,838                     | \$ 210,927 |  |
| Adjustments for the prior year                  | 2,590                          | 58         |  |
| • •   | 270,428                        | 210,985    |  |
| Deferred income tax                             |                                |            |  |
| In respect of the current year                  | 136,596                        | 26,916     |  |
| Effect of tax rate changes                      | -                              | 143,241    |  |
| Adjustments for the prior year                  | <u>5,686</u>                   | (65,443)   |  |
|   | 142,282                        | 104,714    |  |
| Income tax expense recognized in profit or loss | <u>\$ 412,710</u>              | \$ 315,699 |  |

A reconciliation of accounting profit and income tax expenses are as follows:

|  | For the Year Ended December 31 |              |  |
|--|--------------------------------|--------------|--|
|  | 2019                           | 2018         |  |
| Profit before income tax from continuing operations  | <u>\$ 2,194,553</u>            | \$ 1,633,849 |  |
| Income tax expense calculated at the statutory rate  | \$ 438,911                     | \$ 326,770   |  |
| Nondeductible expenses in determining taxable income | 234                            | 680          |  |
| Tax-exempt income                                    | (87,196)                       | (64,791)     |  |
| Unrecognized deductible temporary differences        | 63,258                         | 6,004        |  |
| Effect of tax rate changes                           | -                              | 143,241      |  |
| Adjustments for prior years' income tax              | 2,590                          | 58           |  |
| Adjustments for prior years' deferred tax            | 5,686                          | (65,443)     |  |
| Land value increment tax                             | (10,951)                       | (25,275)     |  |
| Others   | 178                            | (5,545)      |  |
| Income tax expense recognized in profit or loss      | <u>\$ 412,710</u>              | \$ 315,699   |  |

The Income Tax Act in the ROC was amended in 2018, and the corporate income tax rate was adjusted from 17% to 20%. In addition, the rate of the corporate surtax applicable to the 2018 unappropriated earnings was reduced from 10% to 5%.

# b. Income tax recognized in other comprehensive income

| Deductible temporary differences | <u>\$ 935,976</u> | <u>\$ 624,916</u> |  |

### f. Income tax assessments

The income tax returns through 2017 have been assessed by the tax authorities.

### 25. EARNINGS PER SHARE

**Unit: NT\$ Per Share** 

|  | For the Year Ended December 31 |                    |  |
|--|--------------------------------|--------------------|--|
|  | 2019                           | 2018               |  |
| Basic earnings per share<br>Diluted earnings per share | \$ 1.26<br>\$ 1.26             | \$ 0.94<br>\$ 0.93 |  |

Earnings and weighted average number of ordinary shares outstanding for the computation of earnings per share are as follows:

### **Net Profit for the Year**

|   | For the Year Ended December 31 |                     |  |
|---|--------------------------------|---------------------|--|
|   | 2019                           | 2018                |  |
| Net profit for the year Effect of potential dilutive ordinary shares: Employees' compensation | \$ 1,781,843                   | \$ 1,318,150        |  |
| Earnings used in the computation of diluted earnings per share                                | <u>\$ 1,781,843</u>            | <u>\$ 1,318,150</u> |  |

### **Shares**

(In Thousand Shares)

|   | For the Year Ended December 31 |           |  |
|---|--------------------------------|-----------|--|
|   | 2019                           | 2018      |  |
| Weighted average number of ordinary shares outstanding in |                                |           |  |
| computation of basic earnings per share                   | 1,408,734                      | 1,408,734 |  |
| Effect of potential dilutive ordinary shares:             | 4.021                          | 4.021     |  |
| Employees' compensation                                   | 4,031                          | 4,931     |  |
| Weighted average number of ordinary shares outstanding in |                                |           |  |
| computation of dilutive earnings per share                | 1,412,765                      | 1,413,665 |  |

If the Company offered to settle the compensation paid to employees in cash or shares, the Company assumed the entire amount of the compensation or bonus will be settled in shares and the resulting potential shares were included in the weighted average number of shares outstanding used in the computation of diluted earnings per share, as the effect is dilutive. Such dilutive effect of the potential shares was included in the computation of diluted earnings per share until the number of shares to be distributed to employees is resolved in their meeting in the following year.

### 26. CASH FLOW INFORMATION

### a. Non-cash transactions

For the years ended December 31, 2019 and 2018, the Group entered into the following non-cash investing activities which were not reflected in the consolidated statements of cash flows:

The Company reclassified prepayments for equipment of \$10,788 thousand and \$36,464 thousand, respectively, as property, plant and equipment (see Note 12).

### b. Changes in liabilities arising from financing activities

### For the year ended December 31, 2019

|                               | Non-cash Changes |                |              |                            |              |                 |

### 27. CAPITAL MANAGEMENT

Under its operating development schemes and related government rules, the Company manages its capital to ensure it can continue to operate as a going concern while maximizing the return to shareholders through the optimization of the debt and equity balance.

The capital structure of the Company consists of net debt (borrowings offset by cash) and equity of the Company (comprising share capital, capital surplus, retained earnings and other equity). The Company's capital management concerns its capital expenditures for capital structure and relative risks to ensure the optimal capital structure, and the Company may adjust the amount of dividends paid to shareholders, the number of new shares issued, proceeds from borrowings and repayments of borrowings, in order to balance the overall capital structure.

### 28. FINANCIAL INSTRUMENTS

a. Fair value of financial instruments not measured at fair value

The financial instruments not measured at fair value are either those with due dates in the near future or those with a future collection value which approximately equals its carrying amount. Thus, the fair value of these financial instruments are estimated at their carrying amounts on the financial reporting date.

### b. Fair value of financial instruments measured at fair value on a recurring basis

### 1) Fair value hierarchy

### December 31, 2019

|  | Level 1      | Level 2     | Level 3           | Total                   |
|--|--------------|-------------|-------------------|-------------------------|

| Recognized in other comprehensive income (included in unrealized valuation |   |
| gain/(loss) on financial assets at FVTOCI)                                 | 2,194   |
| Balance at December 31, 2018   | <u>\$ 99,828</u>                                    |

3) Valuation techniques and inputs applied for Level 3 fair value measurements

| <b>Financial Instruments</b> | Valuation Techniques and Inputs   |
|------------------------------|---|
| Domestic unlisted shares     | <ul> <li>a) Asset-based approach. Valuation based on the fair value of an investee, calculated through each investment of the investee using the income approach, market approach or a combination of the two approaches, while also taking the liquidity premium into consideration.</li> <li>b) Transaction method of market approach. The approach is a valuation strategy that looks at market ratios of companies with similar profitability at the end of the reporting period, while taking the liquidity premium into consideration.</li> </ul> |
|                              | 8 1 1   |

### c. Categories of financial instruments

|  | December 31               |                           |  |
|--|---------------------------|---------------------------|--|
|  | 2019                      | 2018                      |  |
| <u>Financial assets</u>  |                           |                           |  |
| Financial assets at amortized cost (1)<br>Equity instruments at FVTOCI | \$ 1,427,222<br>3,101,049 | \$ 2,011,409<br>2,354,351 |  |
| Financial liabilities  |                           |                           |  |
| Measured at amortized cost (2)   | 27,644,053                | 26,435,599                |  |

- 1) The balances included the carrying amount of cash and cash equivalents, notes receivable and trade receivables (including related parties), other receivables and refundable deposits, which are measured at amortized cost.
- 2) The balances included the carrying amount of short-term borrowings, short-term bills payable, notes payable and trade payables (including related parties), other payables, long-term borrowings including the current portion and deposits received, which are measured at amortized cost.

### d. Financial risk management objectives and policies

The Company's major financial instruments include equity investments, trade receivables, trade payables and borrowings. The Company's financial risk management pertains to the management's operations-related market risks (including exchange rate risk, interest rate and other price risks), credit risks and liquidity risks. To reduce its financial risk, the Company is committed to identifying, assessing and avoiding the market uncertainties and reducing negative effects of these market changes on the Company's financial performance.

The main financial activities of the Company are governed by the Company's internal management and approved by the board of directors. The financial schemes, which include fund raising plans should be carried out in compliance with the Company's policies.

### 1) Market risk

### a) Interest rate risk

The Company was exposed to interest rate risk because the Company borrowed funds at both fixed and floating interest rates. The risk is managed by the Company by maintaining an appropriate mix of fixed and floating rate borrowings.

The carrying amount of the Company's financial assets and financial liabilities with exposure to interest rates at the end of the reporting period are as follows:

|                               | December 31 |            |    |            |
|-------------------------------|-------------|------------|----|------------|
|                               | 2019        |            |    | 2018       |
| Fair value interest rate risk |             |            |    |            |
| Financial assets              | \$          | 25,271     | \$ | 25,095     |
| Financial liabilities         |             | 2,000,000  |    | 2,000,000  |
| Cash flow interest rate risk  |             |            |    |            |
| Financial assets              |             | 50,112     |    | 53,154     |
| Financial liabilities         |             | 19,799,069 |    | 18,109,032 |

### Sensitivity analysis

The sensitivity analyses below were determined based on the Company's exposure to interest rates for financial assets and financial liabilities at the end of the reporting period. For sensitivity analysis purposes, the sensitivity rate was adjusted as a result of the volatile financial market. The measurement of the increase or decrease in the interest rates is based on 100 basis points, which is reported to the senior management denoting the management's assessment for the reasonableness of the fluctuation of the interest rates.

If interest rates had been 100 basis points higher or lower and all other variables had been held constant, the profit before income tax for the years ended December 31, 2019 and 2018 would decrease/increase by \$197,490 thousand and \$180,559 thousand, respectively.

### b) Other price risks

The Company was exposed to equity price risks involving equity investments in listed companies and beneficial certificates. The Company's investments in listed companies and beneficial certificates should be in compliance with the rules made by the board of directors in order to achieve the goal of risk management and maximize the returns on investments.

### Sensitivity analysis

The sensitivity analyses below were determined based on the exposure to equity price risks at the end of the reporting period. For sensitivity analysis purposes, the sensitivity rate was adjusted as a result of the volatile financial market.

If equity prices had been 5% higher or lower, pre-tax other comprehensive income for the years ended December 31, 2019 and 2018 would increase/decrease by \$155,052 thousand and \$117,718 thousand, respectively.

### 2) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in a financial loss to the Company. At the end of the reporting period, the Company's credit risk was mainly contributed from trade receivables in operating activities, bank deposits and financial instruments in financial activities.

To maintain the quality of trade receivables, the Company manages credit risk by assessing customers' credit status in terms of financial status, historical transactions, etc., and obtains an adequate amount of collaterals as guarantees from the customers with high credit risk. In addition, the Company reviews the recoverable amount of each trade debt at the end of the reporting period to ensure that adequate allowances are made for irrecoverable amounts. On the credit risk management of bank deposits and other financial instruments, the Company trades with counterparties which comprise banks with good credit ratings.

### 3) Liquidity risk

Liquidity risk is a risk in which the Company cannot pay cash or use other financial assets to settle the financial liabilities. The Company manages liquidity risk by monitoring and maintaining a level of cash and cash equivalents deemed adequate to finance the Company operations and mitigate the effects of fluctuations in cash flows. In addition, management monitors the use of bank borrowings and ensures compliance with loan covenants and it will not damage to the Company's reputation.

On the demand for capital payments for a particular purpose, the Company maintains adequate cash by way of long-term financing/borrowings. For the management of cash shortage, the Company monitors cash management and allocates cash appropriately to maintain financial flexibility and ensure the mitigation of liquidity risk.

The following table details the Company's remaining contractual maturities for its non-derivative financial liabilities with agreed upon repayment periods. The table has been drawn up based on the undiscounted cash flows of financial liabilities from the earliest date on which the Company can be required to pay. The table includes both interest and principal cash flows. Specifically, bank loans with a repayment on demand clause were included in the earliest time band regardless of the probability of the banks choosing to exercise their rights. The maturity dates for other non-derivative financial liabilities were based on the agreed upon repayment dates.

### December 31, 2019

### 31. SIGNIFICANT CONTINGENT LIABILITIES AND UNRECOGNIZED COMMITMENTS

In addition to those disclosed in other notes, significant unrecognized commitments and contingencies of the Company as of December 31, 2019 and 2018 are as follows:

a. Significant unrecognized commitments

The amount of unrecognized commitments are as follows:

|   | Decem              | ber 31                     |
|---|--------------------|----------------------------|
|   | 2019               | 2018                       |
| Acquisition of property, plant and equipment Acquisition of intangible assets | \$ 605,809<br>\$ - | \$ 1,774,925<br>\$ 500,000 |

b. A letter from the Ministry of Economic Affairs (MOEA) on July 28, 2011 stated that the term of the board of directors and supervisors (the "Board") of SOGO was terminated, and the election of the Board should be held by October 28, 2011. On August 26, 2011, in the shareholders' meeting, Douglas Hsu, Ching-Wen Huang, Mao-De Huang, Hsiao-Yi Wang and Satoshi Inoue were elected to be the representatives of the Board and Jing-Yi Wang was elected as a supervisor. On September 2, 2011, the registration of the Board was submitted to the MOEA, and on August 30, 2013, the registration of the Board was approved and completed by the MOEA.

For the resolution passed in the shareholders' meeting, SOGO's shareholders filed an appeal for an invalid resolution and for the withdrawal of the resolution of the shareholders' meeting. As of March 17, 2017, many verdicts, including the Year 100 Letter Su No. 3965 verdict made by the TTDC, the Year 104 Letter Tsai Shang No. 90 verdict made by the Supreme Administrative Court (SAC), the Year 101 Letter Kun No. 1589 and No. 1681 verdicts made by the THC, and the Year 106 Letter Tsai Shang No. 86 verdict made by the SAC, confirmed that the shareholders' meeting was legal and rejected the appeal of the SOGO shareholders.

Also, Heng-Long Li filed an appeal against SOGO and PLTI, alleging that the decisions made in the SOGO shareholders' meeting on August 26, 2011 were invalid. After the TTDC rejected the appeal in the Year 103 Letter Shang No. 1014 verdict, the THC rejected the appeal once more.

Moreover, the former chairman of PLTI, Heng-Long Li, stated that he appointed Chun-Chih Weng, Chao-Chuan Chu, Shen-Yi Li, Jui-Tsun Liu and Yu-Ying Chin as members of the Board of SOGO to replace Ching-Wen Huang, Satoshi Inoue, Douglas Hsu, Hsiao-Yi Wang and Mao-De Huang. Furthermore, those individuals (Chun-Chih Weng, Chao-Chuan Chu, Shen-Yi Li, Jui-Tsun Liu and Yu-Ying Chin) elected Chun-Chih Weng as the chairman of PLTI and applied to the MOEA for the registration of a change of the Board and supervisor of SOGO on August 8, 2011. However, the application of the registration was rejected by the MOEA, due to the election being held by the former chairman of PLTI, Heng-Long Li. Chun-Chih Weng, Chao-Chuan Chu, Shen-Yi Li, Jui-Tsun Liu and Yu-Ying Chin not only announced publicly that they are the five members of the Board of SOGO but also that they held the SOGO shareholders' meetings on September 5, 2011 and September 6, 2011. However, the decisions made in these two shareholders' meetings on September 5, 2011 and September 6, 2011 were not approved and not consented to by all of SOGO's shareholders. According to the Year 100 Letter Su No. 4224 verdict from the TTDC on January 22, 2014, the TTDC declared that the decisions made in the shareholders' meeting on September 5, 2011 were not approved legally; according to the Year 100 Letter Su No. 4164 verdict on November 28, 2013, the TTDC confirmed that the decisions made in the shareholders' meeting on September 6, 2011 were not approved legally. The THC passed the Year 103 Letter Shang No. 330 verdict on May 31, 2016 rejecting the appeal and confirmed that the resolutions of the shareholders' meeting on September 5, 2011 were not approved legally. In the Year 103 Letter Shang No. 87 verdict from the THC on August 17, 2016, the THC rejected the appeal and confirmed that the decisions made in the shareholders' meeting on September 6, 2011 were not approved legally. Chun-Chih Weng filed an appeal against the judgments. Under Court Reference Year 107 Letter Tai Shang No. 1591 verdict, issued by the Taiwan Supreme Court on December 13, 2018, the Court rejected Chun-Chih Weng's appeals and confirmed that the resolutions of the shareholders' meeting on September 5, 2011 were not approved legally.

c. In April 2019, under a ruling by the MOEA whereby "the terms and conditions of coupons for certain goods and for certain services within the retail industry should be documented in a standard contract while others should not", the Company and SOGO signed an agreement to have mutual performance guarantees on gift certificates bought by customers. The guarantee period was from April 1, 2019 to March 31, 2020. As of December 31, 2019, the Company's guarantee amount for SOGO was \$4,683,014 thousand and that of SOGO for the Company was \$3,043,635 thousand.

### 32. SEPARATELY DISCLOSED ITEMS

- a. Information about significant transactions and b. investees:
  - 1) Financing provided to others: Table 1.
  - 2) Endorsements/guarantees provided: Table 2.
  - 3) Marketable securities held (excluding investment in subsidiaries, associates and joint ventures): Table 3.
  - 4) Marketable securities acquired and disposed of at costs or prices of at least NT\$300 million or 20% of the paid-in capital: Table 4.
  - 5) Acquisition of individual real estate at costs of at least NT\$300 million or 20% of the paid-in capital: None.
  - 6) Disposal of individual real estate at prices of at least NT\$300 million or 20% of the paid-in capital: None.
  - 7) Total purchases from or sales to related parties amounting to at least NT\$100 million or 20% of the paid-in capital: None.

- 8) Receivables from related parties amounting to at least NT\$100 million or 20% of the paid-in capital: Table 5.
- 9) Trading in derivative instruments: None.
- 10) Information on investees: Table 6.
- c. Information on investments in mainland China:
  - 1) Name of the investees in mainland China, main business and products, paid-in capital, method of investment, information on inflow or outflow of capital, percentage of ownership, investment income or loss, ending balance of investment, repatriation of investment income, and the limit of investment in mainland China: Table 7.
  - 2) Any of the following significant transactions with investee companies in mainland China, either directly or indirectly through a third party, and their prices, payment terms, and unrealized gains or losses:
    - a) The amount and percentage of purchases and the balance and percentage of the related payables at the end of the period: None.
    - b) The amount and percentage of sales and the balance and percentage of the related receivables at the end of the period: None.
    - c) The amount of property transactions and the amount of the resultant gains or losses: None.
    - d) The balance of negotiable instrument endorsements or guarantees or pledges of collateral at the end of the period and the purposes: Table 2.
    - e) The highest balance, the end of period balance, the interest rate range, and total current period interest with respect to financing of funds: Table 1.
    - f) Other transactions that have a material effect on the profit or loss for the period or on the financial position, such as the rendering or receiving of services: None.

Note A: Translated at the rate of US\$1:NT\$29.98 and RMB1:NT\$4.2975 prevailing on December 31, 2019.

Note B: The payment was made by Pacific Construction Co., Ltd. (the former shareholder).

Note C: The payment made by the Company and the investment amount approved by the Investment Commission, except for the payment made by subsidiary and the subsidiary's investment amount approved by the Investment Commission.

Note D: The financial report was audited by an international accounting firm with a cooperative working relationship.

Note E: There is no upper limit, as stated in the Principles Governing the Review of Investment or Technical Corporation in Mainland China (No. 10720421530), which was issued by the Industrial Development Bureau, Ministry of Economic Affairs, ROC.

Note F: Three investment types are as follows:

1. The Company made the investment directly.

2. The Company made the investment through a company registered in a third region. The companies registered in a third region were FEDS Development Ltd. and Pacific China Holdings Ltd.

3. Others.

### VII. Review and Analysis of the Financial Condition, Performance and Risk Management

### 1. Review and Analysis of Financial Conditions

**Financial Conditions Analysis** 

Unit: NT\$ thousands

| Item Year  | 2018        | 2019        | Increase          | Percentage |
|--|-------------|-------------|-------------------|------------|
| Tea.   | 2016        | 2019        | (decrease) amount | Change(%)  |
| Current assets                                     | 25,052,856  | 20,746,075  | (4,306,781)       | (17)       |
| Investment using the equity method                 | 8,678,647   | 10,107,165  | 1,428,518         | 16         |
| Property, plant and equipment                      | 43,532,941  | 34,323,257  | (9,209,684)       | (21)       |
| Other assets                                       | 26,481,897  | 65,334,608  | 38,852,711        | 147        |
| Total assets                                       | 103,746,341 | 130,511,105 | 26,764,764        | 26         |
| Current liabilities                                | 46,630,770  | 47,667,701  | 1,036,931         | 2          |
| Non-current liabilities                            | 19,425,181  | 43,939,597  | 24,514,416        | 126        |
| Total liabilities                                  | 66,055,951  | 91,607,298  | 25,551,347        | 39         |
| Total equity attributable to owners of the Company | 29,523,906  | 30,790,406  | 1,266,500         | 4          |
| Common stock                                       | 14,169,406  | 14,169,406  | 0                 | 0          |
| Capital surplus                                    | 3,315,420   | 3,327,466   | 12,046            | 0          |
| Retained earnings                                  | 7,904,938   | 8,095,475   | 190,537           | 2          |
| Other equity                                       | 4,231,252   | 5,295,169   | 1,063,917         | 25         |
| Treasury stocks                                    | (97,110)    | (97,110)    | 0                 | 0          |
| Non-controlling interests                          | 8,166,484   | 8,113,401   | (53,083)          | (1)        |
| Total equity                                       | 37,690,390  | 38,903,807  | 1,213,417         | 3          |

An analysis of the amount of the change in the amount of 10% and the amount of assets in the current year is more than one percent:

- 1. The decrease in current assets mainly due to the decrease in cash and cash equivalents and accountable receivable.
- 2. The increase in investment using the equity method mainly due to the investment in Yuan Ding Enterprise (Shanghai) Ltd.
- 3. The decrease in property, plant and equipment mainly due to adopting IFRS 16.
- 4. The increase in other assets and total assets mainly due to the increase in right-of-use assets
- 5. The increase in non-current liabilities and total liabilities mainly due to the increase in lease liabilities
- 6. The increase in other equity mainly due to the increase in unrealized gain on investments in financial assets at fair value through other comprehensive income.

### 2. Review and Analysis of Financial Performances

2.1 Comparative Analysis of Financial Performances

Unit: NT\$ thousands rease) Percentage

| Item Year                      | 2018        | 2019        | Increase (decrease) amount | Percentage<br>Change(%) |
|--------------------------------|-------------|-------------|----------------------------|-------------------------|
| Operating Revenues             | 39,242,551  | 37,896,062  | (1,346,489)                | (3)                     |
| Gross Profit                   | 20,150,967  | 19,642,613  | (508,354)                  | (3)                     |
| Operating Profit               | 4,187,329   | 4,538,651   | 351,322                    | 8                       |
| Nonoperating Income (Expenses) | (1,638,214) | (1,435,713) | 202,501                    | (12)                    |
| Income Before Income Tax       | 2,549,115   | 3,102,938   | 553,823                    | 22                      |
| Net Profit For The Year        | 1,650,495   | 2,152,269   | 501,774                    | 30                      |

- 1. Analysis of change in Percentage:
  - a. The increase in non-operating income and expenses mainly due to the decrease in impairment loss.
  - b. The increase in pre-tax income and net income mainly due to the increase in the operating income and non-operating income and expenses.
- 2. The company expects the number of sales in the coming year and its basis, as well as the impact on the company's future financial business and its response plan: please refer to the "Report to Shareholders". •

### 2.2. Variation Analysis of Gross Profit: not applicable

### 3. Review and Analysis of Cash Flow

Unit: NT\$ thousands

| Cash and cash<br>equivalents - Beginning<br>balance in 2019 (1) | Total cash inflows from operating activities (2) | Total cash inflows from investing and financing activities (3) | Aduivalents — | Remedy p<br>negative bala<br>and cash ed<br>Investment<br>plan | nce of cash |
|---|--|--|---------------|--|-------------|

- 1. Cash flow analysis for year 2020:
  - a. Total cash inflows from operating activities are NT\$ 9.4 billion: mainly comes from cash inflows from operating activities.
  - b. Total cash outflows from investing activities are NT\$ 4.4 billion: mainly comes from acquisition of assets for operation.
  - c. Total cash outflows from financing activities are NT\$ 4.9 billion: mainly comes from repayment in lease liabilities and payment of cash dividends
- 2. Remedy plans for insufficient liquidity for year 2019 and liquidity analysis: None •

### 4. Major Capital Expenditures in Recent Years and Impacts on Financial and Operational Situations

### 4.1. Major Capital Expenditures and Sources of Funding

Unit: NT\$ thousands

|                                    | Actual source | Actual project  | Capital utiliza                          | tion schedule |
|------------------------------------|---------------|-----------------|--|---------------|
| Plan Item                          |               | completion date | Actual investment as of the year of 2018 | 2019          |
| Construction of Xinyi A13 Building | Bank loan     | 2019            | 5,429,360                                | 2,008,816     |

**4.2.** Other Expected Benefits: Sales revenue and gross profit expected to Increase: expanding the operation scale and increasing the market share.

### 5. Investment Policies in recent years, Profit and Loss Analysis, Improvement Plan and Investment plan in the coming year

Based on the overall performance of merged companies, investment income recognized using the equity method has been derived from stable profits obtained by investment companies. Furthermore, the Retail Group continues to develop new business locations, and activate potential market. Adhering to the traditions and spirit of the first department store company in Taiwan, the Company continuously builds a strong presence in Taiwan and expands into Mainland China to provide all-round products and services for all walks of life, with a view to meeting the needs of consumers in both Taiwan and Mainland China.

With the continuous expansion of our retail businesses, the profits are expected to inject new growth momentum, thereby leading to a more significant growth of the Retail Group's overall revenue and profit from the retail industry. In addition, the Company and our subsidiaries continue to adopt a prudent investment evaluation strategy, enhance our reinvestment businesses, and enhance operating synergy, in order to achieve success in business diversification.

### 6. Analysis of Risk Issues

### **6.1.** Impact and Response to Interest Rates, Exchange Rates, and Inflation Level on the Company in the Year Preceding Publication of Annual Report

### 6.1.1 \ Interest Rate Risk Analyses and Response strategy:

The Group was exposed to interest rate risk because the entities in the Group borrowed funds at both fixed and floating interest rates. The risk is managed by the Group by maintaining an appropriate mix of fixed and floating rate borrowings. The carrying amounts of the Group's financial assets and financial liabilities with exposure to interest rates at the end of the reporting period are as follows:

|                               |              |               | Unit: NT\$ thousands, |
|-------------------------------|--------------|---------------|-----------------------|
|                               | 2020/3/31    | 2019/12/31    | 2019/3/31             |
| Fair value interest rate risk |              |               |                       |
| - Financial assets            | \$ 6,855,407 | \$ 10,503,168 | \$4,922,098           |
| - Financial liabilities       | 30,703,648   | 31,388,615    | 35,876,260            |
| Cash flow interest rate risk  |              |               |                       |
| - Financial assets            | \$ 1,794,848 | \$ 2,662,905  | \$ 1,215,075          |
| - Financial liabilities       | 33,594,152   | 28,192,553    | 21,432,024            |

### Sensitivity analysis

The sensitivity analyses below were determined based on the Group's exposure to interest rates for financial assets and financial liabilities at the end of the reporting period. For sensitivity analysis purposes, the sensitivity rate was adjusted as a result of the volatile financial markets.

The measurement of the increase or decrease in the interest rates is based on 100 basis points, which is reported to the senior management denoting the management's assessment for the reasonableness of the fluctuation of the interest rates. If interest rates had been 100 basis points higher or lower and all other variables had been held constant, the income before income taxes for the ended March 31, 2020 and 2019 would have decreased/increased by \$79,498 thousand and \$50,542 thousand, respectively.

### 6.1.2 \ Exchange Rate Analyses and Response strategy :

The Group was exposed to exchange rate risk for holding assets and liabilities denominated in foreign currencies.

The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities (including those eliminated on consolidation) at the end of the reporting period are as follows:

Unit: USD\$ thousands

|             | 2020/3/31      | 2019/12/31      | 2019/3/31       |
|-------------|----------------|-----------------|-----------------|
| Assets      |                |                 |                 |
| USD         | <u>\$5,269</u> | <u>\$8,142</u>  | <u>\$28,622</u> |
| Liabilities |                |                 |                 |
| USD         | <u>\$3,882</u> | <u>\$ 3,900</u> | <u>\$3,276</u>  |

### Sensitivity analysis

The Group was mainly affected by the floating exchange rates of USD denominated assets and liabilities. The sensitivity analyses below were determined based on the Group's exposure to exchange rates for non-derivative instruments at the end of the reporting period. The change of exchange rates reported to the senior management of the Group was based on a 1% increase or decrease in exchange rate which also denotes the management's assessment for the reasonableness of the fluctuation of exchange rates.

If exchange rates had been 1% higher or lower and all other variables were held constant, the profit before income tax or equity of the Group for the ended March 31, 2020 and 2019 would increase/decrease by \$419 thousand and \$7,812 thousand, respectively.

### 6.1.3 \times Impact of inflation on the Company's profit and loss, and future response measures:

In 2019, the consumer price index (CPI) was relatively stable compared to price increases in neighboring countries in Asia. Inflation has yet to have an immediate significant impact on merged companies in 2019 up to the publication date of this annual report.

### 6.2 Policies for Risky or Highly Leveraged Investments, Lending, Endorsements, Derivative Financial Instruments, and Related Gains or Losses, in the Year Preceding Publication of Annual Report:

- 1. High-risk and highly leveraged investments: Our merged companies did not engage in any high-risk and highly leveraged investments in 2019 and from January 1, 2020 to March 31, 2020.
- 2. Loaning of capital to others: As of 2019 and from January 1, 2020 to March 31, 2020, the balance of funds loaned by our merged companies were NT\$6,225,971 thousand and NT\$5,389,938 thousand, respectively. Loaning of capital to others by merged companies must be implemented in compliance with the "Procedures for Lending of Capital to Others" approved by the Board of Directors and the shareholders' meeting, so as to comply with risk control, and prevent any unfavorable impact arising therefrom on the Company.
- 3. Endorsements and guarantees: As of 2019 and from January 1, 2020 to March 31, 2020, the balance of endorsements and guarantees provided by our merged companies were NT\$23,411,125 thousand and NT\$23,934,424 thousand, respectively. Provision of endorsements and guarantees by our merged companies must be implemented in compliance with the "Procedures For Endorsements and Guarantees" approved by the Board of Directors and the shareholders' meeting, so as to comply with risk control, and prevent any unfavorable impact arising therefrom on the Company.
- 4. Derivatives trading: Our merged companies did not engage in derivatives trading in 2019 and from January 1, 2020 to March 31, 2020.

### **6.3.** R&D Plans and Estimated Expenses in Recent Years and until the Annual Report being Published

Our merged companies do not engage in product R&D and manufacturing; hence, there was no R&D plan and fees involved. However, looking at the characteristics of the industry, nurturing and developing talents, and improving the qualities of management personnel are the necessary criteria for companies to move toward internationalization. With the increasingly intense competition in the global industry, the shopping mall war is no longer just about money, but also a war for talents. Hence, rapidly enhancing talent competitiveness becomes a key factor to ensure success in store expansion. Our merged companies are committed to improving "soft skills", and actively promote corporate culture and brand value, while providing systematic and professional service quality training courses via a complete education and training mechanism to nurture employees' professional, leadership and innovation skills, in response to rapid changes in the industry, thereby further improving the competitiveness of these companies.

### **6.4.** Company Impact and Response to Material Changes of Policies and Regulations in Taiwan and Foreign Countries in Year Preceding Publication of Annual Report:

The Company has taken the appropriate measures in response to changes in important policies and laws at home and abroad in the most recent year. In the future, the Company's legal, finance and accounting units will keep abreast of the latest changes in laws and regulations at all times, and will seek professional opinions from lawyers and CPAs to propose and formulate measures in response to changes in important policies and laws at home and abroad, so as to comply with the law and reduce the impact arising from such changes on the Company's finances and businesses.

### **6.5.** Technology Developments and Impacts on the Company and its subsidiaries from last year up to the Annual Report being published:

The Company pays serious attention to the trends of technological development, and continues to actively promote informatization. In addition, the Company effectively utilizes manpower to reduce costs and improve the Company's competitiveness. The Company is also committed to the application of information technology, and continues to develop our own mobile app, which incorporates restaurant reservation, member management, and e-vouchers, in response to the transformation of the retail industry from traditional to intelligent sales. Due to the rapid development of e-commerce, which significantly affects physical department stores, the Company continues to update our official website, while closely monitoring and expanding online shopping. Besides, the Company is also committed to O2O integration, so as to develop omni-channel department store retailing, in hopes of improving the Company's operational performance, and enhancing the rights and interests of all shareholders.

In order to keep consumers' personal information safe, the Company established the Personal Information Review Committee in October 2012 to coordinate strategies and implement the resource integration among the management of the Company's personal data and privacy protection and information security. In connection with information security risk inspection and the purchase of information security insurance, the Company has established the Information Security Task Force, in order for the Company to carry out the necessary self-inspection before purchasing information security insurance. The Company has established regulations governing active directory (AD) management for information security-related equipment network, system account life cycle and authorized account management, data access record and off-site backup, network and communication security (antivirus/e-mail). On the other hand, the Company implements an internal control system and an information security policy, where the internal audit unit and CPAs monitor the implementation effectiveness of these regulations and procedures every year, in order to ensure the appropriateness and effectiveness of these regulations and procedures.

In 2020, the Company will implement relevant safety rules including performing personal information inventory check and de-identification of personal information and obtain third party certification in order to achieve the goal of avoiding information leakage and protecting members' personal information.

### 6.6. Changes of Corporate Image and Impacts on the Company's Crisis Management in the Recent Years: None

### **6.7.** Expected Benefits and Risks from Mergers in Recent Years until the Annual Report being Published:

Our merged companies did not have any M&A plans in 2019 up to the publication date of this annual report. However, a future M&A plan will be carried out according to the merged company's Procedures for Acquisition and Disposition of Assets, by adhering to careful assessment, and by taking into consideration whether the merger can lead to specific performance at the company, in order to protect the interests of the company, as well as the rights and interests of shareholders.

### **6.8.** Expected Benefits and Risks from Plant Expansion in Recent Years until the Annual Report being Published:

Our merged companies have established the relevant units to carry out detailed assessment and planning with regard to the expansion of business locations, and to fully assess the expected benefits and possible risks using a meticulous financial module. After the establishment of a new business location, the merged company will pay close attention to changes in the industry and the operating status of the business location at all times, and propose appropriate measures in response to possible risks arising therefrom.

### **6.9.** Risks from Concentration in Supply or Sales in the Recent Year until the Annual Report being Published:

The Company belongs to the department store retailing industry, and sells a wide range of products. In addition, the Company has not engage in centralized purchase or sale of goods with a single manufacturer or customer. Therefore, the Company did not encounter any risk of centralized purchase or sale of goods.

**6.10.** Impacts and Risks from Changes in Directors and Shareholders with Greater than 10% Shareholding or Their Selling of a Large Number of Shares in the Recent Yeas until the Annual Report being Published:

Our merged companies did not engage in any significant transfer or exchange of equity in 2019 up to the publication date of this annual report.

- 6.11. Impacts and Risks from Changes of Ownership in the Recent Year until the Annual Report being Published: None
- **6.12.** Litigations or non-Litigations

Please refer 2019 Annual Report from 103-70 to 103-71.

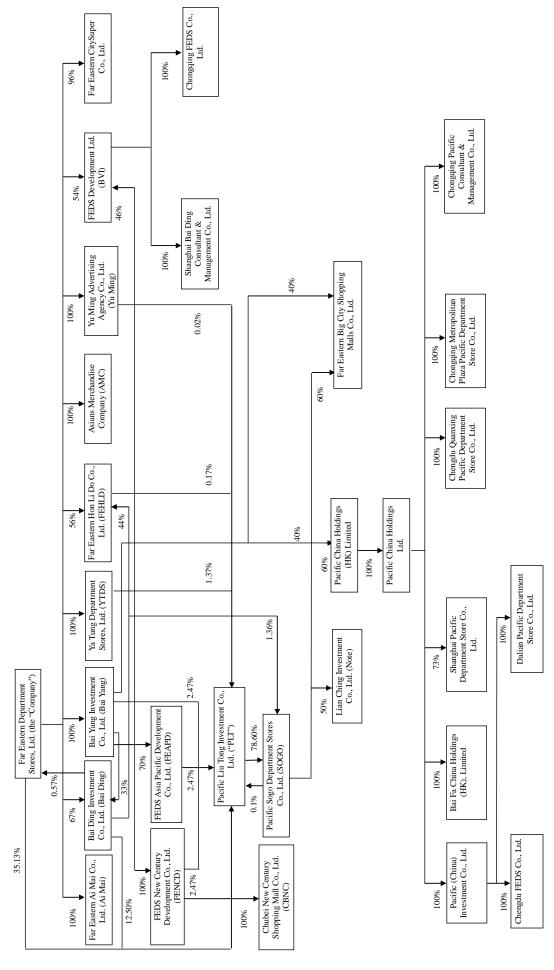

**6.13. Other Major Risks:** not applicable

7. Others: None
